Do You Believe In PREPAREDNESS

Yes to a certain extent we all do, whether we take a decided stand as to National Preparedness or not, we all believe in being prepared for the "Rainy Day" that is scheduled to pay an engagement in most of our lives. Just at this time when almost the entire world is engaged in the most devastating war in the history of the universe when no man knows how long strife will continue or to what extent the price of necessities will be forced to be unquestionably the time to prepare yourself against the extreme high prices the future will surely bring. For instance sugar is now \$9.00 per hundred when a few short months ago it was only \$5.75 (and the funny thing about it we made just as much profit on it at \$5.75 as we do now at \$9.00).

Another thing that shows what war will do to prices is the fact that during the civil war the price of Calico ranged from 35c to 65c per yard.

We have not advanced the price of one single article in our store unless the wholesale price that we had to pay forced us to do so, and as we were bought ahead on many commodities carried in our store the prices on the largest part of our stock remain the same as they were before war prices began to assert themselves.

we have a complete line of the very newest models in House Dresses at lower prices than ever considering the workmanship and material used
\$1.00, \$1.25, \$1.50, \$1.75 and \$2.00

Another line of Men's Strong, Serviceable Work Shirts, a better shirt for the same old price 50c

Men's Kahki Pants, as good a pant as was ever sold before at \$1.50 our "war price" \$1.40

Men's Engineer and Firemans Hose in black and tan better than ever at the old established price, 2 pair for 25c.

Men's "Mule Skin" Shoes, a good light work shoe that will wear you well and not weigh you down, **\$2.00** a pair.

Ladies "Auto" Veils, all beautiful colors, \$1.25 Ladies "Auto" Caps, in Green, Tan, Blue, Gray, 65c to \$1.50

Silk Petticoats

All new models in Blue, Green, Grey, Purple and Lavender

Henderson Corsets
