TEN YEARS OF PAIN.

Unable to Do Even Housework Because of Kidney Troubles.

Mrs. Margaret Emmerich, of Clinton St., Napoleon, O., says: "For fifteen years I was a great sufferer from kidney troubles. My back pained me terribly. Every turn or move caused sharp, shooting pains. My eyesight was poor, dark spots appeared before me, and I had dizzy spells. For ten years I could not do housework, and for two years did not get out of the house. The kidney secretions were irregular, and doctors were not helping me. Doan's Kidney Pills brought me quick relief and finally cured me. They saved my life."

State Treasuries Overloading.
Through ingenious methods of taxing railroads the treasuries of some States are so swollen that State officers are puzzled to know what to do with State funds. New Jersey's receipts from corporations have filled its treasury. Pennsylvania had a surplus of \$10,000,000 and no debt to speak of. Back taxes received from railroads and the collection of a war claim of \$1,000,000 have enabled Wisconsin to pay extraordinary expenses, put \$643,000 into the State treasury and cut the school tax levy in two.

A Nurse for Sick Dogs.
A young New York woman is a trained nurse for sick dogs. For some time she has been a member of the staff of the New York Dog Hospital, where the sick pets of the wealthy are nursed back to health. She often has as many as a hundred dogs to care for. It is her duty to give them their medicine, and in other ways carry out the doctor's orders exactly as a trained nurse would do for human patients.

GIPSY SMITH.

Famous English Evangelist Who Has Been Preaching in America.
"One Sunday I entered a turnip field and preached most eloquently to the turnips. I had a very large and most attentive congregation. Not one of them made an attempt to move away."

Gipsy Smith has thus described his first audience. That was years ago in rural England when he was a gipsy boy, living in a canvas wagon and selling clothespins and tinware for his father. To-day few men are more gifted with natural eloquence or more successful in swaying multitudes than Gipsy Smith.

This great evangelist, in America for the sixth time, has returned to England, after a seven months' tour of "the States." He spoke in most of the large cities, drawing people in such crowds that it was commonly necessary to use the password, "I have never heard Gipsy Smith," in order to gain admission to his meetings. He has visited every English speaking country around the world, and everywhere he has caught the ears of the people. He fills the biggest halls with no other advertising than that carried by word of mouth.

The man is remarkable for his simplicity of speech, his flashes of humor and pathos, his insight into human nature, his dramatic fire and his appeal to the heart. Not the least of his gifts is his singing. Since the days of Moody and Sankey, no one has reached the masses so effectively with song and sermon. Thousands have been made better men and women through his ministry. Wherever he goes, he leaves behind him an awakened religious life. He accomplishes all this by the irresistible power of his personality and his message. Much evangelistic work is superficial and sensational. Gipsy Smith's is not. It is deep, lasting and impressive. One of the London papers said of him a few years ago that he is one of the finest exponents of the possibilities of Anglo-Saxon speech since the days of John Bright.

Gipsy Smith's home is in Manchester, England. He has two sons and a daughter. Albany, the eldest son, is an officer in the English mercantile marine; Hanley is a student at Victoria University, Manchester, while the daughter, Zillah, is at home. "When she was somewhat younger," the evangelist recalls in his delightful autobiography, recently published, "she once said to me, 'Some little girls have their daddies always at home; mine only comes home when he wants clean collars.'"

THE OLD SWIMMIN' HOLE.

Oh, the old swimmin' hole, in the creek so cold and still,
There are moments that I can't forget, and likely never will;
Even now I'm still in wonder, and can't think to save my soul

A Dying Glass.

In the glass collection at the Museum of Art in Dresden, Germany, there is a large drinking cup which stands apart from all other art objects under a heavy glass case. It is of Dutch workmanship, and the inscriptions and style show that it was made early in the eighteenth century. The vessel is remarkable because it is known in the museum, says a Berlin paper, "as having consumption which can be communicated to other objects of glass. On that account it is isolated. There are remedies against this glass disease, which is usually developed because of defects in the glass mixture, but these have not been applied to the Dutch vessel in order that the progress of the wasting disease may be observed."

The Sheep and the Shepherd.

"The rector of that fashionable church of yours," said Mrs. Knox, "certainly has an easy thing of it."
"But," began Mrs. Swellman, "he is a good shepherd."
"Oh, it's easy to be a good shepherd when the sheep are all fat and prosperous."—Philadelphia Ledger.

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable. The dose is only one pill at bedtime.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of **HAIR VIGOR**, **ACHE CURE**, **CHERRY PECTORAL**.

Getting His Measure.

Aunt Filura was preparing soup for dinner, when one of the neighbors happened in on a borrowing errand.

"Why, Aunt Filura, isn't that an unusually large soup-kettle?" asked the caller, with a calculating glance at the stove on her passage across the kitchen.

"If you're just looking at the kettle, it does seem plumb sizable," said Aunt Filura, calmly; "but when you cast your looks on the extents and pliability of my Enoch's mouth, I reckon 'twon't look any too large, that kettle won't."

Properly Censored.
"When Maxim Gorky dined with me," said a literary New Yorker, "he talked about the Russian censorship."

"He said that in the course of the Russo-Japanese war he had occasion in an article to describe the headquarters of one of the grand dukes. He wrote of these headquarters, among other things: 'And over the desk of his highness's tent is a large photograph of Marie la Jambie, the beautiful ballet dancer.'"

"Before this article could appear, the censor changed that sentence to: 'And over the desk of his highness's tent is a large map of the theater of war.'"

The lighthouse at Corunna, Spain, is believed to be the oldest now in use. It was erected during the reign of Trajan, and rebuilt in 1634.

BAD BLOOD

THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the slightest trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.
