We desire in a modest way to remind you that we are at your service with an exceptionally fine line of General Merchandise, selected with especial care and bought at bedrock prices.

A. SINGLETON, Superintendent

IT WASN'T MUCH.

The Republican Rally At Spanish Fork Last Night

HAD LITTLE EFFECT.

It was a Mammoth Affairs to Glebe, Giamour, Noise and Number but "Powerfully Weak" as to Logic—Frank's Range—Jones and Booth Speak.

The assertion made early in the campaign that the republicans are to make Utah county their principal battleground is being proven true. Yet it is not being done in the way it was expected. We had reason to believe they would use the battle in which at least a few heavy shots of logic would be fired. We did not expect that they would spend all their energy in turning the towns of the county upside down with noise and din, but such seems to be their plan. The scheme is to take the drum corps, the marching clubs, the fife and drum bands and as many republicans as can afford the expense from the other towns of the county into the special town they propose to bombard. By this means, of course they get a crowd, of course they make big parades and of course they get big meetings, and of course they make much noise and a great show.

They did all this at Spanish Fork last night, and they had a grand parade, there were two well filled meetings and the town all the night was one wild scene of boisterous revelry. The saloons did good business.

Cannon, Jones and Booth were the speakers. Cannon had taken his cue from Joseph F. Smith and said that Providence gave us statehood. Of course he forgot to say that God Almighty showed his good sense in selecting Joe Ravens, the foremost Utah democrat and a democratic administration as the instrument through whom and which He was to give us this great boon. Frank didn't say that God slighted him in selecting Joe Ravens, but he did say that the republican party was a wonderful power, a republican minority to crowd statehood down our throats whether we wanted it or not.

Frankie opened up his talk by saying that the whole people of the United States are calling to Utah to help them—help them to what was not made clear, only he was sure they were not going to wait thirty years for the relief to come and that getting guns would not be turned on the unfortunate ones. Then he branched off in a sweet, sweet song about the hard times and how they were all brought about by the wicked democrats. In 1892 there were fewer men employed than at any other time in the history of the country. The next day after Cleveland was elected the working people went in to the factories hoping that their sufferings would be appeased, but their sufferings continued under the Cleveland administration. From this he went on to show that it was the threat of free trade that made the manufacturers close their factories, but didn't say what it was that made them close their doors, reduce wages, throw men out of employment, etc., in 1892 when the hard times were being born under the Harrison administration.

Frankie tried to be a little funny by referring to the fact that Cleveland was at home when his last babe was born. It may be that Frankie is not on hand when his offspring make their appearance on this stage of action, but it is no disgrace to Cleveland because he is dead. Then the would-be delegate to congress opened upon the silver question. Reed, Clarkson, Harrison, McKinley and all the leading republicans are free coinage men, and 10 to 1 at that. Senators Jones and Stewart and all those illustrious silver republicans who have left the republican party must be wrong when they say there is no hope for silver in the republican party, for Frankie says so. He says that the only hope for silver is in the republican party, and he says further that protection is so closely allied to silver that they are married.

He excused the extravagance of the last republican congress and then said it is true some of the factories have started up since the democrats have passed their tariff bill, but he thought they would close again whenever the democrats begin again to tinker with the tariff.

A side issue was here made of Wm. L. Wilson's trip to Europe. Frankie thinks the Britons laughed in their sleeves at the democratic congressmen. He thinks that Wilson's work in tearing down the walls of protection was paralleled in its wisdom only by Governor West when he turned the rattling guns on the commonwealers.

Frankie is getting bold. He made one reference to the last and only republican Utah legislature. He didn't dare jump onto the democratic income tax though. His reference to the legislature was to say that the one-half mill was taken from the schools to pay the debts (a new name for bounties) of the territory.

It isn't a question with Frankie as to who got back the vacated church property, but as to who should return to us the \$1,250,000 taken from us by the reduction of the wool tariff. Of course he don't take into consideration the amount of money the tariff is to save us in reducing the price of cloths, and he don't worry himself about the tens of millions of dollars loss to the mining interests of the territory by republican legislation.

He closed his lecture by saying that he believed the county would go republican; that he believed even Spanish Fork would go republican. The horse laugh that greeted him on this last assertion made him take it back and say that well, if it didn't go republican this time, he believed it would next time.

Judge Jones followed in a very dry, HOOD'S AND ONLY

Hood's Sarsaparilla is the medicine for you. Because it is the best blood purifier. HOOD'S CURES

ABSOLUTELY PURE

irksome talk about how prosperous things were in 1892 and about how he told us then how things would be now. Bishop Booth was called up to do the clown's act at the close. The burden of his very coarse and very awkward jokes was that the democrats two years ago didn't have senses enough to believe what he told them two years ago.

Notice.

The 45th quorum of seventies held their monthly meeting in the priesthood room on Friday evening next, October 12th. All members are invited to be present.

W. S. CORBETT, Clerk.

A HORRIFYING ACCIDENT.

A Number of Boilers Explodes Killing Many People—A Daring Train Robbery. SHAMOKIN, Pa., Oct. 11.—It was about 7:55 this morning when the workmen at the Henry Clay colliery were startled by a heavy explosion.

At the same time a portion of the boiler house was blown into the air and flying bricks were hurled in every direction. Several other explosions took effect. The air was filled with escaping steam and debris for a radius of 400 yards and many of the employes narrowly escaped death.

The reports of the explosions were heard in this city, a distance of over two miles.

The terrible accident came upon the boiler house employes without warning, and only one of them, a Pole, escaped uninjured. The others were buried between the mass of debris and some of the bodies were not recovered for two hours. The boiler on the western end of the house is supposed to have been the first to explode, and then the adjoining boilers went up in quick succession. The repeated explosions resounded the roar of heavy artillery.

Only nine of the thirty-six boilers escaped destruction, and these were so damaged that they are useless. Many of the boilers were torn apart near the center by the terrible force, and the two sections would then take different directions. One-half of the boiler was hurled a full quarter of a mile and landed in the slush bank northwest of where it had formerly stood. Another that took a similar direction, crashed through the side of the breaker and lodged against the scraper line.

DARING ROBBERY.

SACRAMENTO, Oct. 11.—The east-bound overland train, due here at 9:30 p. m., was held up by two men about six miles below Sacramento tonight. The trackwalker was first robbed and then forced to flag the train. The robbers then covered the engineer and fireman with guns and compelled them to accompany them to the express car. Messenger Page shot twice at the bandits and came near losing his life from a shot fired in return.

The engineer and fireman called to Page to open the door, as the robbers were going to shoot them if he did not, and also were preparing to blow up the car with dynamite. He complied with their request, in order to save the lives of the engineer and fireman, and the robbers looted the car of four bags of gold, the amount of which is not known. They then cut the engine loose, boarded it and ran it toward the city several miles. The engine was then reversed and sent on a wild run toward the train, but by the time it had reached its destination the steam had run so low that the collision caused but little damage. The robbers made good their escape. The train arrived here at 12:30.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and has the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all drug lists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

MURDERERS OF BURNS.

Are They Headed for Mexico or for Canada?

It has been generally believed that Koffard and Mickel, the slayers of Sheriff Burns of Sanpete, had succeeded in getting into Arizona, headed for Mexico, but now comes the Salt Lake Herald this morning with the following:

"An important clue to the murderers of Sheriff Burns is discovered by the detectives having the matter in charge."

"From Ogden comes well defined rumor to the effect that on Friday two persons on range horses, one attired as a woman, were seen galloping across the prairie by a boy who claims that he saw a man's pants under the petticoats of the alleged female."

"Another story comes from Carter, a cattle shipping station about half way between Evanston and Green River, to the effect that two men, answering the descriptions of the ones wanted, boarded a train there, keeping out of sight until it arrived and getting on the side opposite the station. A railroad detective says they rode to the bridge one mile this side of Green River and there jumped off. As they are both sheep men it is presumed that all the fraternity who live in isolated places where the crime has not been heard of will help them along. It is believed that they are heading for Canada, carefully avoiding telegraph and telephone lines, and with a view to capturing them Detective Franks will flood the supposed route with descriptive circulars. He will take the trail himself."

MR. GUS CONATY is the happy papa of a bouncing baby girl.

THEY do say that some of those pretty republican drum corps suits are not so nice as they were before the Spanish Fork trip.

A warrant batch of warrants issued out of Justice Wedgwood's court today for the arrest of numerous alleged violators of the duck law. Some shootists have been too eager to kill the web-footed bipeds, so much so that they have gone out in quest of them after the sun has gone down, which practice the law seriously objects to.

LOGAN PAUL has returned from Salt Lake where he and Professor Harris have been engaged during the fair, giving a number of very successful balloon ascensions. Logan and the professor have dissolved partnership for the winter. Harris married Miss Westphal of Pleasant Grove, and the two went to Ogden which city they will make their permanent home.

OF course we all know that a barber can't cut a man's hair with a shaving brush in his hand, but then "Dick" Sutton seems to think so today. The cause is that boy that arrived at his home last night. All up home are well, and in time "Dick" is expected to come back on earth, for a while at least.

The new lodge of the Knights and Ladies of Honor met in O. P. Fellows' hall last evening and completed their organization and installed the officers. Secret work was given, four members were initiated and ten balloted on, making a total membership of 61 charter members. The charter list has now closed. Three ladies were present last night and nine were balloted on. The lodge was designated the Provo lodge. It meets again next Thursday night.
