SIMPLEX

Meets the Special Needs of FORD Lubrication

Because the hybricating system of the Ford car is different from that of other cars, it is necessary that you use special oils in your Ford to secure proper lubrication.

Simplex Ford Motor Oil is made especially to meet the par-ticular conditions of Ford lubrication. It is light enough to com-mire the friction in the clutch, yet heavy enough to seal the pistous and withstand the terrific heat of the cylinders.

Use Simples and you will find that your Ford runs better and blower gasoline consumption.

ASSESSMENTS MAY BE RAISED BY STATE BOARD.

A prominent business man is authority for the statement that 72 per cent of manufactured products used in one section of Utah were shipped in from other states. Is this true in all sec-

INDUSTRY MAKES THE STATE

A story is told of an old Scotchman who prided himself upon a herd of very fine cows. In answering a compliment from a friend one day he struck the keynote of real co-operation.

"A very fine herd of cows you have," said the triend, "and I can see that you take good care of them."

"It pays to do it," replied the canny Scot. "You see, I take good care of the cows and the cows take good care of me."

And so it is with Utah's industries. If the people of Utah will take good care of her industries, the industries will take good care of the people.
