which he and his followers will be the leading spirits.

At this stage the convention was little better than a howling mob, and in the midst of it M. Miller of California came to the front on the prohibition question.

The confusion became worse. Fifty or more were clamoring for recognition and the order which had been passed was being overturned.

At this juncture Gen. Weaver dissolved the convention, who was worn out with his fruitless efforts to preserve order.

Then the convention got down to business again, and the matter of choosing a national committee was finally decided.

Chairman Weaver declared a welcome recess to enable the over-tired and exhausted delegates to select members of the national committee from their respective states.

After recess the roll of states was called for members of the national committee, and the convention adopted the nomination of appointing three members from each state instead of one member, as the old party had.

Alliance Congressman J. G. Otis of Kansas nominated H. E. Taubeneck of Illinois as chairman of the national executive committee.

Taubeneck was chosen by acclamation. Leonard Taylor of Taubeneck's party brought that gentleman to the rostrum, where he made a brief but very manly and modest speech.

A few moments of confused preparation followed, and the first convention of the People's party of the United States had passed into history.

At this juncture the convention was adjourned until the following day, when it will meet at the same place.

venge. Like a vicious young colt it kicked the resolution into kingdom come with a sickening suddenness.

To-night it was reported that many members of the National reform organization, headed by President W. Jones of Illinois had withdrawn from the party because of the defeat of the resolution.

Possibly the picture that will be longest remembered by those who witnessed it will be the unequalled display of enthusiasm by the big gathering at the joining of the blue and gray with the black in the person of Gen. Weaver.

All through the rapidly succeeding hours, the scenes and incidents from the first moment were of the most absorbing nature.

At this juncture Gen. Weaver dissolved the convention, who was worn out with his fruitless efforts to preserve order.
