

## "Juice" Will Be on About November 20th

### Electric Plant to be Erected Opposit Barnum's Theatre

On about the 20th of November electric current will be "on tap" for the service of the people of Kendrick. All necessary arrangements have been made for the erection of the plant and the actual work of building and installing will start immediately.

After a careful consideration of the requirements of the town, the owner of the proposed plant has decided that much better service can be given to the residents of Kendrick by using crude oil engines than could possibly be given by attempting to utilize the small amount of power that would be generated by the water in the Potlatch Creek at all its stages through the year. By the use of these engines any amount of power will be on tap at any time of the day and night, and the service will not be regulated by high or low water as is the case when water power has been used in similar installations. Potlatch Creek has a bad reputation too, when it comes to high water and ice; this must be taken into consideration when the construction of a dam is proposed. Crude oil engines seem to be the only solution of the problem and the only safe solution.

The building for a power plant will be erected on a lot next to that occupied by the Meyer blacksmith shop across the street from Barnum's Theatre. It will be thirty feet wide and forty-five feet long with solid concrete floors, upon which the generating machinery will sit. No expense will be spared to make the power house as attractive as possible and the people of the town will have one more public improvement to their credit.

Each engine in the plant will have a capacity of thirty horsepower and as many engines will be installed as will be required by the business of lighting the town and supplying it with power. It is also the plan of the management to extend the lines from the plant to any district where the revenue from those lines will be sufficient to make the investment profitable.

Kendrick will be one of the best lighted towns of its size in the west if the proposed plans for street lighting are carried out, and nothing can add as much to the attractiveness of a town as well lighted streets. The Electric Company has bought the line of poles on the south side of Main street and will use these poles for the street lighting circuits. The lights themselves will be suspended from cables in the center of the streets at each intersection. All other wires and the pole line for the general distributing system will occupy the alley between the railroad right-of-way and Main street. This system will do away with as many wires as is possible that would tend to disfigure the shade trees and buildings along the chief street of town.

The Light Company wishes to cooperate with the people of the town in the transaction of its business and will be grateful for any support or favors that may be extended to it.

Miss Mary Mellison spent the week end with her sister, Mrs. W. M. McCrea.

James Bratcher and wife returned the first of the week from southern Idaho where they spent the summer.

Otto Schupfer returned last Friday from Kansas where he went with Ed Fleshman in his auto. They made the trip of 2000 miles in 18 days. Otto says they had a fine trip and that everyone enjoyed it. He is not much taken up with that country, he says that Idaho looks better to him.

J. E. Johnson and family have moved from Culesac to American ridge where he will engage in farming.

Andy Hill and wife, who have been visiting relatives and friends in Kendrick and Juliaetta the past three months, have returned to their home in Canada.

## Where is The Rock Crusher?

### Why is it Not Here?

Some time last spring our citizens were up in arms about the roads in this section of the county and especially about the road running up the Potlatch to Cedar creek. Several of the business men of Kendrick and farmers from the ridges went to Moscow and went before the commissioners to see if the rock crusher could be brought down to Kendrick and put to work. The county commissioners told the delegation that if such was the wish of the people in this section, the crusher would be sent down to Kendrick to crush rock to put on the roads this summer.

Now that has been six months ago and the crusher is not any closer than it was in the beginning. What is the matter? Have the people in this section got cold feet, and want to ride over these rocky roads another year? It is good for the rubber and steel factories but not for the farmer and business men. Every section in the west is creating new road districts and raising money to build better roads.

What is the matter with the Potlatch country? We are entitled to good roads and let's have them. If the people show that they want the roads, the county will put the crusher here and the roads will be built. Farmers have been asking the Editor what has become of the crusher. We will say that the bunch has cooled down and are taking a vacation and it is time that we were waking them up.

## Miss Goude Proves Fine Entertainer.

An appreciative and delightful audience was in evidence at the entertainment given by Miss Jennie Hazel Goude in the Barnum Theater Saturday evening.

Miss Goude captivated her listeners during all of her work on the platform and many pleasing compliments were tendered her at the finish of her performance.

Miss Goude is a dramatic reader of note, as proved by her ability in rendering a series of humorous, dramatic, pathetic and descriptive selections. Each number was received with sincere applause.

## Leland Items

Leland, Idaho, Oct. 12.—Mrs. Will Hund entertained the Women's Missionary Society of Leland, Oct. 7th. A short business session was held in the forenoon after which they partook of a bountiful dinner served by the hostess. In the afternoon several members read interesting clippings about the people of Mexico, their manner of living and occupation and how much they are in need of the gospel.

A mother's Club was organized which will meet every third Thursday of the month, which we hope will be a great benefit to those who choose to attend.

There were fourteen members and two visitors present. The meeting closed with several sentence prayers after which all departed to their homes, thanking the hostess for a very enjoyable day.

The Ladies' Missionary Society of Leland, will meet on Thursday, Oct. 21 at one o'clock p. m. for the purpose of organizing a Mother's Club which will be under the auspices of the Leland Missionary Society. All the Ladies in and around Leland are cordially invited to be present. Come if you are interested in the betterment of the community whether you belong to the Missionary or not.

## Barbecue at Lapwai

Lapwai.—Extensive preparations are being made for the barbecue which will be held here Oct. 15. Roast beef, doughnuts and coffee will be served free. A large crowd is expected.

## 32 Sacks of Beans to Acre

### We're From Missouri

Troy News.—While from eight to ten sacks is considered a bumper crop for beans, the fact that Arthur Arnot of Little Bear ridge derived a yield that would average 32 sacks per acre, seems almost uncomprehensible, but nevertheless it is true and his neighbors will vouch for it. This particular patch contained but one-sixteenth of an acre, and the yield was exactly two of the regular wheat sacks which are used in the bean harvest, and which would make 32 sacks to the acre. Mr. Mudgett of Moscow threshed the beans and is ready to verify this claim. The variety is known as the bird egg bean, being speckled and shaped much like a small bird egg. It is said that there is still a little land for sale on that ridge, but if anyone wants it they will have to hurry. The beans are said to be superior to all other varieties for all round purposes and are of excellent quality.

### Another Improvement

The city is having several hitching posts erected. It is high time and another thing that would be proper is for the city to compel every property owner in the limits of Kendrick to drive all nails down in their sidewalks. Several people have been seen to stumble and fall on account of the heads of nails sticking up. Drive them down!

### Big Bear Ridge

Mr. and Mrs. R. W. Bigham of American ridge have moved on the Vollmer place which will be vacated by Walter Atchison and family.

Mr. and Mrs. Guy Meneely will leave for Palouse, Wash., in the near future where Mr. Meneely will be engaged in farming.

Mrs. M. L. McGraw is visiting her daughter, Mrs. Jake Alber.

Mr. and Mrs. Walter McCrea were business visitors here Tuesday.

Miss Christie Whybark departed for Juliaetta Thursday for a visit at the Dan Whybark home.

Miss Mayme Slind visited friends in Kendrick Friday.

A. J. Aas, T. H. Rongstad and wife and A. Hooker attended the Lutheran conference held near Deary the first of the week.

P. A. Norman has rented the Gust Applequist farm and will soon move there.

Word reached here announcing the marriage of Mrs. J. Huffman, a former resident of this place, to Mr. Rogers of Portland where they will make their future home.

Mr. and Mrs. Horace Comstock are the proud parents of a fine nine pound boy.

Preaching services at the Lutheran church Sunday, Oct. 17th at 10:30 a. m.

A Basket Social at the Taney school house Saturday, Oct. 23. Inquisitive.

### Support The "Movies"

The moving picture firm by the name of Jones & Wegner are putting on some good shows in the Thertter. They are getting on to their machine now so they are able to get better results, the pictures are better and in a short time the electric light system will be running so that they can use the juice, then the pictures will be still better. For a long time you have heard the people say, "If we could only have a moving picture show in town so we could go, it would be fine." Now we have the show and it is up to the people to support it. It takes away the cares of the day and places your mind in a good condition so you can go home and sleep as you should. Let everybody in town and country attend these shows so that the boys will be able to continue. They are doing everything they can to make it a success and give the best pictures on the road today.

## Create New Road District

### Bond Issue Comes Next

The Lewiston - Hatwai - Rimrock good roads district was created yesterday by a vote of 592 to 33, each of the districts giving overwhelming majorities in favor of the good roads program. There had been but little campaigning for the good roads district but the voters seemed to have taken a keen interest in the movement.

In the Lewiston district there were 530 votes cast and the result of this vote was 515 for the creation of the good roads district while 15 votes were cast against the plan. Hatwai cast 52 votes and the division there was 40 for the creation of the district and 12 against. Rimrock cast 43 votes out of a total of 59 votes in the district. The Rimrock vote was 37 for the creation of the district and 6 against.

The election returns will be placed in the hands of the county commissioners without delay and as soon as the canvass is made, the abstract of the vote will be forwarded to Governor Alexander and it is expected the appointment of the commissioners will soon follow. Immediate action will be asked at the hands of Governor Alexander and as soon as the appointments are made the commissioners will be urged to organize so that the matter of a bond election can be taken up.

### Texas Ridge Items

The bean harvest is now finished with an exceptional good yield.

Frank Davidson and wife of Hepner, Ore., are visiting with friends on the ridge.

Phil Peterson and wife of Deary, are visiting at C. E. Andersons this week.

Claude Browning and family have established themselves on the ridge for this winter.

Clyde Harris and wife of St. Maries, were visiting friends and relatives on the ridge Sunday.

Preparations for logging are being made in this vicinity.

Herbert Slocum and family attended the Fair in Lewiston.

M. L. Pierce made a business trip to St. Maries the first of the week.

Mrs. Malissa Tout is visiting with friends at Lapwai this week.

John Carman and wife and Lafe Randall started on an extended motor trip to south Idaho Wednesday.

### Presbyterian Church

The installation Services of Rev. Dr. Smith will take place at the Presbyterian church, Sunday Oct. 17, at 11 o'clock a. m. Rev. M. Killiar to preach the sermon. Rev. M. Morse to charge the Pastor, Rev. Dr. Lowry to Preside and charge the people. This with good music will give a good day.

The news of the death of Mrs. Chas. Le Marnell reached this city Thursday morning. The deceased was one of Kendrick's girls. The account of her life will appear next week.

Ray Christenson died at his home in Eagle, Idaho, Wednesday afternoon and will be buried this forenoon. The funeral services will be held in the Presbyterian church in Kendrick at 10:00 o'clock this Friday morning.

Mrs. W. T. Kingen departed for Spokane Monday where she will visit relatives.

Theo. Hansen departed for Montana Monday where he has accepted a position with a grain elevator company. He has been with the Rochdale company in this city for a number of years and is a valuable man in the business. His family will follow him soon.

Mrs. Welch who has been visiting her sister, Mrs. Harvey Roberts of American ridge, departed Tuesday for her home in Walla Walla.
