The Forum

AMERICA'S LEADING REVIEW

THE FORUM will take up for discussion, during 1903, an unusually wide range of timely and important topics by the most eminent writers in the fields of Politics, Finance, Sociology, Literature, Religion, Art, and Science.

To read the Forum is to keep in touch with the best thought of the day.

To be without the Forum is to miss the best help to clear thinking.

A catalogue of the writers who have contributed articles to THE FORUM in the past would embrace practically every man of eminence in America, and most of those in Europe. A list of subjects treated would cover in the widest degree all topics of contemporary interest. THE FORUM is therefore of inestimable value to any one who desires to keep closely in touch with the best of current thought.
