IMMENSE SHOVEL GOES OUT OF PRICE FOR MYTON

DOES WORK OF TWENTY TEAMS AND TWENTY-FIVE MEN.

With Its Arrival in the Utah Basin Country Operations Are to Begin on Digging the Canal of the Pleasant Valley Company—One Piece Weighs Eight Thousand Pounds.

Pleasant Valley Canal company, which is reclaiming ten thousand or more acres of land out in the Utah Basin south of Myton, has a huge steamshovel at Price awaiting teams to take it to its destination. The shovel was purchased several months ago in Indiana, but until recently was lost between here and there in the congestion of railroad freights. W. E. Broome, representing the company, has been in Price and Salt Lake City several days looking after the shipment.

There seems to be an overcharge of freight and that is being adjusted. The shovel weighs about seventy thousand pounds and will require twenty teams for transport. The freight charges from Price to Myton will be eight hundred and seventy-five dollars. The heaviest piece weighs eight thousand pounds. The cost of the machine was five thousand dollars and it will do the work of twenty teams and twenty-five men.

The information is given out by officers of the company that work will begin on South Myton Bench just as soon as the shovel arrives. The Pleasant Valley canal, when completed, will irrigate about ten thousand acres of the finest land in the Utah Basin. When the country to the south of Myton is put under cultivation the population of Myton will increase by leaps and bounds. Myton people would just as soon see that vast territory in cultivation as to see a railroad.

DISTRICT COURT MAY REVIEW

Important Decision Handed Down Affecting Industrial Workers.

That the acts of the state industrial commission in making awards for injury or death under the terms of the workmen's compensation law are not final, and that they are subject to review, is the chief purport of a decision handed down by the state supreme court a few days ago. Chief Justice John E. Frick, writing the opinion, in the case entitled the Industrial Commission of Utah, plaintiff, against P. C. Evans as judge of the district court of Salt Lake county, defendant.

In the Third District court is now pending a case in which the Mammoth Mining company seeks to have set aside an award of twelve dollars a week for a period of a hundred and fifty weeks made to an employee of the company named Hoadley on account of injuries, the order being later changed so as to require the company to pay Hoadley the sum of \$1741.84 outright. The mining company objected to both the original award and the subsequent change of the order.

The industrial commission, after the action had been filed in the Third District court, obtained from the supreme court a temporary writ of prohibition against Judge P. C. Evans, preventing him from trying the case. In the decision rendered the supreme court quashes the alternative writ and denies a peremptory writ.

The proceeding is dismissed and the district court is directed to proceed to hear and determine the proceeding in certiorari instituted in that court.

TRYING TO HOLD DOWN THE SUGAR PRICE EVERYWHERE

To equalize the price of sugar to the consumer in the face of prospects for an increase due to a threatened shortage, and to secure better distribution, President Wilson has created the sugar equalization board, on recommendation of Food Administrator H. C. Hoover.

The board will incorporate at \$5,000,000, the capital to be furnished by the president from his special war fund, and will have authority to acquire, even at a loss to the government, the production of beet sugar factories that can not under the present price of beets be sold to the public at a reasonable price, and other high cost sugar.

This will be resold in the common lot at the established price, thus saving considerable to the consumer. Officers of the board will be in Washington, D. C. Hoover has been appointed chairman and George Rolph, sugar director of the food administration, president.

The United States now virtually controls all sugar produced in the country, as well as that imported, through the international sugar commission, which organization allocates to the domestic industry.

INSTRUCTS HIS DEPUTIES TO EXERCISE MORE DILIGENCE

So persistent have illegal fishermen become in their activities, and so ingenious their devices for destroying fish, that H. H. Robinson, state fish and game commissioner, has sent out instructions to his deputies and wardens to exercise exceptional vigilance in order to apprehend and punish the violators of the game laws.

Recently Commissioner Robinson advised to Gov. Simon Hammegger an important case, made up of wire and consisting of four frogs on a stick, which he found in the possession of two sheepherders spearing trout in the Strawberry river and whose arrest and punishment he caused.

Devices used by fish killers vary; some of them going scientifically into the use of high voltage electricity, stealing the current from the high

section wires of the light and power companies. Some of this sort were recently found in Ogden Canyon.

ASKED TO CUT THE LEVIES

State Board Addresses the Commissioners of This County.

The state board of equalization, in announcing that it would cut the state tax levy this year to the extent of two hundred thousand dollars, in a letter to the commissioners of Carbon county asks that the county levies be kept as low as possible, owing to the many burdens incident to the war which taxpayers are being called upon to bear at this time. The letter says:

"In conference with the governor and state auditor the state board of equalization has decided to lower the state levy for this year to the extent of about \$200,000. It was suggested that your attention be called to the conditions that are existing and that you be asked to do all in your power to cut your levies for school purposes to the fullest extent possible in keeping with absolute needs.

"It is unnecessary, we take it, to call your attention to the burdens that the people are called upon to bear at this time. We hope you will take this suggestion in the spirit that it is intended."

FIVE NATIONAL PRIZES GO TO UTAH FOOD CONSERVERS

WASHINGTON, D. C., July 15.—"Here we are, Uncle Sam!" is Utah's response to the national appeal for increased food supplies. Five national capital prize certificates have just been assigned to the state by the national war garden commission at the request of Mrs. Jannette A. Hyde of Salt Lake City, chairman of the women's section, committee on food supply and conservation. These are to be awarded to the five richest sections for the best canned vegetables grown in war gardens, and will include not only Salt Lake City, but other communities where most excellent work is reported in the food conservation line. A general exhibit of the contest work throughout the state will be held at the state fair in the early fall.

The interest which is being taken in Utah in home food conservation is shown by the fact that everybody seems to be getting back to the movement. The Utah film and Coke company, Salt Lake City, has just been sent a consignment of canning and drying books by the national war garden commission which will be given out to boost the campaign. Another supply has gone to the commercial club at Provo at the request of Arch M. Thurman, secretary.

"More power to the good right arms of the women of Utah who are helping to can the kaiser in their home and community kitchens," is the word of greeting from Charles Laithrop Park, president of the commission. "Fill up the pantry shelves and pull for victory."

ALL WAR BREAD REQUIRES SOME SPECIAL TREATMENT

Keep war bread wrapped in wax paper and in the tins. It spoils more easily than ordinary bread and conservation is more necessary than ever before, according to a bulletin just issued by the office of the food administrator for this state. The bulletin says:

"Keeping war bread sweet during the heated months of the summer presents a new problem to the housewife. The problem is more difficult than in years past because the government now requires the use of cereal substitutes in all forms of bread. The need is greater than ever because of the serious shortage and the extraordinary demands for wheat shipments to our allies and in the American soldiers. Every ounce made do its full nutritive service. None date waste."

The National Bakers' Service board, speaking from exhaustive experience and observation all over the United States, says: "Wrap the loaf or any unsold portion in the waxed paper it reaches you in or any other clean waxed paper and put it in the tins. There it will remain in fine and fresh condition longer than when kept in the air. Careful wrapping will prevent it from coming in contact with any moisture and absorbing odors from foods in the tinbox."

POWER COMPANY FILES APPLICATION FOR WATER

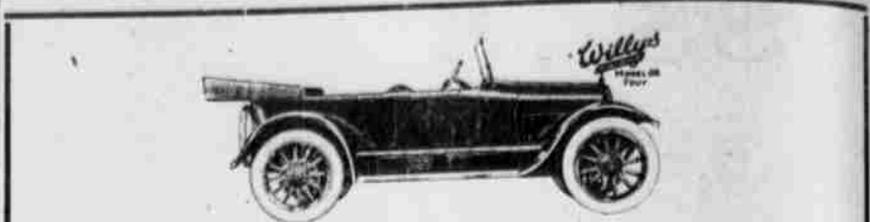

Intending to develop fifteen hundred horsepower of electrical energy to supply the needs of South Cadogan, White House, Fort Duchesne, Hossel, Myton and their vicinities, Utah Power and Light company has made application to the state engineer for the use of a hundred and fifty second cubic feet of water from the Duchesne river.

It is the purpose of the company to construct a diverting dam composed of log cribbing filled with rock, a plank abutment and an earthen dike. The diverting channel is to be seven thousand nine hundred feet long, eighteen feet wide at the top, eight feet wide at the bottom and to carry a three-foot depth of water.

One turbine wheel is to be used to produce the necessary and intended fifteen hundred horsepower of electrical energy for light and power purposes.

THE COMFORT CAR

How little this comfort car is the most comforting thought of all. The Hopalong cover, a-s travel in ease and with efficiency—he does reduce even the ordinary effort of driving. Minimum cost per gallon of gas and oil. The maintenance, repairs and tubing up processes in the Comfort Car are at a minimum, which satisfies the scruples of even the most conservative wartime saver. Prices of the Hop Comfort Car in Series N and R, respectively, \$1675 and \$1425. Call or write for demonstration. Harry Turner, Sunnyside.

NONE FROM CARBON COUNTY

Allotment Announced of Quota For Camp Fremont, Cal.

Allotment of the quota of two hundred and fifty men to be sent to Camp Fremont, Cal., in the five-day period beginning August 1st as made out by Capt. F. V. Fitzgerald, draft executive officer for Utah, shows Beaver county, 9; Box Elder, 4; Cache, 6; Carbon, 8; Davis, 2; Duchesne, 9; Kane, 3; Garfield, 2; Grand, 1; Iron, 1; Juab, 9; Kane, 9; Millard, 2; Morgan, 6; Ogden, 45; Plute, 1; Rich, 1; Salt Lake county and city, 131; San Juan, 9; Sevier, 3; Summit, 9; Tazewell, 1; Uintah, 1; Utah, 11; Washington, 6; Wasatch, 2; Wayne, 3; Weber, 6.

This shows a total of a hundred and thirty-one from Salt Lake City and forty-five additional from Ogden, aggregating a hundred and seventy-six out of two hundred and fifty from the two principal cities of the state. The allotment is made in accordance with instructions to send only Class I men—though volunteers from the class of June, 1918, are permitted to be inducted—and to make the allotment with as little disturbance of industrial and agricultural conditions as possible.

The excess sent by the city boards at this time is to be made up later in the year, when the harvest season is over. However, the city boards are said to have larger proportions of Class I remaining than several of the rural boards.

PRICE, BLACK HAWK AND WADSWORTH STAGE LINE

Five first-class cars between these points daily. Careful drivers. One way, \$2.00; round trip, \$3.00. Children 5 to 12 years, half rates. Tickets good for thirty days. Hay & Bell, proprietors, Union Stage Depot, Tavern Hotel building, Price, Utah. Telephone 43.

Three hundred applicants for student nurses to enter training schools in the base hospitals at outposts have been accepted recently. There have been more than a thousand applications for entrance to these army schools of nursing since the government sent out its call for student nurses. The majority of those offering their services have been college women or women with a complete high school education.

Automobile Transfer and Dray Line

Give us your hauling of freight and like work and it will receive prompt attention. No job too large or too small for us to handle. Freight is given our special attention. Walter Christensen, Phone 2162, Price, Utah.

Department of agriculture specialists, appealing for increased production of poultry and eggs, make the suggestion in home butter poultry, select healthy, vigorous breeders, hatch early, preserve eggs, call the flocks, grow as much poultry feed as possible, supply the family table; eat more poultry and eggs and conserve the most supply.

CHAMBERLAIN'S TABLETS

These tablets are intended especially for stomach troubles, biliousness and constipation. If you have any troubles of this sort, give them a trial and realize for yourself what a first-class medicine will do for you. They only cost a quarter.—Adv.

Southern farm box club members produced in 1917 food and feed valued at \$4,981,131, the department of agriculture reports. A total of 113,742 boys were enrolled in regular clubs in fourteen states.

NOTICE OF SPECIAL ELECTION.

Notice is hereby given that a special election has been called by the city council of Price, Utah, and will be held therein on the 20th day of July, 1918, to determine the question whether or not Price, Utah, shall sell its entire municipal plant and system, for the purpose of generating, transmitting and distributing electric energy, in and about Price, Utah, including all poles, wires, crossarms, meters, fixtures, equipment and appliances constituting a part of said plant and system, and all materials and supplies owned by Price, Utah, for use in connection with said plant and system.

There shall be three polling places all in Price, Utah, one thereof at City Hall in North Price Election District, known as Election District No. 18; one thereof at the County Court House in East Price Election District, known as Election District No. 17; and one thereof at the Southern Utah Depot in South Price Election District, known as Election District No. 15.

J. N. Robertson, O. T. Brooks and J. W. Millburn, all of whom reside in Price, Utah, and in North Price Election District No. 18, shall be the judges of said election district therein.

A. T. Harmon, Henry Wade and H. J. World, all of whom reside in Price, Utah, and in East Price Election District No. 17, shall be the judges of said election district therein.

A. W. Shiner, Abe Furbell and Thomas Lummans, all of whom reside in Price, Utah, and in South Price Election District No. 15, shall be the judges of said election district therein.

All qualified electors of Price, Utah, a Municipal corporation, who have paid a property tax in the year previous, voting such election, are entitled to vote.

The polls will remain open during the time from 7 o'clock in the morning until 7 o'clock in the evening.

CITY COUNCIL OF PRICE, UTAH, George A. Weston, Mayor, constituted and attested: MAT GILMOTH, City Recorder, First pub., June 21, last July 19, 1918.

Conversion of baggage cars into divers for troop trains has caused such a shortage of cars that ordinary use of the war industries board has called upon dry goods wholesalers to cut down the number of trucks carried by traveling salesmen. There are only nine thousand seven hundred baggage cars in the country and last year 24,000,000 sample trunks constituted 20 per cent of the baggage carried free by the railroads.

You never can tell. There are more things than a nail on the neck to make a man hot under the collar.
