The lives of her citizens rendered secure from invasion from abroad and strife from within, enjoying the inexpressible benefits of peace at a time when so many are plunged into the horrors of devastating and cruel war; blessed with health and freedom from disease; rewarded with the greatest returns from labor in the field, in the factory, in business life and all other phases of human activity ever vouchsafed the citizens of any Nation by an Allwise Providence, it is meet that activities should cease and that the minds and hearts of every citizen should turn, for at least one day, in perfect unison of praise and thanksgiving to the God from whom all blessings come, and whose protecting care and wisdom have enabled the people of this Nation to enjoy so great advantage and blessings.

Mr. Carlson has been conducting an implement business in this city the past six months and now is adding an up-to-the-minute stock of hardware. He has not decided just what building he will occupy. We wish him good luck in his new undertaking and believe that he will give the people of the Potlatch country a good stock of goods to purchase their wants from.

Funds For Roads

Nezperce County Granted \$20,000.

Boise, Nov. 13.—The state highway commission today pledged itself to aid Nez Perce county to the extent of \$20,000 for work on what is known as the Uniontown highway. This amount, however, cannot come from funds on hand for the reason that present contracts will practically consume the appropriation made to cover them. The pledge is conditional, and provides that if the Nez Perce county commissioners succeed in raising \$60,000 for the work, the state will pledge itself for one-third of the amount.

A resolution was introduced by Secretary of State Barker, and afterwards adopted, to the effect that convicts now engaged on the Shoshone grade be put to work on the new highway near Riggins, Idaho county, after January 1. The Grangeville Commercial Club wrote to the commission that climate conditions were such in the vicinity near Riggins that the men could work all winter. They are now at work in Twin Falls county, across the river from Twin Falls, and after work is completed they will be sent to Riggins.

It is understood by the Grangeville Commercial Club that the state will pay half the expenses of the work in Idaho county and that the county will stand the other half.

O U Meekeyed Cayous

Nezperce Herald—That Editor Wimer of the Cottonwood Chronicle is the proud possessor of a Buick Six; Editor Johnson of the Kendrick Gazette chases his subscribers in a Chalmers, and Editor Thompson of the Asotin Sentinel does his gading in a Ford. We are glad to see the boys of the craft enjoying life as their diligence certainly justifies. But for ours—give us the hurricane deck of a meek-eyed cayuse at the head of a pack train, bound for the busted up scenery where the black tails sport amongst the tall pines and elude the weary hunter.

Mrs. Leo Lentsch and children, of Juliaetta, was in this city Saturday, on business.

Dr. Hoyt and wife departed Monday for Portland and San Francisco. They will visit the Fair.

The Personal Property Roll

Collection Are Fine in The county of Nezperce.

Lewiston, Nov. 17.—The personal property rolls of Nez Peace county will be closed on Monday next, November 22, this being the fourth Monday of the month. At that time it is expected the assessor and personal property tax collector will make his last entry in the personal property rolls and turn same over to the board of county commissioners for equalization and a final accounting. The commissioners will not meet for two weeks afterwards, on the first Monday in December. It is probable the fact that the law-makers in deciding that the assessor should close the personal rolls on the fourth Monday of the month, and the commissioners should take up their work on the first Monday of December had in mind that but a week would elapse between dates. This year, however, November came in Monday and there are five of them in the month.

The assessor reports that the collection of personal property taxes is progressing well and that there are fair indications that the delinquencies will be decidedly small. He is making a very earnest effort to get the taxes all in before the books are closed. Reports from the other counties in the Lewiston country are of the same tenor. In each of the counties the statement is made that the unpaid personal property tax will be very small in amount this year. In some of the counties, notably Latah, a very strong effort has been made to collect long overdue personal property taxes. This attempt has been crowned with considerable success.

It has been decided that the county assessors of northern Idaho, including all the counties in the northern part of the state extending from Idaho county north to the British line, will assemble in convention in Lewiston on the morning of November 29, and will probably remain in session several days. This will be the annual meeting of assessors of this section of the state. Its purpose is for the discussion and determining as to values to be placed on personal property of different kinds in the assessment next year. It is expected that this meeting will last several days.

The meeting at this time and place will give the visiting officials an opportunity to visit the Northwest Livestock Association show, a subject in which all of these officials are interested both from a personal and professional standpoint. The meeting of assessors usually held in Boise early in the year was not held in 1915, Governor Alexander having declined to call them to gather on the plea of economy. There have been hopes entertained that the governor this year would do so, having had opportunity to determine just how valuable in the administration of the laws these meetings are. Whether a meeting of all the assessors of the state will be held in Boise this year has not been fully determined. From letters interchanged between these officers thruout the state it is evident that such a meeting is demanded. Unfortunately the various boards of county commissioners are somewhat chary of making provisions for the payment of expenses of those attending such meetings. Of course, if the meeting is called by the governor the feeling of indecision and uncertainty is not so evident.

Some Roads

The Lewiston Orchards highway district will soon commence the construction of macadam roads to extend from the present paved highway and the plans provide for continuing this construction until the entire district is served with the permanent highways. In furtherance of this plan the modern road building machinery was ordered and delivery was made this week. The machinery secured consists of a grader, crusher and steam roller, the latter being of a type suitable for operating the crusher, hauling the grader and rock wagons and then rolling the crushed rock into place.—Lewiston Tribune.

Misses Anna Nelson and Rebecca Fowler were Moscow visitors Monday.
