CALDWELL, IDAHO, SATURDAY, OCTOBER 7, 1905

WEEKLY, \$2.00 PER YEAR

ATTRACTIONS of the CANYON COUNTY FAIR

The fair, the Canyon county fair, is in our midst once more, or will be next Tuesday. Will it rain? Aye, there is the rub. Will it rain? Jesse Gowen, secretary, upon honor declares that if it does not rain—and he has a string of anti-rain petitions ascending throneward strong enough to close the flood gates of heaven—as aforesaid, Jesse Gowen, secretary, declares upon honor, that the fair will be the grandest ever pulled off in this or any other county south of 49, 40 or fight. Wednesday, the 11th will be Payette day. Payette is where A. B. Moss, Pat Devers, D. C.

Chase, F. M. Satoris and Burt Venable flourish and raise watermelons so large that they hang over the rails of the bridge when crossing the river. A special train will run all that day between Payette and Caldwell and carry passengers, and melons and peaches and Jersey heifers at one fair the round trip. The Payette silver cornet band, composed of the handsomest young men in the west,—all prize winners—will fill the air with celestial harmonies and the fair with palpitations. On that particular day will also be exhibited the best sucking mule colt and the best yearling

ditto, raised in all the country round about, which noble young animals will have been awarded the P. E. Engel special prize. The act will be pulled at 2 p. m. by the secretary's gold watch and chain and celluloid collar. Throughout the length and breadth of Payette day startling and spectacular events will occur every half hour, continuing until nine of the pea em.

The Caldwell Banking and Trust Co. is offering a special prize for the best farm team. The prize will be awarded Oct. 13, and at 3:30 in the afternoon, duly bedecked and beribboned, the prize winning team

will be brought into the arena directly in front of the grand stand, meanwhile the president of the association will deliver an oration. This also will be children's day. All the children of the county will be admitted free and if circumstances warrant, have their autographs taken in red lemonade.

Already there are seventy eight runners, trotters, pacers, lopers and cantaloupes on the grounds, all champing the bit and ready to show some of the swiftest going ever seen in these parts or any other extradition territory. The purses hung are many and opulent. The

fruit, vegetable, cereal and floral displays will excel in every way. The animal and poultry department will be a liberal education in zoology and ornithology. But outside of and overbeyond all these will be the instructive, edifying and fascinating entertainments. Baloon ascensions, punctuated by firing human beings from the mouths of roaring canons. Egyptian dancers, doing the abdominal muscular; freaks and monstrosities, world renowned snake charmers, the lady and the tiger, educated hogs, graduated donkeys, tight and loose rope walking, high diver by ladies on foot

and ladies on horseback, Abyssian skirt dancing, talking calves and walking calves, the human snake and the miraculous ceiling walker, the Japanese acrobats and the dagger target, all and numerous, jointly and severally and only 25 cents for a day of it. Bring the children and the old folks, the moderns and the ancients. Season tickets only one plunk.

Don't fail to see the big foot ball game. It will be about the fastest ever seen. The Caldwell boys are practicing nightly and will be prepared for all comers.

Business Men

Favor City Hall

The Business Men's Association had a meeting Thursday night. It marked a year of the association's activities. The secretary's annual report was submitted and indicated the many substantial accomplishments of the association since its organization. One feature of the report, however, bares a striking resemblance to a country newspaper's subscription list, inasmuch that delinquencies were painfully conspicuous. Out of a membership of nearly forty, less than half had paid their monthly dues. A member from the country moved publication of the secretary's report, but he was laughed to shame. Business men talk a great deal about the delinquencies of their customers, but if you want to see a very miracle of slow pay, watch a business men's association. It seemed to the member from the country that it would be a nice thing to publish the annual report of the association, so that the people could know authoritatively its achievements. There did not seem to be anything that the association need be ashamed of, except its delinquencies, and modesty would have suggested omission of names. It would have been nice to lay before the community a brief account of the association's activities, to the end that the community could know and appreciate all that has been done and thereby lead to a more generous and enthusiastic support. But your business men, whether singly or plurally, whether trust, combination or benevolent association, are very secretive members. They shirk publicity like a bat the noonday sun; so we are denied the privilege of laying before our readers, in authenticated form, the splendid history of the Business Men's Association of Caldwell.

At this particular meeting a municipal pilot was engaged to direct fair visitors to places of rest and refreshment. Heretofore a great many visitors have suffered great distress because they could not find lodging places. The pilot will overcome that difficulty.

A resolution favoring the building of a city hall was adopted by unanimous vote, and a copy of the resolution, which is in strong terms, will be served on the mayor and common council at an early day. At this juncture the meeting fell into a rambling, desultory mood, and discoursed and gossiped promiscuously. Two or three gave way to fits of levity, actually showing a lack of reverence for the serious and solemn conclave. They were brought to a realizing sense of their indecorum by the announcement that the prime disorder of the Business Men's Association of Cald-

well was too much boys' play from the start. The unruly and irreverent members dropped their chins and instantly grew strangely dumb and introspective. The admonition fell upon the entire assemblage like a large moist blanket, but they went about the transaction of business as soon as they could recover, though in softly subdued and mournful manner.

It being annual election time, some one called for a reading of the roll of governors; somebody else renominated the entire roster, and it was enthusiastically re-elected without a dissenting voice.

Then the meeting softly disintegrated.

Gypsies at Wardner.

A band of gypsies has been at Wardner and Kellogg for the past week and are now camped a short distance below the Bunker Hill concentrator. Last Monday Fred Decker arrested four of the female portion of the gang, charged with larceny. They had stolen everything in town they could lay their hands on unnoticed. They were placed in jail all night and the stolen goods taken from them. On Tuesday their male companions came up and paid their fines of five dollars each and costs, which Judge Kelley had assessed against them, when they were given their liberty with emphatic orders to scoot. They have not been in Wardner since.—Wardner News.

It has been definitely decided to put in the large power plant on the town side of the river, which has been talked of so long. About a dozen men are now at work with a small night shift and as soon as machinery can be brought in, a large force will be put on night and day and the concrete work pushed to completion before cold weather sets in.—American Falls Advertiser.
