THANKSGIVING PROCLAMATION

Gov. William Spry's annual Thanksgiving proclamation is said to be one of the very shortest of its kind ever issued by any president of the United States or a governor of any state. It reads:

"By the Governor of the State of Utah, a Proclamation: Hallowed as an institution of the Pilgrim Fathers, the custom of setting apart a day in each year for thanksgiving and prayer comes down to us pure and wholesome in the sweet simplicity of its observance.

"In perpetuation of this custom and in pursuance of the proclamation of the president of the United States, I, William Spry, governor of the state of Utah, do hereby designate Thursday, November 28, 1912, Thanksgiving Day, and urge upon the people of this state the observance of the day in its true spirit.

"At the altar of every family circle and in the places of worship, let thanks be returned for the blessings of life and liberty, of peace and happiness; for the enjoyment of material prosperity and for every good and precious gift. In humility, let grateful acknowledgments be made of the manifold evidences of divine direction and protection in all the affairs of life.

"In witness whereof, I have hereunto set my hand and caused to be affixed the great seal of the state of Utah. Done at Salt Lake City the capital, this 15th day of November, A. D. 1912. William Spry, Governor."

PROVO IS OUT FOR THE W. G. SHARP RAILROAD

PROVO, Nov. 25.—The citizens of Provo tonight made a determined bid to secure the terminus of the Utah railroad coal road from Emery and Carbon counties. In response to a call from Mayor Decker, an enthusiastic mass meeting was held. The sense of the meeting was that Provo must have the terminus, and a committee was appointed to raise the necessary thirty thousand dollars, this city's quota of the cost.

The company several months ago made surveys of the road from the coal fields to Spanish Fork, whereupon the Provo Commercial club communicated with the officers of the company and made an attempt to secure the terminus for this city. The railroad people replied that it would be necessary to purchase the right of way from Spanish Fork Canyon to Provo, a distance of eleven miles. The club named a committee to investigate the cost of the right of way. Tonight the committee reported that from thirty-five to sixty thousand dollars would be necessary. The committee also stated that immediate action would be necessary if Provo was to be considered at all.

Among the speakers at tonight's meeting who favored the proposition were D. R. Beebe, W. H. Ray, Fern Decker, F. A. Hulsh, R. R. Irvine and Joseph T. Farrer. Mayor Decker appointed a committee of ten to take subscriptions for Provo's

share of the expense. Present at the meeting was H. S. Kerr, engineer for the company, who said contracts will be let as soon as the money is guaranteed. He said his company would erect a round house and other necessary buildings at Provo at a cost of a hundred and fifty thousand dollars and give immediate employment to between fifty and seventy-five men. It is believed the necessary sum will be raised within two weeks.

PROBATING SWEET ESTATE

Petition Filed For Guardianship of Three Minor Children.

On behalf of Mrs. Frances M. Sweet, widow of the late Arthur A. Sweet, Frederick A. Sweet has filed a petition in the probate division of the Third District court at Salt Lake City for the appointment of himself as guardian of Marcela Wade Sweet, Harold Arthur Sweet and Duila Louise Sweet, aged 11, 9 and 2 years, respectively. The petition declares that the appointment of a guardian is necessary for the probate of the will of deceased, who left an estate valued at \$117,959.24.

GAMBLING CLOSED IN CARBON COUNTY

Sheriff Thomas F. Kelter Serves Notice On Proprietors of Saloons and Other Places As to Violation of Law.

Gambling, open or otherwise, is a thing of the past in the city of Price and the towns of Carbon county. Sheriff Thomas F. Kelter has issued written orders from his office to all owners or those operating gambling devices in Price and the other places coming under his jurisdiction. The law, which is to be strictly enforced, applies also to owners of property as well as to renters of the same. City Marshal John U. Bryner has also notified the Price people concerned verbally of his intention to enforce the law. Sheriff Kelter's notice, served personally, reads:

Notice to Gamesters.
"Price, Utah, Nov. 25.—My attention has been directed to violations of the law in your establishment, where, I am advised, you have conducted various gambling games. It is my duty as an officer of the law to set upon such information when communicated to me, and I accordingly have to advise you that any information that I may receive on and after this date as to gambling on your premises will induce to your arrest and prosecution as provided for in Chapter 134, Session Laws of Utah, 1911. Yours truly, (Signed) T. F. Kelter, Sheriff Carbon County, Utah."

For several months gambling in Price has been wide open, being run "both ways from the house," as it were. Those engaged in it and the owners of games have paid a fine each month to the city, averaging about twenty-five dollars each or something like two hundred and fifty to three hundred dollars monthly. This money has gone into the city treasury after deducting city court costs and the like.

Helper On the List.

At Helper the owners of games and professional gamblers have been fined monthly alike and a considerable revenue has been derived therefrom. In the coal camps, it is said, gambling was discontinued at the saloons when the new state law went into effect making it a felony. Scofield has never been much of a gambling town at any time, but what does exist will now be stopped.

Sheriff Kelter, it is said, will play no favorites, but is determined that it shall no longer continue. It is believed that conditions at Price and other places in Carbon county has been called to the attention of Governor Spry and A. H. Barnes, attorney general, as such action has been suggested for some time by citizens of Price. There are few business men in the county but what are against gambling.

UTAH PRODUCTS ARE UNDER ARIZONA BAN

Strict quarantine against all nursery stock, hay, grain, alfalfa seed, straw and fruits from the entire state of Utah into Arizona has been declared by the Arizona commission on agriculture and horticulture.

A. M. Merrill, state entomologist for Arizona, states that the commission had declared a quarantine against the entire state of Utah and against a number of counties in Idaho and Wyoming where the alfalfa weevil is bad.

The object in declaring the quarantine is to check the alfalfa weevil epidemic that exists in Utah and prevent it getting into Arizona. It is said.

SQUAW ASKS FOR DIVORCE ON CHARGE OF CHUELTY

VERNAL, Nov. 25.—It was not so very long ago that the Indians began securing licenses to wed, but they are now becoming civilized more rapidly and are beginning to settle their marital troubles in court.

The two Indians who want a divorce are Cononino and his squaw Kalbab of Rangley, Colo. They have been married more than twenty years, but the woman declares she can no longer stand the abuse heaped upon her.

She asks for relief and the custody of the two children.

AS TO BRUSH SALOONS

Coal Camps May Incorporate As Towns to Do Away With Them.

That they may have something to say in the matter of who and what kinds of business is to be carried on at their camps, it is rumored that Utah Fuel company and other of the corporations of Carbon county are to incorporate as towns such camps as Castle Gate, Koolworth, Sunnyside, Winter Quarters, Clear Creek, Spring Canyon and Panther Canyon as soon as the two latter have sufficient population. The others mentioned are already of sufficient size.

The decision on these lines seems to have been formulated because of the insistence of establishing "brush saloons," as they are termed, adjacent to the coal camps, a condition which the coal companies are not desirous of seeing, as they claim such places are a detriment and a nuisance to conditions as they now exist without them. The county commissioners license all saloons outside of towns.

If these places are incorporated it means of course that a very large volume of taxes coming into the county treasury will be cut off and a corresponding increase made in taxes outside of these places, otherwise, the county unit. It is not likely that any more will be made, however, until after the policy of the incoming board of county commissioners is known.

PURE WATER FIGHT IN STEADILY WAGED

C. F. Emery, sanitary inspector in the office of the state board of health, was this week in Sanpete county, where he made an inspection in connection with the board's campaign for pure water supplies.

The board is trying to get residents of the state to use springs instead of surface wells and irrigating ditches for culinary purposes. Emery made an inspection in Utah county yesterday.

The inspector is gathering data on the disposal of refuse and unsanitary corrals. This and the water supply will be treated of fully in the annual report of the board, which is being compiled.

Emery is expected to visit Carbon and Emery counties this week, looking especially into water conditions.

NORMAL CERTIFICATES ARE HELD VALUELESS

The teachers of Salt Lake City received the announcement the other day that those teaching on certificates from the state normal must take out state teachers' licenses at once. This means that fully half of the teachers of Zion and even the state have been teaching without a license.

This point was decided a week ago by Attorney General Albert R. Barnes, who said, in his opinion, the only legal right to teach was given at the offices of the state board of education. This will mean that more than a thousand certificates of the state are void.

GOVERNMENT COAL MINING IN ALASKA

SEATTLE, Wash., Nov. 25.—Mail advices from Seward say the government is assembling a coal mining outfit at Knik, to be shipped into the Matanuska coal field as soon as the snow is heavy enough for travel.

Two hundred tons of Matanuska coal will be mined by the government to enable the navy to test the steaming quality of the Alaska fuel. Another government coal expedition is at work in the Bering river field.

Good Advertising Performs Genuine Public Service

Information about new and better things to wear, home necessities, comforts and utilities. It enables everyone to purchase the well as the luxuries of life at lowest cost. It identifies the most reliable merchants, the most dependable merchandise, and the best stores. It tells where to buy and how to buy to best advantage. It is a powerful factor in the successful promotion of every vital factor in the economic management of the home. Those who advertise regularly in The Advocate recognize your purchase and invite your confidence and patronage—and deserve it. The surest way to save money is to follow these advertisements constantly. Profit by the information they contain and the money saving opportunities they afford.
