LIVE STOCK RATES

Interstate Commerce Decision Received in Utah With Edict.

Decision by the interstate commerce commission in Washington, D. C., last Monday, holding rates on live stock from certain points in Utah, Idaho, Oregon and Montana to Los Angeles are unreasonable, was received in Utah later with great satisfaction. The decision provides for joint rates on hogs in single deck cars not to exceed 90 per cent of the rates maintained on cattle from and to the same points. The present rate on sheep is three dollars higher than on cattle, and on hogs 95 per cent of the cattle rate. B. W. McClure, secretary of the National Woolgrowers' association, says of this:

"We did not get all we went after, though we thought at the time we argued the matter before the commission in Denver, June 14, 1916, that they would see our viewpoint and afford our interstate industries in these lines the opportunity to break into the coast markets. As I remember it, we found the rates on hogs from Utah and Idaho to Pacific Coast markets higher than the rate maintained from the Missouri river markets, and we asked for a rate on hogs of 90 per cent of the cattle rate. They have evidently given us 90 per cent of the cattle rate. This will mean a reduction of ten to fifteen dollars a car on hogs and about ten dollars a Utah point. The sheep rate is evidently only reduced three to four dollars a car."

"Since this case was heard the railroads have filed lower rates than were in effect at that time. The new rates will be still lower than the present rates. We asked for double deck rates on hogs, something we did not have before. We do not know if these were granted. We asked for the establishment of through rates, and

they have evidently adjusted the same. At the time of the hearing in Denver we paid a local rate to Salt Lake City and another from Salt Lake City to the coast. Anything that enables the farmers and sheepmen to reach the coast markets is a good thing. The coast markets are demanding more meat all the time and our association is endeavoring to meet this situation. However, I do not think we got as big a reduction as we asked for, but half a loaf is better than none."

John M. Pace and Miss Edith Kay were recently married here and have gone to housekeeping on their ranch. The groom is a son of James F. Pace, and the bride a daughter of Mr. and Mrs. John Kay.

At a meeting of the city council last Tuesday evening James F. Pace was reappointed keeper of City Park. The usual list of vouchers were presented and allowed.
