CALDWELL, IDAHO, SATURDAY, OCTOBER 21, 1905

WEEKLY, \$2.00 PER YEAR

PREMIUMS GIVEN AT COUNTY FAIR

The Caldwell Fair Was a Success in Every Particular

The Canyon County fair is over. The chapter in its history is closed. The last was the greatest best fair in the history of Canyon County. The attendance was the largest, the exhibits more and better, the program was more interesting. Altogether the fair just closed has won great credit upon the officers and promoters of the Canyon County association. The prizes were fairly and honestly awarded; every effort to the program was pulled off smoothly and quietly; in short there was no wrangling or jangling. Everybody is well satisfied and feels going to work in earnest to keep the institution going.

During fair week one of the chief attractions was the Idaho State Band under the able management of Swain and leadership of A. T. The band maintained its reputation throughout the week. Evening street concerts attracted crowds who were unostentatious in their applause. Many encouraging complimentary words were heard from visitors and strangers in the

evening performance of the Marionette, under the direction of Earl & Franks, was a great success. There was a score of life-like figures such as Irishmen, Dutchmen, tramps, rube, old maid, clown, soubrette, contortionist, performers, etc. The comedy sketch Mr. Croutzmeier's Trouble attracted the audience in a roar of laughter. For a free street attraction the Royal Marionettes were a great success.

The Snodgrass band, composed of Mrs. W. E. Snodgrass and others, was in attendance during the entire week. It furnished some music and was a great attraction.

The balloon ascension never failed to hold the crowd. It was very interesting to all and added greatly to the attractions of the fair.

The following is a list of those receiving premiums and awards at the Canyon County fair last week.

Bulgar, the famous big range steer, owned by W. A. Coughanour of Payette, and which was exhibited at Portland this summer and also at the State fair at Boise, died last Saturday night. Death was caused by the bursting of an artery near the heart. Bulgar was probably the largest steer in the United States, and aside from being very valuable was a great pet of his owner.—Payette Enterprise.

Sucher Creek Wants In

At the meeting of the land owners of the Sucker creek portion of the Payette-Boise Reclamation project a resolution was adopted as follows:

"We, the undersigned land owners adjoining Sucker creek, being in the Payette-Boise government project, believing that our land may be benefited by the construction of reservoirs on Sucker creek and the diversion of the water upon our land hereby argue: "That we ask Mr. D. W. Ross, engineer U. S. G. S., to furnish us with such data and information as will determine the feasibility and the probable cost of reservoiring the water and diverting it on our lands. "Also, we ask him to advise us what work we, as a community, can do in the way of construction, along the lines proposed by the government. "And in the event there is found a feasible plan by which we may commence [construction along such lines, we hereby agree to organize and prosecute such work to the best of our ability".

The meeting was presided over by Mr. F. E. Tracy. Mr. Griggs was elected secretary. Upon invitation Hon. J. H. Lowell, president of the Payette-Boise Water Users' Association was called upon to address the meeting. He gave a brief outline of the government work in this section and its relation to existing irrigation companies and organizations. Upon motion Messrs. Trowbridge and French were appointed a committee to circulate the following resolution which is also a petition:

"The lands in question are among the most fertile in this portion of the state, and those now watered from Sucker creek produce the largest returns in the way of grain, hay and vegetables. It is beyond question that this section will give greater returns for an expenditure in irrigation works than any other in the project. The spirit which these land owners manifest in being willing to take the

ELECTRIC POWER FROM SWAN FALLS

Contract Signed With Manager Sebree to Transmit Power to Caldwell

Manager Fredric Irwin of the Trade Dollar Consolidated Mining Company, which Company is the owner of the Swan Falls power plant, was in Caldwell a couple of days this week. He signed up a contract with President W. R. Sebree of the Caldwell Power company, to use Swan Falls power in Caldwell. This is the outcome of negotiations long since started by the two companies. It is understood that Mr. E. H. Dewey of Nampa has entered into a similar contract. It was hoped to carry the line to Weiser, but Payette was not ready to entertain a proposition. It seems that a local company is there. Of course it would be impracticable to go as far as Weiser unless all towns of consequence along

the route would patronize the line. For the present the line will not go beyond Caldwell. However it will be extended as rapidly as conditions warrant. The Swan Falls power plant was constructed by the Trade Dollar Consolidated Mining Company of Owyhee county some years ago. A dam was built across Snake river at Swan Falls. The primary object was to furnish power for mining purposes. Enough power was developed to enable the company to supply several towns with electrical energy for lighting and power purposes. The power is regular and reliable, owing to the substantial and skilled manner in which the plant was constructed. There has not been one interruption since the plant was installed.

Payette Boise Directors Meet

A special meeting of the directors of the Payette-Boise Water Users' Association was held in Caldwell Tuesday. There were present, President J. H. Lowell, Directors C. E. Paine, J. J. Walling, D. E. Hubbard, A. J. Mitchell, A. J. Howard and A. R. Stalker. It developed at the meeting that there were about 5000 acres of unassigned land in the Pioneer Irrigation District, 4000 acres in the Ridenbaugh district in Canyon County and 5000 in the same district in Ada county. Wednesday morning a meeting was held in the Pioneer Irrigation District building, which was attended by representatives of the District, the Sebree Canal Co. and the Riverside Canal Co. and of the Water Users' Associations, for the purpose of discussing the amount the various companies should be credited with, for existing works. We understand that the Directors of the Pioneer Irrigation District agreed to take \$14.00 per acre.

State news

James E. Keith, the Rockville woolgrower was in town yesterday and it was whispered to Nugget that it was for the purpose of fitting himself out with a marriage license.—Owyhee Nugget.

About November 1st Emmett will have another banking institution. The necessary steps have been taken for its incorporation and the papers will be filed today or tomorrow. The new bank will have a paid up capital of \$30,000, about half of which is furnished by local parties.

A meeting of the stockholders was held Friday night and the following directors were chosen: W. R. Cartwright, F. A. DeClark, E. M. Reilly and J. L. Stewart of Emmett, W. Scott Neal, C. C. Anderson and J. C. Pence of Boise—Index

Congressman Burton L. French has received an invitation from Chairman Dick of the republican state central committee of Ohio, to come to that state and campaign this fall. Many of our people will remember that Mr. French was on the stump in Ohio for thirty days during the last campaign and so acceptable were his services that he is urgently requested to again go east and assist in winning still another victory for the party of Roosevelt. Mr. French hopes to be able to arrange matters and accept.—Moscow Mirror.

The Parland Newhall male Quartette will open the season with a concert at the Opera House Saturday evening Oct. 21st. Performance to begin at 9 p. m. sharp.

These people have entertained immense audiences in the great Chicago Auditorium during the last 5 season. It will just cost \$125 spot cash to have them deliver their harmonies in our city. General Admission 75 cents.

Jim Keith and Charley Johnson were in town yesterday. They of course attended the dance. Mr. Keith has contracted his wool crop for next year at 20 cents. Jess Gowan of Caldwell, is the purchaser. Mr. Gowan has contracts to furnish 3,000,000 pounds to eastern buyers.—Silver City Avalanche.

Some bedding was stolen from the little building next to the Grand hotel, where the employees sleep, Sunday night. Thieves also entered through the top of one of the caboose and stole some clothing. Chief of Police Lillard is of the opinion that the thieves were either some of the circus gang turned loose here or ordinary hoboes. The circus dismissed forty men here and an extra policeman was put on until the great majority of them got out of town.

Later—They were caught today at Emmett, and proved to be circus men.—Leader Herald.

The Payette Enterprise says: The work of completing the Payette Water-works system will now be pushed to completion. The island south of the bridge has been secured on which the well will be located. A crew of workmen commenced work yesterday and the pipes will be laid across the river from the well site to the pumping station which is to be located by the Payette Valley Milling Company's mill. Teams have also been put to work at the reservoir site, additional material consisting of cement and piping. Every detail has now been arranged for the immediate completion of the work.

Dear Flat Items

Mr. Stewart is doing considerable clearing and expects to put up two windmills soon. He will have a fine ranch as soon as he can get things in order.

Our school house is progressing nicely and will soon be ready to start up school.

Sunday school was held at John Dotson's last Sabbath.

Chas. Hanson is busy digging wells in the vicinity of Mussel's Ferry.
