

# OPPORTUNITY

Now is the time to investigate the opportunity for safe and profitable investment in farm lands in Eastern Utah—especially in Price River Valley. Delightful climate, productive soil and surrounding markets that are not equaled anywhere West.

We shall be pleased to give reliable information as to land values and titles. You must act promptly if you want to obtain a good piece of farming land while values are low, and one which is sure to double in value. We invite you to see us and make your wants known.

We specialize in city property as well and have numerous bargains in Price homes listed with us. We write insurance, furnish abstracts, make loans on Carbon and Emery county properties, do conveyancing and look after holdings of non-resident clients.

## LEE-NELMS CO., Inc.

Upstairs, the Silvagni Block Price, Utah

### CARBON AUSTRIANS MUST REGISTER AT ONCE

NOW CLASSED AS ALIEN ENEMIES OF GOVERNMENT.

Of Something Like Three Thousand in Utah Around Eighty Hundred Make This Section of the State Their Home—Those Now At Camp Lewis, Wash., Discharged From Army.

Of the estimated seven hundred thousand unassimilated Austrians in the United States who are now classed as alien enemies, approximately three thousand are credited to the state of Utah. A great majority of them are employed at the smelters of Murray, Tooele, Bingham, Garfield and elsewhere and in and about the coal mines of Carbon county and of East-ern Utah. In Carbon county there are said to be seven hundred and fifty to eight hundred. Sunnyside has about two hundred, the camps of the United States Fuel company at Blue Hill, Mohrland and Hiawatha an equal number, Castle Gate, Winter Quarters, Scofield and Clear Creek a hundred and fifty, about a hundred at the mines up Spring Canyon and a considerable number at Kenilworth, Cameron and other coal camps, making up the total here given.

While no instructions have been received by Aquila Schneider, United States marshal, it is believed that he will be directed within the next few days to register every alien Austrian in the same manner as every alien German within the boundaries of the state was registered last fall. Although, according to the last registration order of the president, only those alien Germans who desired to enter the war zones, covering all territory within half a mile of government property, were required to register, it is not believed that there are any unregistered Germans in Utah today. Under the new regulation, however, all Germans and Austrians who have not become naturalized, as well as those who have taken out their first papers, will be required to register.

War having been declared against Austria, and all who are not fully naturalized Austrians automatically having become alien enemies, all of the citizens of Austria who have enlisted or been accepted under the selective draft for military service under the United States flag will at once be discharged, according to the opinion of the district exemption board. This order being put into effect, more than fifty of the men sent by the draft boards of Utah to Camp Lewis, Wash., will be returned to their homes as discharged to serve in the United States army.

It is estimated, also, that at least fifty more, who enlisted at the Salt Lake City recruiting station during the past year and have been sent to various mobilization points for training, will be discharged.

Proclamation to Issue.

WASHINGTON, D. C., Dec. 11.—All Austrians in this country will be

proclaimed enemy aliens by the terms of a presidential proclamation soon to be issued. Later the broad terms of the proclamation will be modified to exclude from its provisions subject nationalities whose friendliness to the allied cause the president may recognize.

This determination was reached following the discussion of the situation at today's cabinet meeting. The department of justice has already on hand much information as to how the representatives of those subject nationalities should be treated and subsequent regulations will be made up on this basis.

Among the subject nationalities which the president may decide to exempt from the terms of his proclamation against the new alien enemy are the Poles, already recognized as a separate nationality, the Czechs, Yugoslavians and Bohemians.

It was learned today that the department of justice has not yet begun to register German citizens under the president's proclamation. The machinery for this is all organized and will now be put immediately to work. The department has been waiting for the declaration of war on Austria, believing that the registration would be extended also to new enemies.

### OPERA WELL RENDERED

Students of the High School Present "The Wild Rose."

The opera of "The Wild Rose" by Ellyso-Herbert and Edith M. Burrows in two acts was most creditably presented at the high school auditorium last evening under the auspices of the ladies chorus of the high school and was witnessed by a large and most appreciative audience. The proceeds are to be used in paying for the new scenery but recently purchased. There was a children's matinee also at 2:45 o'clock of the afternoon. The cast: Rose McCleod, a popular young society belle, Laura Wootton.

Mary Forsythe, her secretary and friend, Lillian Johnston.

Miss Pusey, her housekeeper, Monica Shiner.

Lady Grey, an eccentric playright, Ida Robinson.

Miss Writeman and Miss Potemdown, reporters, May James and Mary Parry.

Dora, Flora, Molly and Polly, debutantes, Leona Abegglen, Leoline Ackerman, Blanche Lee and Myrtle Warren.

Miss Talknot, a suffragette, Helen MacKnight.

Mrs. Dolingood, a charity worker, Iva Faunt.

Madame Rowcamps, a dressmaker, Glenn Gundersen.

Madame Feathertop, a milliner, Elizabeth Crockett.

Madame Smellweed, a perfumer, Josephine Olson.

Bobbie, the Buttons, Millieent Harvey.

Maids, fourteen little girls.

### CHAMBERLAIN'S TABLETS.

Chamberlain's Tablets are intended especially for stomach troubles, biliousness and constipation, and have met with much success in the treatment of those diseases. People who have suffered for years with stomach trouble and have been unable to obtain any permanent relief, have been completely cured by the use of these tablets. Chamberlain's Tablets are also of great value for biliousness. Chronic constipation may be permanently cured by taking Chamberlain's Tablets and observing the plain printed directions with each bottle.—ADVT.

## FERRON WATER IS PRIDE OF THE TOWN

SIX DAYS OF SCHOOL NOW INSTEAD OF FIVE.

Three Accidents to Residents of Cleveland During the Last Few Days—Many Persons Going to the Carbon Coal Camps to Work During the Winter—Social and Personal.

CATTLE DALE, Dec. 8.—With a modern waterworks system practically completed and ready for service during the coming winter season, the people of Ferron held this week another of the celebrations for which they are famous with the unique addition of sitting down to a sumptuous banquet served in the capacious cistern. Lunch was served to over eighty people. Twelve automobile loads of very thankful people made the run up to the cistern with picnic by the tubful and there was plenty for everyone. President Henry Thompson of the water company was especially conspicuous from his efforts to dodge the chunks and rocks so that E. V. Hills, secretary, and Miss Iva Olsen would not waste a drop of the excellent coffee. A program followed the serving of lunch, all the numbers being appropriate for the occasion. The Ferron water system is patterned after that of Castle Dale, but it was built on the co-operative plan so successfully employed in the construction of the Orangeville system. Eight thousand dollars is the figure given as the cost of the entire system with the individual line carried to the curbline, and the whole amount is paid up. The cistern, in which the picnic was spread, is forty-eight feet square and seven feet deep. The roof is supported by eight large cement pillars and the cistern is substantially built and thoroughly protected in a sanitary way. Another big celebration is in store for the day that the water is turned into the pipelines, which will be in the very near future.

### Six Days of School.

Six days of school a week will obtain in the schools of Emery county for the balance of the school year, and the youngsters of the grades will be free to do as they will after the closing of school some time the latter part of March the coming spring. Incidentally, payday for the teachers will come around a little more often under the new arrangement, as the school will make his welcome rounds every four weeks during the balance of the school year. This action was taken by the county board of education at its monthly session held last Tuesday in Huntington, and was done in an effort to meet the demands of the teachers of the county for a 25 per cent increase in wages. A flat salary increase under the circumstances was impossible but, under the plan adopted, teachers throughout the county will be entirely free to secure other employment a month earlier in the spring, at the same time receiving the same salary as for the longer season. The same number of days will be employed in the school room under the new plan, however, so that the children are assured the same amount of schooling as heretofore. If the plan works out successfully this season it is probable that the six-day week will become a regular institution.

One of the biggest educational movements ever launched in Emery county is the citizens' lecture course which is to be conducted by the Emery State academy in Castle Dale and in Orangeville during the coming winter. The purpose of the movement is to provide citizens and the boys and girls who are not already attending school with an evening's recreation once a week.

Cleveland had its share of accidents of late. John E. Ward has been nursing a few broken ribs, caused by being struck by a falling beef while he was butchering the animal. John G. Timothy met with a quite serious accident this week when he, together with his son, were near the Castle Dale. A child running across the road, they made a quick turn of the car to avoid hitting the youngster and ran into a culvert and overturned the car. Lew jumped and escaped injury, but his father was pinned under the car. The latter suffered several broken ribs and a gash in the lip which required stitching up. Last Saturday night Lamar, the 15-year-old son of Mr. and Mrs. E. E. Davis, was run over by a load of wood and was very seriously injured. He suffered a severe scalp wound, which required several stitches to close, besides being badly bruised.

### Around the County.

The county commissioners met in regular session Monday, all members present. An ordinance granting to Ferron Waterworks company a franchise to extend pipelines along the state road south of Ferron town was passed. Oscar Beebe appeared before the board and asked for an appropriation to do some work on the Hanksville to Givens river road. On motion an appropriation of two hundred dollars was made, bills to that amount to be paid by the county after same have been approved by Beebe. Dr. T. C. Hill was appointed health officer at Huntington. A letter from L. A. McGee of Price concerning claim of Dr. C. T. Rose amounting to eighteen dollars, for inspection of "disease breeding pools" in the vicinity of Cleveland and threatening suit for collection of the claim, was referred to the county attorney.

E. J. Orange, who has home at Huntington was turned a couple of weeks ago, he began to build anew. He has his foundations all in and his new concrete is drying nicely with no frost to interfere. They will soon be at the body of the building. The mem-

bers of the family do not feel at home away from the old place, although comfortably located with a daughter but a short distance away.

The Saturday session of school does not seem to be meeting with the approval of the students, but many think it will be better for the parents in the spring, getting their children out of school a little earlier.

Joe Jensen of Cleveland has gone to Sunnyside to work for the winter.

Thomas D. Richards has moved his family to Mohrland from Cleveland, where he has employment.

Mrs. Jane Lilster of Cleveland spent Thanksgiving with her daughter in Helper.

Mr. and Mrs. Ralph Alger of Cleveland have gone to Storrs, where Alger is employed.

Mr. and Mrs. Herbert Richards are entertaining a brand new boy at their Cleveland home. All concerned are doing nicely.

Huntington Commercial club had something of an overhauling on Tuesday evening and reorganized. It is hoped they will line up and be useful as such things should be.

A. P. Johnson of Huntington has just heard from his grandson, L. I. Hanson, who enlisted in the navy last March. He went to San Francisco and then aboard the South Dakota. In June he went down the coast and through the Panama canal. They had not known of his whereabouts since until last week when they got a short note from New York City saying he was well and would like to see the folks at home, but there was no further information.

There have been two or three revenue officers out of late looking after dues from the amusement halls throughout the county. Special taxes on all shows and theatricals to help the war funds have been the order since October 1st. Some are delinquent from a lack of understanding the situation.

Stake priesthood meeting will be held at Castle Dale on Saturday, December 22, 1917, at 2 o'clock. The stake auxiliary boards will hold their respective meetings at 8:30 o'clock the same day and place, and the high council on Friday evening, the 21st, at 7 o'clock.

Mrs. J. C. Ralphs acted as principal of the Emery school last week in the absence of Professor Blake, the latter having gone for Thanksgiving, incidentally visiting the Salt Lake temple while away. He returned Sunday, bringing his wife with him. They have rented the home of Mr. and Mrs. Emer Bury for the winter.

At Emery a babe was born to Mr. and Mrs. Thomas E. Campbell on Thanksgiving, but died on Saturday morning. The mother is getting along quite well, however.

Mr. and Mrs. Warren Anderson recently returned to Emery from a visit in Sanpete county.

Mr. and Mrs. Peter Christensen of Emery were called to Mayfield last Saturday to attend the funeral of his brother, Niels Christensen of Mantt, the latter having died at Salt Lake City from hemorrhage of the brain.

Miss Lillian Olson of Emery entertained for Clifton H. Smith of Salt Lake City last Friday evening. Miss Louise and Loren Poole also entertained a number of their friends the same evening.

### Social and Personal.

Ed Snow, David Denton and Leo W. Peterson left Monday for Sunnyside, where they have employment.

Luther Tattou of Cannon and Miss Mary Barney of Price secured licenses to wed at the latter place last Monday.

Henry Karchner of Blanding and Miss Nora Black of Huntington secured a license to wed in Price this week.

Members of the Ladies' Pleasure club were entertained at the home of Mrs. A. D. Dickson last Wednesday afternoon.

Mr. and Mrs. Orange Olson are happy in the arrival of a new son at their city residence last Thursday afternoon. All concerned are reported doing nicely.

Mr. and Mrs. Stanford Madson of Mantt visited with his brother, Orson P., and family Sunday, and are now visiting with his sister, Mrs. Guy Nelson, and family at Ferron.

Emery county's first contribution to Uncle Sam's aviation service, of which the whole world is expecting a great deal, is Harold Leonard, well known Huntington athlete, word to this effect having reached local friends of the young man.

Dispatches from Canadian forces in France last week carried the name of Elroy Romero of Emery as among the wounded in a recent engagement on the western front. No particulars were given, but the very news brings the war another step closer to our supposedly secluded homes. The young man is well known among the oldtimers of the valley, being a son of Joe Romero, well known in both Sanpete and Emery counties several years ago. Mrs. Wiley Anderson of Emery is a sister of the wounded man.

Two more Emery county boys left today to help swell the big crowd of recruits joining the colors before the 15th of the present month, after which time no more enlistments will be allowed of men within the draft ages. The two are Horace Nelson, son of Chris Nelson, the sawmill man, and Frank Nelson, son of Joseph Nelson, both of Ferron. Horace will join the famous lumberjack division of the regiment of engineers, and expects to leave for active service at the front in a few days. Levi Nelson, brother of Horace, who was just beyond reach of Emery county's first draft quota of forty-six, may also join the lumberjack boys within a few days.

### CHAMBERLAIN'S COUGH REMEDY.

It is not only one of the best and most efficient medicines for coughs, colds and croup, but is also pleasant and safe to take, which is important when medicines must be given to children. Many mothers have given it their unqualified endorsement.—Advt.

### HIS CLIENT GOT ALL THE MONEY. A. T. SANFORD SAYS

George W. Kinney, who was awarded thirteen thousand dollars from the Denver and Rio Grande recently and collected it, is one who can claim exception to the usual order. The usual order, as popularly understood, is that when a man has collected damages through his attorney, and things are settled up, he usually wonders whether it was he or the attorney who was injured.

According to Allen T. Sanford, a Zion attorney, he acted as counsel for Kinney in the damage suit and received nothing. He filed a suit Saturday for one hundred and seventy-five dollars, which he claims as his legitimate 7 1/2 per cent on thirteen thousand dollars.

Kinney was injured in the wreck of the sunnyside train at Price in December last, when a passenger coach was telegraphed from the rear by a freight train running into it.

Former United States Senator George Butherford has been retained by the state board of examiners to protect the rights of settlers on the former Uintah reservation when the federal government's action concerning the water rights of these settlers is again taken into court.
