Floors Like New

Marred and worn floors are hard to clean and hard to keep clean. Half an hour's work with the paint brush changes your old shabby floors into new floors that are easy to keep clean and hard to wear out.

ACME QUALITY FLOOR PAINT (GRANITE)

is the best floor paint to use. It is made especially to be walked upon, is ready for use, easy to put on—you can do it yourself—and dries quickly. A quart will cover about 75 square feet, two coats.

Ask for a copy of our "Home Decorating" booklet. It tells you all about the use of paints, enamels, stains and finishes in the home.

GETTING ON TO THE FINE POINTS

When you get on to the "fine points" of the lumber business, then you'll begin to appreciate what it means to maintain a stock of lumber in such condition that one is justified in harping on "quality." To the outsider who knows little or nothing about lumber grades, and classification, "lumber is lumber," and that is all there is to it. But there is a difference in quality, and the quicker you learn this fact and demand the best, the sooner you'll begin to save money and acquire goodly chunks of satisfaction. The surest way to avoid inferior quality is to make your purchase from our stock. It is the best.
