AGENT FOR STUDIBAKER CARS.

The Sun for good job printing.

## DR. R. E. CLOWARD TELLS OF BATTLEFIELD'S CARNAGE

PRICE MAN ARRIVES ON WESTERN FRONT IN JULY.

Now in Rest Camp For Awhile Only, But Will Be Glad to Get Through and Return to "Dear Old America"—Praises His Friends and Home In the Mountains of Beehive State.

Dr. Ralph E. Cloward of Price was one of the first physicians and surgeons in Utah to enter the service of his country. After enlisting locally he was sent to Fort Riley, Kan., and after some training went overseas. He has been on the western front since several letters have come to friends here, but perhaps the most interesting of all is one given in Sunday's *Utah Leader*. Tribune by a friend here, Dr. Cloward says:

We arrived at Brussels on the night of July 23rd. It was raining. Brussels, probably you know, is a very short way, about two miles from Flanders Wood, where the Marines made their deadly stand. They had advanced three days before our arrival. We were to open up a field hospital in an old chateau at that place. My God, the sight when daylight came. The chateau in which we were to operate had the roof and upper story entirely shot off. Some of the rooms on the lower floor were still intact, but were piled full of trees and rubbish to protect the basement below, and we were to be ready for patients that afternoon.

Well, I am here to admit that we did some work carrying shoveling, sweeping and scrubbing. By noon we were ready for business. A hundred men can accomplish a wonderful amount of work when properly directed. After a ration dinner some of us took a little hike out through the fields. It was my first experience in an uncleaned battlefield. There were dead lying everywhere. Some had fallen in the fight, others were still clinging to their guns, and still others were crunched in little pits they had dug for seclusion.

As we ascended the little hill into Bellone Wood, utterly torn to pieces in battle, our eyes fell upon the bodies of our own dead American comrades. It was a ghastly sight. Some of our men returned and reported that they had found the headquarters of a German regiment. It was a real cane, dug into the side of a hill for several hundred feet, timbered and substantial. There were several compartments, each containing some of the most elaborate French furniture I have ever seen, taken from all old chateaus.

In one room was a piano, a baby grand, but it, too, had suffered some. The entrance to the cave had been partly closed by a big shell striking in the immediate vicinity, necessitating our removing the legs of the piano to obtain access. We were well repaid for our efforts. We got the piano back to the chateau, repaired and ready to play. How we did enjoy it. The heavy artillery was behind us and the Germans were in front. Whiz, bang, a German shell would come over, and whiz, bang, our gun would reply.

Under the arc of the meeting shells we were all very busy dressing the wounded, or perchance carefully laying aside some poor Bubblie who had been a little too close. But when the sounds from our guns, "Pack Up Your Troubles In Your Old Kit Bag," tell on the ears of the wounded, of dying it invariably brings forth a smile and a word of appreciation. Thank God for music! And this, in brief, is the story of the piano. It cannot be told in detail nor in full only by those who came in or were brought into the hospital, their wet torso and bleeding.

We are now in a rest camp for a short time, probably not long. We will be glad to get through and return to dear old America again. With all the history and proverbial beauty of France, I prefer my friends and home in the mountains.

Dr. Hogan plans to talk the matter over with Dr. Peterson in detail at an early date.

### FOOD SAVING PROGRAM NOW MANDATORY WITH THE CAFES

Preparations have been made by the Utah food administration for the enforcement of the new food saving program which became effective last week and is mandatory. It is declared by W. W. Armstrong, food administrator for Utah, that eating places which wilfully violate the orders will be deprived of their supply of sugar for an indefinite period. All restaurants and dining rooms are prohibited, under the new rule, from serving more than one teaspoonful of sugar to one person at one meal. The use of meat or bacon as garnishing is prohibited. No bread must be placed on the table in restaurants until the main course has been served. Cheese portions are restricted to half an ounce to each person at a meal and cigarettes must not be used.

Conservation is directed chiefly to bread and butter, cereals, meats, sugar and cheese, and unnecessary sugars, tea and hamlets are condemned as "fourth metals." On the ground that the home canning season closed on October 20th, the bureau of home canning certificates for sugar have been discontinued by the food administration. In only extreme cases, where persons have fruit which may spoil unless canned will certificates be issued.

When party control of the legislative branch changes, the government falls. Reversal of the polls of the party in control of the government is interpreted as popular disapproval of the party's policies and the government is speedily changed so that it may be in harmony with the lawmaking power. Read the appeal of President Wilson appearing on the second page of this impression of The Sun.—Advt.

## SPANISH INFLUENZA IS RAPIDLY SPREADING EVERYWHERE

PERSONS WEAK AND RUNDOWN ARE EASY VICTIMS.

FORTIFY YOURSELF AND FAMILY AGAINST GREAT EPIDEMIC BY TAKING TANAC, THE PREMIER REMEDY—"OUNCE OF PREVENTION IS WORTH POUND OF CURE," SAYS THE OLD ADAGE.

According to late reports issued by state and federal health authorities the Spanish influenza epidemic is rapidly spreading to all parts of the country, and it now seems that practically every state in the union will be seriously affected before it runs its course.

It has not only become a great and terrifying menace to the public health, but unless checked, it is apt to seriously affect the progress of the war work in all Revenue departments. Already the shipping board has announced that 10 per cent of its workers had been affected.

The disease has made its greatest progress in the East, where it has claimed its victims by the thousands. Reports from other sections, however, are equally alarming, and both civil and military authorities have warned the public to take every precaution to prevent its further spread. In many cities schools, churches and theaters have been closed and public gatherings of all kinds forbidden.

Medical authorities agree that people who are weak and run down are the earliest victims of the influenza epidemic. If you find yourself tired, weak and losing flesh, or if you are in a generally run down condition, or if you catch cold easily, this warning should be heeded promptly. You are really in great danger, because the germ of this disease is very catching and you are apt to fall an easy victim if you come in contact with the germs. People who are well and strong are not likely to contract the disease because they are able to throw it off. The common sense way to keep from taking it is to fortify the system against attack by building up the constitution.

In other words to use the old adage, "An ounce of prevention is worth a pound of cure." And if you are in a sub-normal condition the proper thing to do is to begin immediately to build up your powers of resistance. To accomplish this nothing on earth will strengthen you and build you up like Tanac, the powerful reconstructive tonic, which contains the very elements needed by the system to give you fighting strength and ward off the influenza germ.

First of all Tanac begins its action by creating a good healthy appetite for wholesome, nourishing food, and assists every organ of the body to perform its natural functions, thus helping to build up health and strength in the natural way.

Tanac is also the ideal strengthening tonic for persons who are suffering from the after effects of influenza, grippe or bronchial troubles and hundreds of thousands are using it daily with the most gratifying results.

In connection with the Tanac treatment, it is necessary to keep the bowels open by taking Tanac Tablets, samples of which are included with every bottle of Tanac. It is also important that the every day rules of hygiene be observed; that is, sleep in well ventilated rooms, get plenty of fresh air and exercise and keep away from crowds.

Tanac is sold in Price by A. D. Burton, in Helper by Louis Ellertson, in Hiawatha by the Carson-Kimball Stores company, in Kenilworth by the Kenilworth Mercantile company, in Spring Canyon by Square Deal Store, in Castle Gate by Wasatch Store company, in Sunnyside by Wasatch Store company, in Winter Quarters by Wasatch Store company and in Sefton by W. N. Mosley.—Advt.

## GOVERNMENT AND THE STATE

ERADICATION OF PESTS SOON TO BE TAKEN UP IN PLATE.

Dr. H. W. Hogan, state live stock inspector and in charge of the campaign for the eradication of animal pests, says that the state and federal government may both be interested in the supply of strichlorine to the county commissioners for use in campaigns against rodents. The plan has been in operation for some time, state and local authorities each paying one-half the cost of the poison. It is believed that the United States government might be interested through the Bureau of biological survey.

William Peterson, acting director of the extension division of the Utah Agricultural college, writes that the counties are contemplating making their purchases of strichlorine early, in view of a prospective raise in the price of the article, and wished to know if the state would continue the practice of paying half the cost. Some of the state officials are inclined to regard these campaigns as of a local nature. However, there are large areas infested throughout both the state and nation, and it is possible something may be done.

Dr. Hogan plans to talk the matter over with Dr. Peterson in detail at an early date.

## PACKAGES FOR THE BOYS IN EUROPE MUST SOON BE READY

Quite the most important thing in sending Christmas presents overseas this year is to have an official coupon. Each fighter over there is allowed only one and he will send it to the person in America from whom he expects a package. This coupon is a label that bears the address. Parcels are not to be mailed by individuals. They must be taken to the Red Cross packet, but not wrapped or sealed. If the package contains an intoxicating beverage, inflammable material, matches, liquid or fragile articles, it will be appraised by an inspector.

Almost November 1st, there will be a ample supply of cartons three by six inches. All packages must be of this uniform size. No writing can be placed with presents. If parcels pass inspection, the coupon bearing the address of the soldier for whom it is intended will be affixed and sufficient postage put on to carry the package to Belkaik, N. J.

Packages must be left with the Red Cross to be mailed.

## FORMER EASTERN UTAH MAN PASSES OVER IN COLORADO

PIROVO, Oct. 26.—Reinhardt of Herman Vacher has been advised of his death at Golden, Colo., last Wednesday from pneumonia, following influenza. Vacher was 15 years old and a native of France. He formerly lived here, and was associated with his brothers in the sheep industry. He is survived by a widow and two children, a mother living in France, and four brothers—Charles and Leon Vacher of Pirovo, Joseph, Desiré and Esther of Colorado. Mrs. Joseph Vacher died from pneumonia October 4th.

## DEATH CLAIMS KENILWORTH CHILD OF THE ANDERSONS

MT. PLEASANT, Oct. 26.—Lt. Mar Anderson, 4 years of age and son of Mr. and Mrs. Arnold Anderson of Kenilworth, and grandson of Mr. and Mrs. Martin Baumhauer of this city, died here yesterday of influenza. The child was visiting his grandparents when stricken.

The infant child of Mr. and Mrs. Van Wyck, also a grandchild of Mr. and Mrs. Baumhauer, passed away this afternoon of influenza.

The only difference between the professional gambler and the highway robber is that the former is usually gentler. The effect is exactly the same and the chance of the victim's escaping is better with the highwayman than the other.
