## SCHOOLS AND COLLEGES

Remarks made by President George F. Baer of the Reading railroad at the dedication of the high school building at Reading, Pa., were to the effect that because the education of all the people must necessarily be limited, it is dangerous and creates rash and superficial thinking and unrest. He likened the man who protested against industrial conditions to Jack Cade, the leader of the peasant uprising in England during the middle ages.

A decision of the Supreme Court of Washington upholds the policy of the Seattle school authorities in denying all privileges except class attendance to pupils who are members of secret or Greek-letter fraternities. The members had been prohibited from belonging to debating clubs, athletic teams, glee clubs and the like. The court says the evidence shows that such fraternities tend to destroy good order, discipline and scholarship in the schools.

In anticipation of overcrowded schools after Jan. 1, when the new Georgia child labor law goes into effect, a number of business men in Columbus, Ga., have founded the secondary industrial school which will give a thorough training in the trades to the children of factory operatives. Especial attention will be given to the cotton industries, in the hope of supplying skilled labor, for which there is a great demand. The length of the course is four years, and it will include courses in shorthand, domestic science and the common branches.

Prof. Folwell of the political science department of the university of Minnesota thinks that there is not as much culture in the schools as there ought to be. In regard to coeducation, he says: "The irruption of women into men's colleges does not seem to have improved the manners of the men nor injured those of the women to any material degree, but a longer experience is needed to justify a final resolution of the problem of coeducation." He thinks the small college and the female seminary did more for culture than the big universities of the present.

## THE VALUE OF PERSONAL KNOWLEDGE

### The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

**A Knowledge of Forms, Knowledge of Functions and Knowledge of Products** are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of **Known Quality, Known Excellence and Known Component Parts** and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtlessly it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing, the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

## OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the BLOOD CANNOT BE CUT AWAY. The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood.

I was afflicted with a sore on my face of four years' standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. advertised and commenced its use and after taking it a while I was completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since S. S. S. cured it.

## S.S.S. PURELY VEGETABLE

Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.
