Its language reads like a paper and after you sum it up it is a paper. Herewith find check for one-fifty covering a year's subscription. People in this end of the county like to read a good newspaper so when I am out and around I shall just get you a bunch of cash subscribers and send the money with their names. I know of one instance where a Price paper was handed to a party to take home and read, but when he saw what it was he handed it back and said nothing doing. That wasn't The Sun."
