## Like an Open Book For Young Mothers!

Most women look upon becoming a mother, for the first time, as something full of unknown mysteries; a agony and pain; a time of distressing days and months. These are misguided conclusions. "Mother's Friend," used daily before confinement, will prove its great value as an ally to those distressing pains and assist nature in doing its work with ease and comfort. Get "Mother's Friend" at your druggist.

The young mother should become acquainted with the information contained in a book on Motherhood that will be mailed free to all who write. Address:
