WAR DECLARED ON THE THISTLE

WARNINGS ISSUED TO THE FARMERS OF THE STATE.

Post Appears to Have Made Start in Salt Lake County and is Spreading Through Carbon, Cache and Utah to Other Sections—Agricultural College Professors Issue Warning.

The Agricultural College of Utah at Logan has issued warning to the farmers of the state urging destruction of the Canadian thistle. The bulletin says, among other things, that this war should be one of utter extermination. There can be but one outcome if all the people—the farmers, the city folks, the counties, the cities and corporations—line up in their determined might to slay the invading army. The army of the enemy originated in Europe. It has already overrun many parts of Canada and is now making its march of devastation through this country. Detachments have already been found in Cache, Salt Lake, Utah and Carbon counties. They are especially active in the suburban districts, and are thoroughly intrenching themselves along the canals and ditches of these sections. Unless we bring to bear every available force, and execute the law strictly, it will be a matter of but a short time until the enemy will have us firmly gripped in his mighty arms.

Description of the Post.
The Canada thistle is a perennial plant, living on for after year. It ranges from one to three feet in height, with moderately slender stalks as compared with the other thistles. The leaves are very spiky and the margins have a ruffled appearance. The spines cause irritation to the mouth if five stalks fed on food from thistle infested fields. The stems are much branched, but smooth. The flower heads are borne near the top of the branches in a somewhat clustered condition. The flower measures about half an inch in diameter, or less, and is usually purple in color, but many range to almost white. It blooms usually from July to August, this year as early as June.

Like the German Empire.
Like the great German empire, it has provided itself with immense quantities of reserve food, which is stored in its monstrous underground root system, called root stalks. This constitutes its great strength and makes possible its mighty endurance. The plant does not have to depend on seed each year for its propagation, but will live on indefinitely without this process. The great root system has power to send its new shoots or plants from a thousand life giving centers. There are definite cases where a single seed has sprouted and within two years, through the root system alone, spread to cover twenty square feet of surface. This insular feeds so heavily on the soil and covers the ground so completely that no other plant has any chance of surviving. It is the horror of all farmers who know it.

RYLAND SECURES CONTRACT

Work to Begin Right Away On New School Building For Price.

Bids for the erection complete of Price's new school building, to be just north of City Hall, were opened by the school board last Saturday evening. The contract calls for a twelve-room two-story brick building as per plans drawn by Miles E. Miller, architect of Salt Lake City. The plans were made to come within thirty-five thousand dollars by direction of the school board.

George Ryland was the successful bidder at \$13,700 and is given the contract. The next lowest was that of Lars Gunderson, \$18,200. P. M. Fredrickson of Salt Lake City wanted \$18,200, while the bid of Oliver J. Harmon of Price was \$41,700. The bid of Ryland is for everything complete.

Contractor Ryland announces that work is to begin right away and the structure rushed to an early completion. Architect Miller was on the ground the first of the week and staked off the ground for the contractor.

H. W. Crockett, a well known local agent of Price, Utah, has established a newspaper, *The Sun*, which made its initial appearance June 4th. The new publication is a six-column, eight-page weekly, bright and newsy and will doubtless find substantial encouragement in the community in which it is published. Publisher Crockett has had many years experience in newspaper work, and with his present insurance connections, which he will retain, is in a position to perform valuable service in educating his readers as to appreciation of the work rendered by insurance—San Francisco Underwriters' Report, 17th.

BUILDING AND VALUABLE CAR BURN AT SCOTTFIELD

SCOTTFIELD, June 22.—An old building owned by Mrs. J. L. Price, located in front of the railway water tank and used as an automobile garage by John H. Nielson, and Nielson's \$1000 automobile were completely destroyed by fire at 2:30 o'clock this morning. The origin of the fire has not been determined, but from all indications it seems to have been started maliciously by some unidentified person.

The car had not been used since Monday evening. When the fire was first observed by Joseph Parnley and Thomas Pugh, one door was standing ajar and the entire lower part of the building was in flames, making it impossible to get the car out.

There was no insurance on the building. The automobile carried five hundred dollars insurance.

SUNDAY SERVICES AT THE PRICE METHODIST CHURCH

Sunday school at 10 o'clock in the forenoon, morning worship at 11 o'clock and league and evening worship at 8 o'clock. The pastor will preach in the morning. The subject will be "A Love Letter in the Scriptures." The league service will be at 8 o'clock, and as announced last week will close early. The pastor will lead the evening service. He invites you to come and to think concerning the subject "The Greeks and the Italian: Once a Prince—Why Not Now?" All people of Greek or Italian blood are especially invited to this service.

OUR METHODS AND SYSTEM

Of keeping track of business is such that we never allow an insurance policy to lapse or go by the day of expiration. Few people remember when their policies expire. This is a part of our business and we notify the assured. A fire might in the meantime come.

Policyholders in this agency are invariably notified of the date of expirations. The moral is to place business with an agency that keeps track of your expirations.

We represent eight of the best fire insurance companies doing business in Utah. We make and maintain our own rates, independent of the fire insurance trust, otherwise known as "the board of underwriters."

We also write plate glass insurance, execute court bonds and do a broad and liberally conducted general insurance business.

We're the pioneers in the insurance business at Price and throughout Eastern Utah.

Ask us for rates, by letter, telephone or telegraph or personally.

HOTEL SAVOY IS SOLD

Lowenstein Gets the Home Furniture and Lease For \$2500.00.

In district court at Price last Monday Judge Albert H. Christenson approved the sale of the Hotel Savoy furniture and fixtures, including the lease on the building, to Lowenstein Mercantile company.

The consideration is thirty-five hundred dollars. Whether the Lowenstein are to conduct the place themselves or will again rent the place to some hotel man, The Sun is not informed.

D. M. Shireman, for some time receiver of the house and representing the Merchants' Bank at Salt Lake City, goes from here to Tooele, where the bank has another hotel on its hands, as it were.

After straightening up things at Tooele, Manager Shireman will return to Salt Lake City. He will be at Price, however, for several days yet.

THREE TOWNS TO SOON VOTE ON LOCAL OPTION

Logan, Provo and Farmington will hold local option elections June 29th. Copperfield will also, if the supreme court of the state decides that the petitions which have been filed are sufficient and that the new town is entitled to an election.

There was much discussion over the petitions filed at both Logan and Provo, and it was necessary to carry the Provo case to the supreme court for a decision on the election. In both cases it was claimed there was not sufficient signatures on the petitions for the calling of an election.

The "dry" in Logan and Provo are active in lining up forces for the election and it is expected that a large vote will be polled in both Logan and Provo. The Copperfield case will be decided by the supreme court this week. In Farmington campaign committees are at work.
