VOL. V.

CALDWELL, IDAHO, SATURDAY, MARCH 31, 1888.

NO. 14.

NEWS AND MISCELLANEOUS.

The strike on the C. B. & Q. railway has caused a loss to the company of \$1,105,000. A loss of \$300,216 has fallen on the strikers.

S. M. Bishop, the fattest man in the world, died at Petersburg, Va., last Thursday of intermittent fever. He was 25 years old and weighed 650 pounds. When a youth he tipped the beam at 300 pounds.

A German chemist bacillus or germ of cancer, and his statement is confirmed. This may be regarded as the first step toward the control of this horrible malady. What a desperate struggle man is compelled to make against the attacks of these swarms of lower forms of life.

The strikers on the Chicago, Burlington & Quincy road have lost all hopes of a favorable compromise, and those who are in the councils of the Brotherhood say by the end of the month the strike will be declared officially off. The last report adopted by the grievance committee was to handle all Burlington freights on other roads as rapidly as possible in order to completely flood the road's yards.

Chief Justice Waite of the U. S. Supreme Court, died at his residence in Washington, D. C., last Friday morning. The Chief Justice was in his usual health until a week before his death, when, on returning from Senator Hearst's where, with his daughter, he attended a reception, he complained of a chill. During Thursday night he was comfortable and no particular alarm was felt, but at 6 o'clock Friday morning a failure of the heart's action was observed and his death was sudden. The remains will be buried at Toledo. There are quite a number of Democrats whose names are being mentioned for the Chief Justiceship, among them being Thurman, of Ohio, Postmaster General Dickinson, Francis Kernan, of New York, Gov. Gordon, of Georgia, and John Randolph Tucker, of Virginia. Chairman Barnum, of the Democratic National Committee, said to-day: "It may seem out of place to discuss the question of succession, but in my judgment President Cleveland could not do better than to appoint Thurman."

A New York Man Who is Going to Clear Australia of the Rabbit Pest.

E. L. Spotts of New York, left for Australia last week. He took with him thirty-six rabbits inoculated with an unerring fatal and contagious rabbit disease. He goes on a commission from the premier of New South Wales, in the hope of being able to exterminate the rabbits there, which have become such a pest that the government has offered a reward of \$250,000 for their extermination. The millions of them which are now devastating the fields have all come from four ancestors taken to that country from England in 1847. Mr. Spotts will stop in Chicago to meet some friends from St. Louis, of which city he is a native. He is booked to sail from San Francisco on the 29th inst.

A Railroad in Southern Oregon.

A San Francisco railroad official in speaking of the probable construction by the Southern Pacific company of a road from some point on the California & Oregon railroad route into Southern Oregon said: "Southern Oregon has not got road-way facilities at present, but in the very near future some company is bound to penetrate the fine stretch of country from Lake Klamath and Lake Albion as far as the valley of the Owyhee river and Idaho Territory line."

The Malheur Democrats.

The following ticket was nominated by the Malheur county, Oregon, Democrats, at their convention at Vale on the 15th inst.: Representative, P. Norton; Sheriff, H. C. Murray; clerk, E. H. Stiff; assessor, W. S. Lawrence; treasurer, L. A. Sevey; county judge, J. T. Clement; commissioners, Con. Ryan, J. C. Skelton; school superintendent, Wm. Gribble; surveyor, Henry Hodges; coroner, Larry Faulkner.

Important, if True.

Salmon City Recorder. It is reported on the streets that the "quill-driver" on the Recorder staff is going to "double up" with an angelic damsel in just two weeks. That's a wonderful catastrophe for an editor to fall into—but such things often happen in the best regulated families. Ha! Ha! Wonderful! Very funny! Everybody invited. The Recorder, only \$4 per year; stock brands, \$5 per year; birth notices, free.

Where the Wicked Cease from Troubling.

An editor works 365 days per year to get out 52 issues of a paper; that's labor. Once in a while some one pays him for a year's subscription; that's capital; and once in a while some one dies of a dead beat takes the paper for a year or two and vanishes without paying for it; that's anarchy. But later on justice will overtake the last named creature, for there is a place where he will get his deserts; that's hell.

How \$1 Made John Trimble Trouble.

John Trimble, No. 334 Broadway, is the most contented man in Aurora, Ill., for he has in the bank \$4,995, the profits of his investment of \$1 in the Louisiana State Lottery. He was seen by an Express reporter and acknowledged that he had received the above amount and that it was his intention to use the money. The ticket which drew the \$50,000 prize was number 75,152, Aurora, Ill., Express, Jan. 30.

## L.S.L. CAPITAL PRIZE, \$150,000.

"We do hereby certify that we supervise the arrangements for all the Monthly and Semi-Monthly Drawings of the Louisiana State Lottery Company, and in person manage and control the drawings themselves, and that the same are conducted with honesty, fairness, and in good faith toward all parties, and we authorize the Company to use this certificate with facsimiles of our signatures attached, in its advertisements."

*L.S.L. Lottery*

We the undersigned Banks and Bankers will pay all prizes drawn in the Louisiana State Lotteries which may be presented at our counters.

Over a million distributed

## Louisiana State Lottery Co.

Incorporated in 1868 for 25 years by the Legislature for educational and charitable purposes, with a capital of \$1,000,000, of which a reserve fund of over \$550,000 has since been added.

Land Office at Boise City, Idaho, February 10, 1888.

Notice is hereby given that the following named heretofore filed notice of his intention to make final proof in support of his claim, and that said proof will be made before Register and Receiver at Boise City, Idaho, on

## LUMBER.

We have at our mills at Emmett, well-seasoned common lumber, only \$10 per thousand, cash. Also Matched Flooring, Siding, Rustic, Ceiling and Shingles, all cheap for cash on delivery.

## "It Saved My Life"

Is a common expression, often heard from those who have realized, by personal experience, the curative powers of Ayer's Cherry Pectoral. "I cannot say enough in praise of Ayer's Cherry Pectoral, believing as I do that, but for its use, I should long since have died from lung troubles. — E. Bragdon, Palestine, Tex.

## Ayer's Cherry Pectoral.

I did not, and am happy to say that it helped me at once. By continued use this medicine cured my cough, and I am satisfied, saved my life. — Mrs. E. Coburn, 18 Second st., Lowell, Mass.

## Ayer's Cherry Pectoral.

I have used Ayer's Cherry Pectoral for over a year, and sincerely believe I should have been in my grave, had it not been for this medicine. It has cured me of a dangerous affection of the lungs, for which I had almost despaired of ever finding a remedy. — D. A. McMillan, Windsor, Vermont, October, 1887.

## Ayer's Cherry Pectoral.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

## BLACK SAM.

This famous stallion is now for sale at my ranch six miles below Caldwell. I also have two or three of his colts for sale.

## THE BUYER'S GUIDE

is issued March and Sept. each year. It is an encyclopedia of useful information for all who purchase the necessities of life. It can be used in the store or at home, and in various sizes, styles and quantities. ## The Younger Brothers.

Denver Republican.

While on his recent visit to Minnesota, Deputy State Labor Commissioner Driscoll visited, among other places of interest, the State penitentiary at Stillwater, where,

## NOTICE—TIMBER CULTURE.

U. S. LAND OFFICE, Boise City, Idaho, February 27, 1888.

Complaint having been entered at this office by Asa O. McCamley against Edwin R. Cannon for failure to comply with law as to Timber-Culture Entry No. 278, dated October 20, 1881 upon the north section 15, township 4N, range 4W, in Ada county, Idaho, with a view to the cancellation of said entry; constant alleging that Edwin R. Cannon did not break or plow 5 acres covered by said entry the 1st year, nor 5 acres the second year, nor has he cultivated to crops or otherwise 5 acres at any time since said entry; nor has he at any time since said entry planted 5 acres or any other quantity of land in timber seeds or cuttings. The said parties are hereby summoned to appear at this office on the 14th day of April, 1888, at 10 o'clock a. m., to respond and furnish testimony concerning said alleged failure.

## TERRITORIAL.

It is considered pretty certain that the Union Pacific will soon build a railroad from Eagle Rock to the Yellowstone Park.

The canal system of the Eagle Rock canal company aggregates in main ditch and laterals 120 miles and is capable of covering over one hundred thousand acres.

A rafter named Irwin, near Eagle Rock, got mad at his fourteen-year-old boy one day last week and filled his back with shot from a gun. The boy came to town and informed on him and the inhuman father skipped the country.

The Weiser Water Company, says the Leader, are pushing the work on improving and enlarging their ditch. They have been at work five weeks, and now have twelve teams at work. T. C. Gallo-way has charge of the work.

A drunken man walked off the platform of a passenger car when a few miles out of Shoshone, a few days ago, and struck on his head and shoulders, breaking an arm and shoulder. The train was running at the rate of 20 miles an hour.

## The Division of Idaho.

Eagle Rock Register.

Mr. J. C. Anderson, of Eagle Rock, has received from a U. S. Senator a copy of a map of the Territories with the dividing lines marked out and the following communication:

That political supremacy is fast pushing westward is a well known fact. Another remarkable thing is the great size of the western states, such as Texas, California, Dakota and Montana. The larger the state the more people it will hold and the greater its population the more votes for the president. Before long there will be a race to see which of these great western commonwealths will take the rank that New York, Pennsylvania, Massachusetts and other states hold in the east. Among the many plans for division is one that interests Idaho. It is to annex all of Idaho north of Salmon river to Washington and call that State Idaho. Then run a north and south line from about where the west boundary of Lemhi county crosses the Salmon river, clear through the territory and annex to Oregon the western part of the country thus divided. The eastern part to be made into a state by adding to it all of Wyoming and the counties of Box Elder, Cache, Rich, Weber, Morgan, Davison and Summit from Utah; the new state thus made to be called Uinta, and to be under Idaho's laws.

It is also proposed to divide the remainder of Utah between Nevada, Colorado and Arizona and thus blot out Mormonism.

It is for the people of Idaho to say what they wish done in the matter, but if the division be made as above it is likely that the new style of Uinta would be the Pennsylvania of the west and the completion of the Vanderbilt lines to Oregon seaports will make Oregon the New York of the Pacific.

## Idaho Potatoes.

The Salt Lake Tribune reports the following item of interest to Idaho farmers. The facts enumerated are not monopolized by any one district, but are applicable to any of the great agricultural valleys of southern Idaho. In speaking of the business carried on by an Eagle Rock firm, the Tribune says: "One item of their business is of interest, as it shows what the farmers are doing. Of last year's crop they have shipped away over seventy-five car loads of grain, hay and potatoes. They engaged with a Chicago house to send all the potatoes of this district to them, and in the past few days sent them 200,000 pounds, and will send ten to fifteen car loads more. This is done at a rate of 60 cents per 100 pounds, and they get for the spuds, free on cars here, one cent per pound. This shows how highly potatoes raised here are esteemed in the east."

## A Winter Day in Alaska.

The Alaska Free Press, published in Juneau, in its issue of December 31, 1887, says: "The shortest days are passed, and we now see old Sol's shining face a few minutes longer each day. On the 23d the sun rose at 8:40 a. m., huddled close to the top of the peaks crowning Douglas Island, disappeared from sight at 1:10 p. m. behind a tall peak, came out again at 1:40 p. m., and then finally set at 3:40 p. m. At 3:40 darkness sets in and lamps are lighted."
