

SUFFERING WOMEN

Mrs. EMMA MITCHELL.

Tired, Nervous, Aching, Trembling, Sleepless, Bloodless—Peruna Renovates, Regulates, Restores—Many Prominent Women Endorse Peruna.

America is the land of nervous women. The great majority of nervous women are so because they are suffering from some form of female disease.

Mrs. Emma Mitchell, 520 Louisiana street, Indianapolis, Ind., writes: "Peruna has certainly been a blessing in disguise to me, for when I first began taking it for troubles peculiar to the sex and a generally worn out system, I had little faith. "For the past five years I have rarely been without pain, but Peruna has changed all this, and in a very short time. I think I had only taken two bottles before I began to recuperate very quickly, and seven bottles made me well. I do not have headache or backache any more, and have some interest in life. I give all credit where it is due, and that is to Peruna."—Emma Mitchell.

By far the greatest number of female troubles are caused directly by catarrh. They are catarrh of the organ which is affected. These women despair of recovery. Female trouble is so common, so prevalent, that they accept it as almost inevitable. The greatest obstacle in the way of recovery is that

they do not understand that it is catarrh which is the source of their illness. In female complaint, ninety-nine cases out of one hundred are nothing but catarrh. Peruna cures catarrh wherever located.

Chronic invalids who have languished for years on sick beds with some form of female disease begin to improve at once after beginning Dr. Hartman's treatment. Among the many prominent women who recommend Peruna are: Belva Lockwood, of Washington, D. C.; Mrs. Col. Hamilton, of Columbus, Ohio; Mrs. F. E. Warren, wife of U. S. Senator Warren, of Wyoming.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Moral Reform in Spokane.

Spokane, July 16.—Boxes in both restaurants and saloons where women are permitted must take off their doors and curtains, if Mayor Boyd approves the Pratt ordinance, which was passed by the city council, after a two hours' flow of oratory.

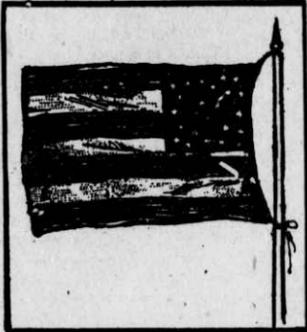

While cleaning a goose for a custom-

er in a New York poultry shop George Kennedy discovered a diamond ring in its gizzard. The bird came from Baltimore, and the ring was estimated by a jeweler to be worth \$150.

Intense Heat in Kansas. Kansas City, July 16.—The heat in Kansas is intense, 104 degrees being recorded at Hutchinson, 103 at Great Bend and 99 at Wichita.

HISTORIC FLAG PRESERVED IN THE TORONTO LIBRARY

Almost green with age, tattered and scarcely recognizable, hangs now one of the most remarkable flags in Dr. Bain's office in the public library of Toronto, Canada. It is the flag that floated over Navy Island at the time of the upper Canada rebellion of 1837, and which, perhaps, flew from the mast of the famous Caroline. It is a canvas square, with a history, one which almost caused a great war. Capt. Drew, who was in command of the improvised fleet, made up of lake schooners, which captured the Caroline, set her afire, and sent her adrift

over Niagara Falls, was compelled to return to England, and took the flag with him.

Somehow it hung for about forty years quite obscurely in the Royal United Service Institution, in Whitehall, London. When this institution's museum was rebuilt recently the flag was taken down and laid aside. Perhaps its space was given to trophies and relics of more current interest, such as the South African colors and captured Boer emblems. By the kind assistance of Gen. Robinson, late governor of the Chelsea hospital, the request of the board of management of the Toronto Public Library was acceded to in the kindest manner, and the flag was sent here.

NATURAL MONUMENT IS A THUNDER MOUNTAIN SIGHT

One of the most remarkable natural curiosities on the earth is to be seen in a rugged and almost inaccessible part of the newly opened but already famous Thunder mountain gold region in Idaho. This strange freak of nature is called "Sheep Eater's Monument," and is said to have derived its name from a tribe of Indians formerly inhabiting the district. The monument is seventy feet high and consists of a rough shaft composed of bowlders and gravel tapering slightly upward and capped by a huge, irregular rock whose weight is estimated at not less than fifty tons. The cap rests on slender projections from the shaft, which are gradually being worn away by the elements, threatening the eventual fall of the great stone. The monument stands on the slope of a ridge which rises 1,000 feet and descends 500 feet from the site. It was undoubtedly formed by erosion.

A perfect dinner partner, one whom every woman loves to find assigned to her, was entertaining his fair charge with a curious story he had been told of domestic happenings in a circle he had not yet located. The story progressed with airy and good-natured comment on the part of the reciter, and great interest on the part of the audience of one. Finally the audience took the floor. "I only want to tell you that I am the woman concerned," she said bubbling over. Even then his savior-faire did not forsake the dear diner-out. "Ah," he said, graciously, "then I hope I have the particulars correct."

Bouncing the Innocent Babe. Little Margery ran into the house, her eyes sparkling and her cheeks flushed.

"Mama," she cried, "mama, can anybody be arrested for cheating a baby?" "Why," answered her mother, "why do you want to know?" "Well," said the little girl, "I saw the lady next door fixing the baby's bottle for him and she put a lot of water in it!"—New York Press.

Curran's Cough.

During his last illness Curran was one day told by his medical attendant that he appeared to cough with more difficulty than on the previous day. "That's odd enough," replied the humorous Irishman, "because I have been practising all night."

Look at a picture in the best possible light, and be as courteous to your fellow man as you are to a picture.

Election at Walla Walla.

Walla Walla, July 14.—Gilbert Hunt, Ankeny candidate for mayor, pulled through by a bare majority of 15 votes, defeating F. S. Dement, the anti-Ankeny candidate. The marshalship resulted in the overwhelming slaughter of A. Frank Kees, the Ankeny candidate. He was beaten by Jerry Brown, anti-Ankeny candidate by 308 plurality. A recount may reduce Mayor Hunt's plurality even lower than it is. The Ankeny people elected one councilman, while the anti-Ankeny people elected two. Only three members of the council were to be elected.

Teamster Sheldon Killed.

Butte, Mont., July 16.—Because of the failure of the brakes to work a six horse freight team dashed wildly down a steep hill just out of the Yellowstone park. Phil Sheldon, the teamster in charge, was thrown out when near the foot of the hill, alighting on some rocks and being instantly killed. This was Sheldon's first trip.

Seattle Women Hurt.

Seattle, July 16.—An express car on the Interurban, running too close behind a regular train on the same road, ran into the train when it stopped at Argo, just south of Seattle. Mrs. H. W. Gowell and Miss Eriand of Seattle were hurt, the former suffering injuries to her spine. The cars were considerably damaged.
