**LYCEUM ATTRACTIONS.**

For the Season of 1915-16  
Are Announced.

**MUSIC AND LECTURES**

Array of Talent Which is Scheduled to Appear Here at Intervals Throughout the Winter.

An annual Lyceum entertainment course is now regarded as practically indispensable in nearly 15,000 American communities, and the number is increasing with each year.

Some one has truly said that a Lyceum attraction, even though it failed to raise a higher standard in the community, at least never lowered an existing standard or in any way left a deleterious effect. This cannot be said of many other kinds of amusement and entertainment.

What the winter's entertainments and lectures are to be in each community is usually looked for at this time of the year. The course here this year will be made up of the following attractions:

**THE PANAMA SINGERS.**

The Panama Singers, a male quartet, were organized with the idea of presenting to the music loving public a program of educational as well as artistic value.

One of the strong features of their program is a musical sketch, which opens with four young fellows who have just arrived in Panama, ready to begin work on the "big ditch," as they term it. In the discussion of their homes and experiences they discover that they are all graduates of the same school of engineering.

Then they drift into talk of college days and soon fall to singing college songs and telling college stories. There is a certain naturalness about the approach and a fervor in the songs that fairly bulge with human interest.

A second scene in the sketch introduces Balboa, the explorer, French dignitaries who attempted to build the canal and finally Colonel Goethals himself, who brought the great scheme to success.

Other features are negro songs, college glee songs, humorous action songs and a ripping medley made up of the choruses of all the songs, with a finale of "Who Dug the Ditch?—Uncle Sam"

**CHANCELLOR GEORGE H. BRADFORD.**

One of the great national characters in educational and religious circles is Chancellor George H. Bradford of the Methodist University of Oklahoma. His lectures are full of thought and inspiration, and it would be useless to attempt to approximate the number of men and women who have done greater and better things after coming under his influence.

It is natural that Dr. Bradford should be particularly interested in education. The secret of his success in that line seems to be almost entirely within himself. The opportunities he had were not to be compared with those of the

great majority of young men and women today. No one paid his expenses in school nor gave him a high salaried position after graduation from college.

Today, although in the prime of life, he is considered one of the greatest educational counselors. He is a member of the national educational board of the Methodist Episcopal Church, and as a lecturer, preacher and educator he is among the very best.

**THE MAURER SISTERS ORCHESTRA.**

The Maurer Sisters Orchestra is about to enter its tenth year on the Lyceum and Chautauqua platforms. This organization had five years' experience before coming to the Redpath Bureau, beginning to play in public very young in years and making good from the very start. In fact, the Redpath Bureau has never had a company of young women of whom it has felt prouder and received better reports than the Maurer Sisters.

The first two years they were with the Bureau they were known as the Orchestral Entertainers.

For versatility on musical instruments the parallel of the Maurer Sisters is seldom found. In this respect they fill an important place in the Lyceum, for there is much demand for just such a combination. The only reason that there are comparatively

**Firestone Faith**  
The Firestone ideas of motor-ing are founded on a belief in the wisdom and common sense of the motorist—and this faith has been justified. Firestone success has proven that the car owner wants safety, comfort and Most Miles per Dollar. He wants the quality that costs less to use. The Non-Skid lettering is an imprint of safety. You need it always—but particularly at this time of year. It holds the standard for endurance and economy. The letters prevent spin or skid in any direction, they radiate the heat of road friction, insure perfect traction with gasoline economy, car-protection and maximum comfort. Everywhere experienced motorists praise Firestone performance.

few such companies is because versatility in music is so apt to be accompanied by mediocrity. Especially is there a demand for this kind of organization where large door sales are a consideration to the committee. Pictures of numerous instruments and promises of a widely varied program attract young and old from far and near.

Some of the features of the Maurer Sisters' program are cornet solos with orchestral accompaniment, flute solos with piano accompaniment, violin solos with piano accompaniment, whistling solos, cello solos, violin and flute duets, humorous readings, orchestral numbers with piano, violin, flute and cornet; ensemble vocal numbers rendered in conjunction with orchestral music.
