CLUBS HOLD ANNUAL MEETING

PAYETTE MEETING WAS A MOST INTERESTING ONE.

Federation of Southern Idaho Women's Clubs Meet, Transact Business, Elect Officers and Discuss Club Matters—President of the Organization Makes Some Strong Recommendations.

A most instructive and delightful meeting was that of the eighth annual convention of the Second District Federation of Women's Clubs held at Payette October 19th to 20th. The delegates on their arrival were met at the station by a committee of ladies of the hostess club, "The Portia" and were escorted to the Y. M. C. A. building where the meetings were held. All along the way they were reminded of the welcome extended to them by the citizens, every store window either was decorated profusely in the club colors, white and gold, or at least bore the sign welcome or the letters T. N. C. in colors. Mrs. John McGlinchy welcomed the visitors warmly to the homes and the hearts of the Payette people.

The usual routine business followed a most interesting account of the work done in the various clubs was read by a representative from each club and it was certainly proven that the clubs in this district had not been idle during the past year. The president's annual address was full of recommendations for the coming year among some of them were the following: That the club women work for stricter enforcement of the curfew law, that public sentiment be kept alive to necessity of supporting all measures looking to the betterment of the condition and control of dependent, crippled and delinquent children, that there be close co-operation with the state historical society, that a traveling art exhibit be sent to every school and library.

On Tuesday evening a most interesting and charming address was given by Mrs. Philip N. Moore of St. Louis, president of the General Federation of Women's Clubs, on the history and aims of that body also a talk on her recent visit as the guest of the government to Panama to visit the clubs of the zone. General and domestic conditions of that part of the world were pictured by her. The balance of the evening was taken up by music and an informal reception to Mrs. Moore. Mrs. Bowerman, chairman of the loan scholarship fund gave an account of that fund and its disbursement on Wednesday morning. The fund has grown from \$100 started about three years ago to \$1000 and it is the committee's aim and hope that it may reach the \$1500 or \$2000 limit by another year. At the close of Mrs. Bowerman's talk subscriptions were asked for and about \$150 was raised in a few minutes. This is a most worthy venture and the clubs have been able to help many deserving students who could not have finished their studies any other way, and so far they have not lost a penny in failures to repay funds.

Meadows, Idaho, sent a lady to represent them though they were not as yet members of the Federation and she presented to the convention the request that the Federation join with the Meadows club to procure some suitable banner or tablet to be placed in the old cabin in which the first territorial convention was held and which that club has been instrumental in preserving to the state.

Wednesday afternoon the election of officers was held and resulted in the following: President, Mrs. Fred Pettenger, Boise; Mrs. Wheeler, vice president, Shoshone; Mrs. Frank B. Kenyon, secretary, Boise; Mrs. Alex. Johnson, treasurer, Weiser.

The social events of the sessions were a charming series of luncheons served at the homes of Mrs. Laner, Mrs. Wilson and Mrs. Albert. A luncheon served by the W. R. C. in the Odd Fellows hall and a delightful auto ride given the delegates and visitors by the Payette Commercial club.

The delegates from our own town were Mesdames Bryan, Jackson, Stone, A. K. Steunenberg, C. B. Steunenberg and Blatchley. The program in full follows: Tuesday Morning, 10 O'clock, October 19th—Y. M. C. A. Building. Mrs. F. A. Pittenger, Presiding.

CALDWELL TO HALE APPLE DISPLAY

CALDWELL WILL EXHIBIT FRUIT AT COUNCIL BLUFFS.

Dorman Brings Expert Packers to the City to Prepare Fruit for Shipment to Council Bluffs and Chicago—It is Proposed that Caldwell Sustain Her Reputation for Apples and Other Fruit.

Expert packers arrived in Caldwell Thursday for the purpose of preparing and packing a car load of Caldwell apples to be exhibited at Council Bluffs and Chicago. The apples will be taken from the Dorman, Hall and George orchards near this city. Mr. Henry Dorman has charge of the exhibit to be made at the cities above mentioned. He proposes to make such a display as will attract greater attention than was done a year ago at Omaha and Council Bluffs. In order to get the full advantage of the advertising secured last year a display is necessary this year. The partial failure of the fruit crop throughout the northwest will make the Caldwell display more prominent than ever. Mr. Dorman proposes to make a strong showing. A car load of beautiful apples should attract some attention.

FISKE CHARGED WITH BURGLARY.

M. A. Bates was up from Parma Tuesday for the purpose of swearing out a warrant against Fred H. Fiske on a charge of burglary. Judge Bates claims that Fiske entered his print shop and got away with a shotgun. Fiske is a transient, although he claims Nyasa as his home. He is now serving a ten-day sentence in the county jail. As soon as his time expires he will have his hearing on the new charge.

There was some joking around town this week when it was learned that Fred Fiske was in jail, and that a charge of burglary had been lodged against him. It was soon ascertained that Fred Fiske was not Fred Fiske, the Parma merchant, booster, politician and exhibitioner. We think that Judge Bates was responsible for the inference drawn by the people of Caldwell.

Judge M. R. Jenkins this week received from his son, W. A. Bacon, a few apples grown in Round Valley. They are the first apples grown there. Mr. Bacon was not convinced that the high altitude of Round Valley made fruit growing impossible, and consequently did a little experiment work. He planted about 20 trees. They are all alive and doing well. The fruit sent to Caldwell was blown off the trees by a heavy wind, consequently were not fully matured. However, Mr. Bacon has demonstrated the fact that apples, at least, can be successfully grown in the Round Valley.

FIRST PRESBYTERIAN CHURCH.

Sunday school, 10:30 a. m., Prof. Paul Murphy, supt. The Sacrament of the Lord's Supper will be observed at 11:30 a. m. All members are requested to be present at this service. Senior christian endeavor at 6:30. Mr. Joseph Baum, jr., president. Sermon at 7:30 p. m. by the minister. Choir practice on Saturday evening at 8 p. m. All will find a welcome at these services. Every person in the city should find a home in some of the churches. As one of the pastors, I can assure you that you will be welcomed and find help in these services. The churches of Caldwell work together and no one church wants to build itself up at the expense of any other, but it is the desire of every pastor that each person find a home in some church. Special opportunity is offered at this communion season to enter our church, and if there are those that have letters to our church we would be glad to have you present them at this time. Prof. Paul Murphy, musical director. Francis E. Springer, minister.

CARD OF THANKS.

We desire to thank the many friends and neighbors and the G. A. R. and Ladies Relief Corps especially, who so kindly assisted us during the sickness and after the death of our father and husband, John R. Vassar. Mrs. John R. Vassar and children.

GOOD PRICE FOR WOOL ASSURED

The success of the venture of the woolmen in the intermountain states in storing their wool in the Chicago warehouse seems to be assured and the different shepherms who are share holders in this corporation are receiving assurances that their clip is being sold at a very fair price. When the company was formed last year by the shepherms to do away with the wool buyers' commission, there were some doubts as to the ultimate success of the plan. It has developed however, that the shepherms who have stored their wool in this warehouse have received better prices than heretofore and this year's clip will bring them a good round sum.

J. E. Gosgriff in a letter to Sam Ballantyne of Boise recently had this to say concerning the outlook for this year.

"The storage checks are now beginning to come in and I do not think any further notice is necessary. On October 14 \$12,500 had been received out of a total of \$100,000 due not later than October 31. It appears that now nearly all of the share holders will send in their money."

"We continue to sell wool at satisfactory prices and I think we will be able to dispose of all we have at prices which, on the average, will be better than even the highest ones which were paid at shearing time. The whole enterprise is working out more successfully than I at any time hoped it would, and all we need to do is to stand by loyally and we will be forever through with the antiquated commission system we have endured for so many years."

Mr. Ballantyne seemed very much pleased with the report from Chicago and in discussing the matter said: "There have been numerous inquiries recently concerning what is being done with the wool shipped to the warehouse. In the next few days every shipper will receive a report concerning his clip and from the tone of Mr. Gosgriff's letter these reports will be very flattering. In my judgment it means the passing of the wool buyers in the west."

HEDDEN REPORTS PROGRESS

Engineer Hedden, who has charge of the preliminary work of the surveys for the north side project, says that considerable progress has been made. The surveys in fact are nearly completed. By the gravity system the main canal will be about 45 miles long; the system will reclaim 92,000 acres of land of which 72,000 acres will be on the Boise river slope and 20,000 acres on the Payette river slope. The surveying party is now ready to start down the river from the tunnel connecting the Payette and Boise rivers. The canal will be located far enough above the ranches to do no harm. The cost of the project will reach nearly \$9,000,000.

As soon as the surveys are completed the organization of the Black Canyon Irrigation district, will be perfected. A meeting of the committee having the organization of the district in charge was held Tuesday afternoon in the office of Mr. W. R. Cupp. The purpose of the meeting was to consider the proposal of a call for more funds and hearing Engineer Hedden's report. Those present were W. B. Compton, Middleton; W. S. Hawkes, Caldwell; L. E. Bebb, R. D. No. 3; M. L. March, Caldwell; George Marple, Notus; A. W. Wright, Parma; C. D. Tillinghast, Emmett; H. A. Graef, secretary, Caldwell; and W. R. Cupp, chairman, Caldwell.

LA GRANDE WINS.

The football game Saturday afternoon between La Grande and the College of Idaho was won by the visitors by a score of 5 to 0. The college team was in poor form and the referee was biased so it is reported. The college had the better team but they did not work to the best advantage in Saturday's game.

ST. DAVID'S CHURCH (Episcopal.)

The Rev. D. N. Jones will hold services at St. David's next Sunday at 11:30 a. m., Sunday school at 10:30 a. m. Your individual presence at the church every Sunday morning will mean so much. Will you try and be present next Sunday morning? There is always a glad welcome, and a home waiting for you in the church.

The funeral of Mrs. W. H. Martin will be held from the Baptist church this afternoon. Owing to the sickness of Rev. Steelman, Dr. J. L. Powell will deliver the funeral sermon.

CITY COUNCIL DOING BUSINESS

TEN MILES OF CEMENT PAVEMENT ORDERED BUILT.

Council of Magic City is Busy Day and Night Building Sidewalks, Sewers and Paving the Streets—Full Account of Transactions of Last Meeting.
