

DEMOCRATIC PLATFORM

Issued and Adopted by the Territorial Convention in session at Salt Lake, Saturday, September 15, 1894.

We, the democrats of Utah, in convention assembled, hereby reaffirm our adherence to the principles of justice and free government which the democratic party was organized to establish and preserve, and which have been embodied in the platform adopted by the democracy in their national conventions.

We believe in a strict construction of the constitution—the people's grant of power to the federal government—and that the rights of the respective states may be preserved, that local self-government may be secured, and that personal liberty may be exercised to the fullest extent consistent with the public safety.

We believe in the economy in public expenditures; that officials should be held to a strict accountability for their acts; that the employment of the taxing power in any form by which the few are entitled to the improvement of the many, by which trusts are destroyed or obstructed, by which trusts are created and fostered and monopolies sustained, is a wicked perversion of the powers designed for the common good.

We believe in commercial and industrial freedom and resent all attempts to prevent its exercise, in the protection of education by the state; in the full development of our national resources; in the encouragement and advancement of home industries; in the protection of labor from the encroachments of capital, and in equal rights to all, special privileges to none.

We demand the passage of a law for the free and unlimited coinage of both silver and gold at a ratio of 1 to 16, without waiting for the consent of any other nation; and that the government shall pay out silver so coined as a money of ultimate redemption the same as gold.

We commend the democratic congress and administration of the measures of reform which they have succeeded in effecting, by which hundreds of millions of dollars have been annually saved by American consumers, and all classes of people will be benefited. In the arrangement of tariff duties we favor such adjustment as will operate equally throughout the country and not discriminate as between classes or sections. We contend that such duties as are laid on foreign imports should be levied for revenue only, as contemplated in the national constitution.

We emphatically disapprove of the course of those democrats who, by combining with the republicans, have expressed the will of the people in reference to the tariff and prevented the restoration of silver to its right place as money.

We endorse the income tax provision of the tariff law, which, by an equitable distribution of the burdens of taxation, and wealth as well as want is required to contribute its share to the public expense.

We endorse the acts of the democratic congress and administration: in abolishing the oppressive and anti-American federal election laws and thus securing freedom to citizens at the polls.

In so revising the pension laws that the frauds which have robbed the treasury of vast sums of money will be prevented in future, while no worthy pensioner will be deprived of the aid to which his services are entitled.

In restoring to a religious organization its personal property, confiscated under the pretense of law, with the prospect of the restoration of the real estate also escheated.

In the appointments which have been made of acting residents, by which a vast area of tillable, grazing and mineral lands will be utilized by white labor and skill and be added to the wealth of Utah.

In passing an enabling act by which Utah may enter the union as a free and sovereign state, on an equal footing with the existing states. For this Utah owes a debt of gratitude to the democratic congress and president, whose kind treatment of this territory stands out in striking contrast to that heretofore and which is extended by republican congresses and administrations for thirty years.

We are proud of our delegate to Congress, Hon. J. L. Rawlins, to whose fidelity, perseverance and splendid political tact and energy the numerous measures of legislation so beneficial to Utah have been obtained. His unparalleled success has demonstrated to the people of Utah that they made no mistake in sending him to the national legislature, where he was recognized as the peer of his associates and a man of mark and ability.

We denounce the republican party for its obstruction to those remedial measures demanded by the country to improve the industry and business of the chaos into which they were hurled through republican legislation and misrule.

In attempting to foist the blame on the democratic party for the evil of republican maladministration, the demonstration of silver and unconstitutional and partial system of class protection, the masses of people have been impoverished, the cultural and laboring classes oppressed, and the land disturbed by the mass of dissatisfied workmen, and the peace of the unemployed.

We rejoice in the fact that it is through the labors of a democratic delegate that a democratic congress at its first regular session has given to Utah the freedom for which she so long appealed to republican administrations in vain, and that a democratic president signed the enabling act as soon as it was presented to him.

In view of the benefits conferred by the democratic party upon this territory and the utter absence of any benefit received from the republican party, and of the underlying principles of liberty and equal rights which democracy upholds, we are fully confident that the people of Utah, who are not forgetful or ungrateful, will so rally to the polls in November that the victory of 1892 will be repeated and Utah will enter the union crowned with glory as a free and democratic state.

The democrats of Utah are unequivocally in favor of woman suffrage and the political rights and privileges of the women of this territory. We demand that such guarantees shall be provided in the constitution of the state of Utah as will secure to the women of Utah the same inalienable rights.

We denounce as un-American any society or organization that is pledged to deprive any citizen of his right to vote or hold office on account of his religious beliefs or nationality.

Total, 212. It is recommended that the primaries be held in the several precincts not later than Saturday the 29th inst., to elect delegates to the convention, and to nominate candidates for justice of the peace and constable for each precinct.

By order of the county central committee. E. A. WILSON, Chairman. SAM A. KISO, Secretary.

What the Resuscitator Can Do. To Whom It May Concern: PROVO CITY, UTAH, AUG. 27, 1894. I write this testimonial of my appreciation of the process of Bauscheidtism used by Fred Ralle for the benefit of people who may be affected as I was. For over two months I suffered from blood-poison from a wound in the hand and after the treatment of doctors had failed entirely to relieve me, I was treated by Mr. Ralle, and after treatment of two days was able to use my hand, and all the pain had left, and in the course of two weeks was enabled to resume my work.

I therefore heartily recommend the same treatment to any one who may be suffering in this way, as the best and cheapest cure for blood poisoning I have ever seen. During the spring of 1894 I felt weak and stiff from malaria, for some three months, suffering also from a severe lead-ache that lasted day and night for several weeks, after several applications of the resuscitator I felt like a new man, and ever since enjoyed good health, all from a few applications of the resuscitator and some Utah herbs gathered by Mr. Ralle.

Respectfully, CHAS. F. BARRETT

The following short table, showing the decline of silver, cotton and wheat during twenty years of republican administration speaks volumes and carries with it an argument that should silence forever the claims of that party, in their attempt to regain ascendancy in this land. It shows conclusively that this party of "wonderful prosperity" has absolutely ruined three of the leading industries of the United States. Examine the tables, and this is what it will tell you: That in 1872 silver was worth \$1.32 cents per ounce, cotton 19 cents per pound, and wheat \$1.47 per bushel. In 1893 the republican party demonized silver, thus destroying one half of the money of our country, which reduced the value of all staple products of the land, and destroyed property values throughout the entire country and in 1893 when the republican party went out of power silver was worth 60 cents per ounce, cotton 9 cents per pound and wheat 61 cents per bushel. With such a record, should this party ever be returned to power? The people of Utah will enter an emphatic protest next November against a party with such a record.

THE WOOL TARIFF PREVENTS THE INCREASE OF SHEEP. Seeing so much has been written during the past few years on the sheep question and what it is doing to us, do for that industry—the interesting to see the increase in this protected business when compared with other industries unprotected by our good government. Read the following and we feel assured you cannot claim much for protection of the sheep industry in our land, and what is true of this business is true of many others. Sure, the people acted wisely and intentionally in 1892, and they have not since changed their views:

"Open the statistical abstract of the United States for 1891, on page 319, and read that for 1889 on page 296. "The number of unprotected sheep in 1887, before the protective tax was placed on wool, was 39,385,386. The number of sheep in the United States in 1892 is, by the same authority, 44,938,305. The increase in twenty-four years of 'protection' has been 5,552,919, or about 14 per cent. This is an increase of a little over one-half of 1 per cent a year.

"The number of swine in this country in 1867 was 24,000,000. In 1892 the number is 32,000,000—an increase of 116 per cent. Unprotected hogs increase more than eight times faster than 'protected' sheep.

"The number of oxen and other cattle in the United States in 1867 was 1,730,952. In 1892, the number is 37,631,239. The increase in twenty-four years has been 220 per cent. Unprotected cattle increase about sixteen times faster than 'protected' sheep.

"The number of horses in the United States in 1867 was 5,401,263. In 1892 the number was 15,498,140. The increase in twenty-four years has been 187 per cent. Unprotected horses increase thirteen times faster than 'protected' sheep.

"The number of mules in 1867 was 2,286. In 1892 it is 2,314,696. The increase in twenty-four years has been 101 per cent. Unprotected mules increase more than twelve times faster than 'protected' sheep.

"The number of milk cows in 1867 was 8,348,773. In 1892 it was 16,416,351. The increase is over 96 per cent. Unprotected milk cows increase nearly seven times faster than 'protected' sheep.

"Let us tabulate: No. in 1867. No. in 1892. Per cent of Increase. Sheep... 39,385,386 44,938,305 14 Swine... 24,000,000 32,000,000 116 Oxen... 1,730,952 37,631,239 220 Horses... 5,401,263 15,498,140 187 Mules... 2,286 2,314,696 101 Cows... 8,348,773 16,416,351 96

"Thus do the government statistics nail the fals for who asserts that the tariff has built up the wool industry. "In values, the result is precisely similar. The sheep were worth in 1867, \$132,774,600. In 1892, they are worth \$116,121,290. After twenty-four years of 'protection' the sheep in the country are worth less than they were in 1867. The decrease in the value of 'protected' sheep has been 12 per cent."
