GREENLEAF

In Memoriam, Mrs. Cora Beals, By Greenleaf W. C. T. U.

Since our Heavenly Father has seen best to call our beloved member, Mrs. Cora Beals, home to be with himself. He in his infinite wisdom has said it is enough, come up higher. We, the ladies of the W. C. T. U. feel our gratitude to Him for placing her in our midst.

Words cannot express our loss. She was, in her kind, helpful way, always planning for the good of those about her. Her plans and ideas were original and seldom surpassed.

Be it Resolved: That this society has lost a very efficient member, always true and at her post of duty.

Resolved: That we extend our heartfelt sympathy to the beloved children, who a week later were called upon to lay away their kind, loving father and that we do our part in taking up the work these faithful ones have laid down.

Resolved: That a copy of these resolutions be handed to the children, a copy sent to the county paper, one to our state paper and a copy spread on our minutes.

Out on the Pacific Coast, where war orders don't help much, the optimists are asserting that "within a period of six months business will be pretty nearly normal. It's been bad here so long that most of our people have gotten the idea that it never can be good again." Evidently some of the people out there are not satisfied to enjoy the contemplation of the war-order prosperity of the East. They don't want to wait six months longer for prosperity to return.

At Last—A One-Adjustment Cream Separator

BEFORE you buy any cream separator, come in and look at the Primrose. But one adjustment is needed to keep it in perfect operating condition. This adjustment is a simple one for keeping the bowl at the correct height—an adjustment that you or your wife can safely make.

The adjustment is made from the outside of the separator by either raising or lowering the bearing containing the hardened steel point, upon which the spindle revolves. A slight turn with a screwdriver, perhaps once a year, does the work.

The Primrose is a well-constructed, close-skimming, durable cream separator, one it will pay you well to buy. When can you arrange to see it?
