Why Pay More Money

for products manufactured at some distant city when you can buy home products as good or better for less. Our own brand of bacon and hams is giving perfect satisfaction. The only difficulty is that we can not supply the demand for our hams. A number of people have told us that our bacon is as good as they ever used.

Buy at Home

and save the farmer that much freight on his hogs and save the freight on the finished product for yourself. The two amounts to a very respectable sum in a year. Let us keep as much of that dollar at home as possible.
