

OVERLAND

MODEL 83

\$795.00

F.O.B. Kendrick

AT HOME IN ANY COMPANY

The \$795. Overland is a beautiful car. It asks no odds of any car at any price, either in power or appearance — it is at home in any company.

The remarkable power of its 35 horsepower en bloc motor is apparent, at a touch of the throttle a smooth, quiet flow of power that responds instantly.

It has convenience of electric control — the control buttons are on steering column. This arrangement is found only on the Overland and very few much higher priced cars.

Deep, inviting divan upholstery, long underslung rear springs, and four-inch tires provide real riding comfort.

And furthermore it is finely finished in a rich, deep Brewster green, striped with pure ivory white, and set off in pleasing contrast by black enameled radiator and fenders.

You cannot get all the advantages of the \$795. Overland in any other car selling at anywhere near this price.

You get the benefit of the Overland factory's economies in building hundreds of cars a day — their enormous output makes it possible to give you more value for your money.

Now is the time to order your car, for either immediate or later delivery. See us at once.

Scout Notes

Scoutmaster McCrea with a few Boy Scouts took a trip to Atwater Lake last Saturday afternoon. They reported a good time. Mr. McCrea went for the purpose of selecting a site for the cabin that is to be built in the near future.

Roy Florance and Walter McCrea, Jr., spent the night at Atwater, in a boat. They said they had some journey.

The Scouts will hold a meeting in the club room Saturday night.

The Scout Ball Team will start practice next week. We have the material for a good team.
Dan Guy, Secretary.

Chicken Ranch Started

Smith & Watson have started a chicken ranch one and a fourth miles east of Southwick, on Cedar Creek ridge. They shipped in some fine White Leghorn and White Orpington chickens from Clarinda, Iowa. They also expect to raise India Runner and Pekin ducks.

They intend to raise poultry on a large scale. Three incubators are now running and the three combined have a capacity of 750 eggs.

Splendid for Rheumatism

"I think Chamberlain's Liniment is just splendid for rheumatism," writes Mrs. Dunburgh, Eldridge, N. Y. "It has been used by myself and other members of my family time and time again during the past six years and has always given the best satisfaction." The quick relief from pain which Chamberlain's Liniment affords is alone worth many times the cost. For sale by all dealers.—Adv

Constable Sale

I will sell the following described animal at public auction on the 24th of May at the Ira Gentry place, 2 miles east of Kendrick, providing owner does not appear, prove ownership and pay costs of advertising, feed etc: one bay horse, star in forehead, white hind feet, weight about 800 pounds, branded ST on right hip.

J. L. Fowler, Constable. 16-4t

Base Ball Meeting

The base ball boys held a meeting at the ball park Sunday afternoon for the purpose of organizing a ball club. Frank Candee was elected president and Geo. P. Barnum manager. Games will be scheduled soon and the team is practicing in order to get in condition for some fast exhibitions.

A number of new players have been lined up for a tryout and these with last years stars ought to make a formidable team.

The measurements for the band uniforms were completed Tuesday and the order for the suits was sent through the Kendrick Store Co. The first appearance of the new uniforms will be about the second Sunday in May when the band will give their first open air concert.

School Notes

Donald McCrea was absent from school Tuesday.

The Ancient History class is studying the life of "Julius Caesar" and "The Funeral Oration of Mark Antony."

Agnes Grice was absent from school Monday.

The English classes are now reporting upon the second set of books which they have read this semester.

Kendrick has at last decided to fix up the road which was washed out by the Brady gulch creek. They seem to think the rocks are hard on auto tires but they didn't think it hurt horses feet.

Several of the high school students of Kendrick walked out to Atwater Lake Sunday.

The Botany class has been gathering parasitic plants for its laboratory work.

On account of the good weather last week seven high school students played "hokey," and are now awaiting their punishment.

Don't forget the high school literary program Friday, April 21, at one-thirty in the school auditorium.

The High School boys have started in earnest to put out several good sprinters.

Coach McConaughy is taking great interest in the boys and is doing his best to help them.

The final meet will be held at the University of Idaho some time in May.

The boys are as follows:—Ralph Fenton, Harry Davis, Henry Meyer, Wallace McKeever, Donald McCrea and several others.

They are trying out for 100 yard dash, quarter, half and one mile run, also the pole vault, high and broad jump.

BEAUTIFUL SCENERY

When people are talking of traveling in national parks and other places, we should think they would be interested in seeing the country around Kendrick. For instance Atwater lake. At Atwater lake a person can stand at a point on the shore and throw a rock away from the lake and have it light a hundred feet or more below the level of the lake. This seems impossible but nevertheless it can be proved. Then too, one can walk over the hill about a quarter of a mile to the big cliffs. The highest of these is about one hundred feet in height. At the very top there is a ledge of rock sticking straight up out of the earth. This rock seems to be balanced and when a person is on the top there is a grand view of the surrounding country.

One can see four different mountain ranges in a straight line. Then when you look down you see the Big Bear falls and rapids dashing over the rocks. You can not look down for over a minute on account of the dizzy height at which you are situated. When a rock is rolled from this cliff it will jump out into the air and light with a resounding crash on the hard bedrock hundreds of feet below.

The high school boys are practicing for a track meet.

Some of the Boy Scouts went to Atwater lake last Saturday night, to look for a suitable place to build a cabin.

The school children have started to celebrate the Fourth of July rather early, by shooting fire crackers.

MIXED OCTET

The girls and boys quartets of the high school are uniting to form a mixed octet.

The octet plans to meet weekly, beginning with Tuesday evening April 18, at the home of the Director, Walter Thomas.

Mr. Thomas is very much interested in singing and we are fully assured that he will do all in his power to make this organization a success. The individual quartets as well as the octet will be brought up to their highest possible standard of singing.

One pleasant evening a small girl and a high school student went walking on a dusty skid-road.

The child took a large rag doll along with her. She became so interested in what the student was saying that she had forgotten about having it along until it dropped into the dusty road. The student picked it up and said, "Oh poor dolly, shall we brush her dress off?"

Child—"No, she wants her dress on."

Sophomore Class.

For Sale—1915 Maxwell. Run about 3,000 miles, as good as new. Price \$525.00. Inquire at Gazette office. 15-tf

Red Cross-o-grams

A real friend is like the inside pocket of a mans vest, you may not need it often, but you always know its there.

A Good Tooth Brush and Dentifrice

To have all of life worth living we must make life worth living. And to experience the real joy of living in its happiest fullest sense, we must be physically sound. It is certainly more than a privilege to be well—healthy—it is a plain duty owing to the individual and to society. There are, for instance thousands, nay millions, who forget that the mouth, which should be the cleanest part of the body, becomes the filthiest when neglected. From the cradle to the grave, no month is free from bacterial contamination. Unsightly teeth and a foul breath create anything but a favorable impression in business and social relations, and, in fact, count against success in any walk of life. Take good care of your teeth and chew your food thoroughly for your stomach has no teeth. We can supply you with a good tooth brush, paste and powder and at a right price. Join the tooth brush brigade.
