The intense heat has been somewhat modified by the storms, albeit the temperature is still by many degrees, too hot.

THE attendance at the several places of worship in the city was small on Sunday. The intense heat of the day was the cause.

SATURDAY night a couple of the cars on the Lake Resort line when returning to the city about 8 p. m. were derailed at the crossing, completely obstructing the line. All intercourse between that point and the city after the accident was by skank's mare, save here and there a stray carriage appeared on the scene.

As the Dummy train was approaching the crossing on its 6 o'clock trip to the Lake resort Saturday an engine came bowling along toward the depot. There was some alarm among the pleasure seekers, but not the slightest danger.

A. D. GASE Esq., spent the day in Salt Lake.

As a result of the limited amount of advertising the attendance at the Tabernacle on Saturday evening to hear Dr. Hinsdale's lecture on "The Teacher, the School Board and the Public," was not very large.

The doctor, however, delivered a splendid lecture, pointing out in clear and concise terms the relationship existing between the three great factors included in his lecture. It was strongly urged that the teacher should receive the moral support of the board and public as long as he was on the right track, and when he got onto the wrong track the services of another teacher should be secured.

There was a bright lot of new students in attendance at the B. Y. academy this morning passing the entrance examinations. Every student is examined by one of a corps of physicians under the direction of Dr. M. H. Hardy, and such recommendations as may be necessary, will be made for both the physical and mental welfare of each student.
