POTASH WORKS TO START SOON

OFFICIALS OF COMPANY ARRIVE AND TELL OF PLANS.

Expect to Produce Mineral in Great Quantities and Get Free of German Trust—Million Dollars Expended For Machinery, Rights of Way, Tramway, Roads and Buildings.

With \$1,000,000 expended for machinery, rights of way, tramway, roads and buildings, the Mineral Products Company of America will begin the production of potash at Marysvale on September 20th. The refining plant is completed and the boilers are fired.

Howard F. Chappell, president of the company, of New York, Sidney J. Jennings, vice president and also vice president of the United States Smelting company, and Carl Hagedorn, engineer for the Washington, Church, Kerr company, which installed the plant, are in Utah and left this week for Marysvale for a general inspection of the property before the mining and machinery are started, says the Herald-Republican. The company has twenty-five square miles of potash deposits near Marysvale and expects to clean a hundred tons of ore daily and produce twenty-two tons of pure potash. This amount will be increased as soon as the present plant is in running order.

Armour Are Interested.

This is the company in which the Armour are interested and for which a large number of Eastern chemists have made many samplings of the Utah potash to determine whether it is of sufficient strength and quantity to be a profitable industry. It was found that the deposit ran about 25 per cent in potash and that 1 per cent is lost in cleaning the alumina ore. Since January 1st the Mineral Products company has built a tramway fourteen miles long to the top of the mountain, a wagon road six miles long from the foot of the mountain to the reduction plant and the plant itself. Beginning September 20th the company will employ about a hundred men at Marysvale.

All those who are going to Marysvale on the inspection trip speak highly of the possibilities of the industry developing into one of the chief minerals produced in Utah. This is the first potash mine in the United States to be operated on a commercial basis, although there have been several attempts in California to obtain potash from the beds of an old lake.

Will Enlarge the Plant.

"We shall begin at once to produce potash and when we have everything running smoothly we will increase the size of the plant," says President Chappell. "Everything is in ship shape at the mine and we are not sparing any expense in getting the best men obtainable to run it for us. We will not do anything with the boiler from which aluminum is obtained for some time, at least. What we want to do is demonstrate that Utah potash is found in such quantities that it is a commercial proposition, and when the first shipment goes East the United States will have taken a step to free itself from the domination of the potash trust of Germany."

"As soon as we get the mine heading driven and there is more room, additional men will be employed. The Mineral Products Company of America is a closed corporation, and we did not intend to have any publicity regarding our operations at Marysvale until we were in a position to produce the potash. When we return from Marysvale there may be something to give out regarding the Utah potash deposits which we never dreamed of when we began this work."

BUSH COMING TO UTAH

Head of Denver and Rio Grande Here This Week.

H. F. Bush, president of the Denver and Rio Grande and receiver for the Missouri Pacific-Iron Mountain lines, will come to Utah the latter part of this week on an inspection trip over the Denver and Rio Grande. It is expected he will hold a conference with Western Pacific officials at Salt Lake City. It is rumored that the receivers of the Western Pacific desire to cancel the traffic agreements with the Denver and Rio Grande and run the road as a "free lance" traffic road, so that it may receive westbound traffic from all the roads covering in Salt Lake City.

A. B. Apperson, general superintendent of the Denver and Rio Grande, who has been in Denver for a week, has returned to Zion. While in Denver he was in several conferences with the operating officials of the road concerning the arrangement of the winter schedule of trains.

NOTICE TO OWNERS OF PRICE WATER COMPANY STOCK.

The City of Price, through the undersigned committee, will purchase a number of shares of the stock of the Price Water company. Stock must be issued (transferred) to Price Municipal Corporation, Carbon County, Utah, and delivered to L. A. Lauber, recorder of said city, at his office or place of business. AN AUTUMN TAILOR.

Another boyish in line, this suit of very wool mohair, with full skirt and 5/8 length coat, showing a semibelted effect. The collar suits high in military fashion and a turnover velvet collar serves as smart trimming. The trim color of fawn silk and the white-tipped button boxes afford a smart effect.

MARNEST ARE GOOD

Green River Fruit Pinks Ready Sale In This County.

A. D. Lewis came home and spent Sunday with his family and early this week went out among the fruit growers to arrange for more staff to fill the orders he has been taking in the coal camps of Carbon county, and Green River's Blomach, Sunday night he sent out a veritable host of peaches.

Lewis has been handling express shipments of peaches and he will probably handle nearly two thousand dollars' worth of local products the present season. Starting in a couple of weeks ago he merely intended handling the crops of Chris Fyfe, Frank Seaman, Gay Ingels and himself, but a number of other growers seeing that he was finding good markets have asked him to handle their stuff also, which he is doing.

He absolutely refuses to handle any stuff that is not high grade and in first-class condition. Most of the stuff he is shipping is from trees that Lewis himself sprayed. He is succeeding in opening up an avenue for Green River Valley products that has never been touched to any great extent before. When he runs across a buyer that some other Green River grower or the local association has made quotations to he does not interfere with the transaction, aiming merely to open up new business and establish firmer relations with desirable markets.

EASTERN AND SOUTHERN UTAH

(Continued from page two.)

deceased was born in Denmark sixty-six years ago, was a member of the Mormon church and a blacksmith by trade.

J. Carl Allred and family of Provo have been here for a few days visiting friends and relatives. They made the trip in their automobile.

Miss Levan Larsen entertained at a bundle shower Friday evening, September 15, in honor of Miss Emma Hain, who was married to Kenneth H. Williams of Ephraim, Wednesday, September 14th.

Mr. and Mrs. Thomas Billington of Kirksville, Mo., have been here visiting with relatives.

Peter Mickel, who has regular employment at Eureka, has been here spending a few days with his family. Hon. Jacob Johnson has removed his family to Salt Lake City. They departed for their new home Tuesday.

Mr. and Mrs. Andrew Rosenlund of Eureka have been here this week visiting with their son, Paul, our popular young blacksmith.

Miss Margaret Johnson, daughter of Mr. and Mrs. J. M. Johnson, went to Mt. Pleasant Tuesday to commence her school year at the Winchuck academy. Miss Johnson will stay at the dormitory.

One of the most pleasant affairs of the week was the wedding dance given at the Lyceum theater, Wednesday evening, in honor of Mr. and Mrs. Kenneth H. Williams, who were married in the Manti temple Wednesday.

FAIRVIEW.

FAIRVIEW, Sept. 11.—The staff called at the home of Charles Briggs, September 6th, and left a fine baby boy.

Miss Rosie Hichenback of Richfield was the guest of Elyse and Mary Lindquist the past ten days.

Mrs. Rena Brady of Utah, Ida, is a guest at the home of her daughter, Mrs. A. Ira Cox.

Urban Picknell of Salt Lake City is visiting with John L. and W. E. Denev.

Mr. and Mrs. Emil Christensen came out from Salt Lake City Wednesday to visit relatives here.

Miss Mary Lindquist went to Salt Lake City and Provo to visit relatives and friends.

Merril and Darrel Rosenlund returned from the fair at San Francisco last week, and report having had an excellent time.

Mr. and Mrs. Loren Anderson moved to Mound this week, where Mr. Anderson will teach in the high school.

Friday evening a party was given at the home of Miss Verda Cheney by Miss Velma Alfred. Twelve girls were present. The evening was spent in singing, music and fortune telling. Delicious refreshments were served.

Martin Madison and Miss Lucille Peterson were married in the Manti temple, September 10th. A reception in their honor was given Thursday evening at the home of the bride's parents, Mr. and Mrs. Peter Peterson.

Monday afternoon a party was given at the home of Mrs. Alberta Brady for the primary officers and a few guests. A good program was given, after which a chicken supper was served. The evening was spent in primary games and games, followed by serving ice cream and cake.

Thursday evening a chicken wake was given at the Lindquist home complimentary to Miss Rosie Hichenback of Richfield. Supper was served at midnight.

September 10th Mrs. Blanche Olson entertained at a reception in honor of Mrs. Ernest Paulsen of Salt Lake City. The afternoon was spent in music, singing and social chat, an excellent luncheon being served in the meantime.

UINTAH BASIN SECTION

MYTON, Sept. 11.—John D. Hawkins died at his home in Dry Gulch, September 10th, of heart trouble. The funeral was held in the Presbyterian chapel last Monday, Rev. George Sloan officiating. The floral offerings of friends were profuse. Burial was at the Myton cemetery.

The rain last week came just in time for fall plowing and to settle the roads built this year. The land pieces of road south of Rossett and west of Myton have been greatly improved. A great deal of dragging has been done.

William Wedig has thrashed his wheat on the 10th ranch. The average was more than fifty bushels to the acre. The name of this wheat is the "Luganated" Indian, and was brought in Utah by the Sandstone ranch people of Vernal, from Colorado. Wedig and Hirth will exhibit samples at the fair.

Albert H. Knease, Indian agent at Fort Duchesne, has lately returned from Salt Lake City and other points on the outside. While in Salt Lake City Knease gave out a number of interesting and valuable interviews.

There are a hundred and twenty-five automobiles in the Uintah Basin. The taxes from the number will run into considerable money, which is to be expended on the roads.

Just before the recent rain the water in the Duchesne river was lower than it had been for years, but still there was plenty for irrigation. Water will probably always be enough water in this river to irrigate all the land under it.

There was not much doing in Myton on Labor Day, last Monday. The Myton State bank, the postoffice and the government survey took the day off. The Myton baseball team went over to Vernal and met another Waterloo.

W. R. Henderson of Vernal and Mr. and Mrs. Ross Bartlett of Rossett spent a short time in Myton on Tuesday. Henderson and family recently returned from the Panama exposition.

Miss Leah Sutton of Salt Lake City, daughter of H. C. Sutton, formerly of the reservation, has gone for an extended visit to Colorado, Nebraska and Iowa.

Mr. and Mrs. L. H. Allen spent Monday night in Myton and left Tuesday morning for San Francisco, where they expect to visit the Panama exposition.

Fritz Scheinits is suffering from a dislocated shoulder as the result of an automobile accident which occurred at Murray while Fritz, Praefke and Morrison were en route to Salt Lake City last week. The other occupants were not injured.

F. S. Collett, secretary of the Dry Gulch Irrigation company, returned last Saturday from Salt Lake City. He did his usual good habit boating while in the city.

Mr. and Mrs. H. H. Nelson of Vernal made a visit to Myton the first of the week. They were accompanied home by Master Teddy Morrison.

The Uintah County Cattle and Horsegrowers' association has increased the reward for apprehending cattle thieves from \$250 to \$500.

Mrs. Marie Hardy and daughter, Miss Sophia, left for Price last Saturday to spend a week or so.

J. C. Ward has been from Neola this week. He says that E. W. Gilman raised this year a thousand bushels of wheat on twenty acres.

News from North Myton Bench this week led to the effect that two boys arrived at the home of Ted Wardle last Monday.

Walter Gentiger of Ogden brought another load of land buyers into the basin this week. The party this time included F. H. Tipp and Parley Mayhew of Ogden. They are going to purchase Indian land.

Mrs. B. L. Dorr and sons, Bert and Clyde, have gone to Salt Lake City, where the boys have resumed their work in the Salt Lake City high school.
