—All who are in love but not loved in return, veteran maidens and patriotic bachelors, all who are married but would like a divorce, hen pecking wives and abusive husbands, grass widows and widowers, in fact all who have made marriage a failure, and all who would like to make a success, should attend Prof. Auguier's phenological lecture to-night.

—Insomuch as the cattle men and sheep herders on Sucker Creek have had no amusement of late, such little pleasantries as "taking a shot" at each other, which seems to be a sacred and time-honored custom among the fun-loving people of that sanguinary country, the herders were forced to have a little time among themselves. One of Hoffer's herders was rade the butt of the joke and acted as target, while the joker pecked away at him several times with a repeating rifle. The only unpleasant feature of the whole affair seemed to be that the men were entire strangers, the victim of the joke naturally objecting to such undue familiarity from an entire stranger. Good manners at least demanded an introduction. The man who did the shooting is supposed to be crazy.

—Mr. Strahorn brings a bitter disappointment to the town back with him from the east. It will be remembered that his main object in going east was to find a man who could trace a map of Caldwell to compare with the modest effort of Boise. After a tireless search the project had to be given up. The only map maker of this kind extant lives at Boise City. Those who had the requisite imagination, had too much conscience; while those who had no conscience were not equal to the emergency in other qualifications. The only living combination of all qualities necessary is in Boise. Hence we are left. We can only put on sack cloth and ashes and weep, while the proud village up the valley waves her seven railroads on paper above her mossy back in triumph.

FACTS FOR READERS.  
During the week we have received (with more to follow) a stock of Ladies' and Gents' shoes, which we think comes nearer the features of completeness in style and quality, than anything heretofore brought to Caldwell.

It comprises the heavy, medium and fine. There are many novelties represented, which lack nothing of merit by being novel.

Among these—and the latest—is a line of Ladies' Misses' and Children's Curacao Kid Orange Color, machine and hand sewed, in

Newports, Button and Lace, high and low cut.

Ladies' genuine French Kid Hand Turned.

We have also ready for sale a handsome line of gents' shirts in spring and summer flannels, flannel coats and vests, all wool light cassimere pants, and an installment of neckwear, by express. Don't fail to see these goods, as well as the latest shapes in mens' hats.

LIVE STOCK NOTES.  
Shoshone Journal.

W. H. Baldwin, the live and energetic General agent of the U. P. Railway at Butte, writes that he expects to be present at the Mountain Home stock meeting, March 24th. Con. Kohrs, one of the largest stock growers in Montana is visiting Oregon Short Line points with a view to purchasing 1000 or 2000 steers from one to two years old. O'Shea Bros., butchers of Portland, and A. H. Johnson, another leading butcher, have been buying beef cattle in western Idaho and eastern Oregon for spring delivery, at good figures. There are several thousand head of good Idaho beef steers from 3 to 5 years old, for sale delivered on the Oregon Short Line, between April 1st and August 1st. Should the eastern markets strengthen this summer an active shipping season will be seen. The movement for Oregon and Idaho sheep for 1888, to eastern markets bids fair to be the largest known for some years. Eight or ten prominent eastern buyers are already contracting wethers for May and June delivery, or as soon as shearing is over. Prices paid for good to choice Oregon range from \$2 to \$2.25 per head, the average weight of which runs from 100 to 120 pounds each. The estimate of the shipment and drive this season to Wyoming and Nebraska points, including feeders, is placed at 150,000 head from this section alone. About 30,000 have been sold west of Shoshone to date, and probably as many more in Oregon. The principal wool shipping stations are Mountain Home, Caldwell, Ontario, Huntington, Baker City, Pendleton, Arlington, and The Dalles, between this point and Portland. The Union Pacific has issued a new tariff, for the shipment of stock sheep in train loads from one range to another, from points between Huntington and Cheyenne as follows: Distance of 300 miles, \$30 per car; 500 miles, \$50 per car; 750 miles, \$75 per car; 1000 miles, \$100 per car. Fat sheep for Missouri river or Chicago markets in double decked cars take the regular cattle rates as follows: To Omaha from Shoshone \$145.23, from Mountain Home \$155.02, from Nampa \$160; from Caldwell \$160; from Ontario, Payette and Weiser, \$169.05, and from Huntington to Omaha, \$174.16.
