All neighbors and friends extend their sympathy to the bereaved wife, son and family. Rev. Dark had charge of the services at the home Sunday evening.

**In Memory of Grandpa Gragg.**  
Grandpa, thy work on earth is done,  
And now you are at rest—  
Up in heaven with God I know  
You will be his guest.

You will meet your loved ones there  
Who have gone on before,  
And they will gladly welcome you  
Standing at the open door.

But every day we'll miss you,  
As we go about each task;  
O' look from heaven and bless us  
Dear Grandpa is all we ask.

And when the day comes God chooses  
For us to come up there to you;  
When we kneel on the pearly gate  
Meet us O' Grandpa do,  
—Written by a friend.

**Card of Thanks.**  
We wish to thank our many friends for the kindness that was bestowed on us during the sickness and death of our beloved husband and father, and also for the floral offerings that were bestowed in our sad bereavement to cheer the lonely hearts.

## 100 Years of Saving

The first savings bank in the United States was opened in 1816.

There were then 264 banks in the United States. Today this country is served by 26,062 banks whose combined resources are nearly 28 billion dollars.

Thrift has done that much in one century but there is much greater work for thrift to do. Help yourself by becoming independent. Help the country by helping yourself.

### WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil food in Scott's Emulsion which is a medicinal food and a building-tonic, free from alcohol or any harmful drugs. Try it.

## Use the Sunlight It's Free

Sunlight is the world's champion disinfectant. It's on the job most of the time and it's just as necessary for the sleeping quarters of the hog as it is for bedrooms in the house.

Therefore, in planning your hog house, be sure to provide plenty of windows. See that every nook and corner gets its share of this reliable disinfectant. In this way you will also make sure of good ventilation.

Build a substantial hog house, for the hog needs protection more than any other animal on the farm. Make sure of good drainage and cleanliness.

We stand ready to give you any advice on the question of material. And our advice is just like the sunlight—it's free.

**LET'S STOP THAT LEAK.**

OUR Community's money belongs to us. It should be used for the improvement of our town and for the good of our country. Are we allowing it to leak away? And are we doing anything to discover the leak? Can't we put home trade to work? There is a workman who can stop the leaks. The tool he uses is mutual patronage. We farmers and merchants should get together as masters and use this powerful agent to stop the leak that is fast draining the resources of this town and this country. It takes Co-operation. That's all.
