

"More than Rated Power and
A Wonder at the Price."
Fairbanks - Morse

The Carlson Hardware Co. March 27th, 1918
Kendrick, Idaho.
Gentlemen:- We have yours of the 23rd instant. While we have heard numerous assertions made by our competitors as to what they think regarding our Type "Z" engine, we can only state that we have discontinued the manufacturing of all other types of engines in the smaller sizes and are now making nothing but "Z" engines in sizes from 1 1/2 H. P. to 15 H. P. In other words our Type "Z" engine is now the Fairbanks-Morse standard engine and carries with it the same guarantee that has always been placed on Fairbanks-Morse products. As we have before stated we absolutely warrant these engines to develop more than rated horse power and to give the customer the maximum in service and lasting qualities. Any engine failing to come up to this broad warranty, we will gladly take off your hands or off the hands of your customer. We do not know how we could make a stronger warranty. Yours truly
