

## BOISE HOLDS PATRIOTIC RALLY

### To Create Sentiment in Favor of Enlistments

(Special Correspondent)—A few days ago the city of Boise held a rally with the ostensible purpose of creating a public sentiment in favor of enlistments in the National Guard for defense of our Mexican border. The parade of three thousand strong was very imposing. The fife and drum led the procession and gave to it a distinct military bearing. After passing through the main thoroughfares it wound up at the Piny Theater which was soon packed to capacity.

The flags in the theater could not be counted, so numerous were they. The waving of old glory was a favorite pastime while waiting for the speakers who soon filed upon the stage headed by the Governor and the Supreme court. The speakers as a body were accorded a genuine ovation. But the fireworks began immediately after the Governor was introduced as the first speaker.

The governor seems to stand very close to the people. That conclusion was reached solely through the demonstrations of his audience. What he says nobody can determine, and the manner of saying it is by no means above criticism. If he did not have a rather familiar acquaintance with the words, "country," "home," "fireside" and "flag" he would surely come to grief in attempting a sustained effort in oratory. His limited vocabulary would be exhausted in short order. It may be truly said of many or most of his sentences: they are ungrammatical, lacking in rhetorical finish and positively illogical. When we hear the Governor the dictionary becomes an obsolete book. But withal the above imperfections he gets close to his audiences which never tire of cheers and applause.

Some fairly good speeches made this indeed a notable gathering. Justice Morgan also spoke. He was too old to go to war but declared himself to be both ready and willing to lay his two prospective sons-in-law on the altar of his country. Lieutenant Governor Taylor and Captain Davis both candidates for the governorship of Idaho, delivered addresses. The former made a fine impression and gained many friends.

Subscription papers were passed and more than one thousand dollars were raised for the benefit of the soldiers who were leaving dependents behind. Here the Governor came to the front again in heading the list with \$100.00. As usual he carried off the lions share of the applause. How he does it—well that is what we are trying to find out.

The whole affair was very creditable to the capital city. The city still retains its gala attire from Flag Day and is not likely to get back to every day routine as long as the remain here, or until after the 1st, 2nd, 3rd 4th of July—all of which days will be duly celebrated here.

### Surprise Party

A surprise party was given Tuesday night in honor of Miss Myrtle Smith, who will leave for Kellogg the latter part of this week. Quite a crowd of young people gathered at the Smith home and spent a very enjoyable evening playing games. Refreshments consisting of sherbet and cake were served.

### Olson—Candee

Miss Mable Olson of Wallace and Frank Candee were married Wednesday, June 28. The wedding took place at the home of the bride's parents in Wallace. Mr. and Mrs. Candee are expected to arrive in Kendrick Sunday where they will make their home in the J. B. Helpman house.

## KENDRICK WINS BASEBALL GAME

### Second Game Taken From Juliaetta This Season

In the ball game between Kendrick and Juliaetta played on the Juliaetta diamond last Friday, Kendrick knocked two pitchers out of the box and won the game by a score of 11 to 8. There were frequent errors on both sides but heavy hitting by both teams made the game interesting.

Kendrick's outfield composed of Bechtol, Compton and McCrea did splendid work, taking everything that came within reach. The carnival company had their grounds staked out in the right field almost completely cutting that part of the grounds out and spoiling the game to a certain extent.

The two White brothers, Indians, from Lapwai, played, Charlie catching for Juliaetta and Jimmie doing the box work for Kendrick. It is hard to tell which one of these two players can play the better game but it is a sure thing that they both are well up in the fine points of base ball.

The game Friday was the second one of the season in which the local team carried off the honors. Now that the "jinx" is broken possibly the rest of the season Kendrick could turn out a winning team.

### July 15 Farmers Day

Idaho farmers should make a ring around July 15 on their calendars so that they will remember on that date to crank up their cars and come to Moscow, where the faculty of the agricultural department of the University of Idaho will be hosts to them and their families. They will be shown over the University farms, and will be given a chance to ask questions on any particular phase of agriculture in which they may have special interest.

A feature of the noon basket luncheon will be a large barbecue. Noted agriculturists will speak in the afternoon. Technical subjects will be treated in a clear manner, and the ranchers will have a chance to improve their knowledge of farm requirements.—Star-Mirror.

### Erect Sign Boards

The Nez Perce county board of commissioners are going to put up sign boards on the county roads for the convenience of travelers. A survey of the road system of the county has been made for the purpose of determining the points where signs are needed. They will be placed at all of the principal road crossings, the signs giving distances to principal point and directions. These signs are made of metal and are to be placed on substantial posts.

Strawberries are just coming on the market from the Texas ridge country. Kendrick has a long strawberry season as the berries from the Lewiston country are shipped in early in May and from the country around Deary as late as the second week in July. The berries are not up to the usual standard of quality this season owing to the cold weather in the late spring.

## Initiative

The world bestows its big prizes, both in money and honors, for but one thing. And that is Initiative. What is Initiative? I'll tell you. It is doing the right thing without being told. But next to doing the right thing without being told is to do it when you are told once. That is to say carry the message to Garcia. Those who can carry a message get high honors, but their pay is not always in proportion. Next there are those who never do a thing until they are told twice; such get no honors and small pay. Next, there are those who do the right thing only when Necessity kicks them from behind, and these get indifference instead of honors and a pittance for pay. This kind spends most of its time polishing a bench with a hard luck story. Then, still lower down in the scale than this, we have the fellow who will not do the right thing even when someone goes along to show him how and stays to see that he does it; he is always out of a job, and receives the contempt that he deserves, unless he has a rich Pa, in which case Destiny patiently awaits around the corner with a stuffed club. To which class do you belong?

—ELBERT HUBBARD.

### Millionaire Dog Catcher

As a rule wealthy people with an ambition for public usefulness seek high and dignified offices, but not so in the case of Miss Lenore Cawker of Milwaukee. Although possessed of more than a million dollars, Miss Cawker serves her city in the humble position of dog catcher. She took the job because she wanted to do something for the city's homeless dogs; the salary was of little importance, although she did ask the city council recently to raise her pay from \$500 a year to \$1200. The council did not hesitate to grant her request. She had been paying the entire cost of the department including the operation of an automobile and used her own stables as a dog pound, for the \$500.

Miss Cawker told the council that the \$1200 represented half of her official expenses and that she was not charging anything for her work. She explained that her reason for asking for an increase in pay was that the city ought to show that it appreciated her work.

### Enlistment Term

Though the term for which men are enlisted is three years in the service and three years in the reserve, the obligations will not be materially different from what they have been heretofore in the national guard, except during actual service in the Mexican crisis.

The pay will be fifteen dollars a month while in active service. The men will be provided with clothing, food, shelter and arms and transportation will be furnished free. At the present only single men between the ages of 18 and 32 are being taken, and it does not seem likely that others will be called out to fill the vacancies in the troops ordered to the front.

### No Prisoners

There is not a prisoner in the Nez Perce county jail, nor has there been since the seventeenth of this month. For two weeks previous to that date there was only one. Of course times are pretty dull for the jailer and we are afraid that the sheriff will have to dismiss one of his deputies, but most of us were prepared for just such a condition, in fact, we expected something of the kind when the county went dry. Booze and crime go together. They are inseparable twins,—so closely related that when the one is killed or crippled the other becomes weak and shrivels up.—Correspondent.

### Kendrick Recruits

Tom Sampson and Harry Fowler went to Lewiston last week to enlist in the national guard. Sampson passed the physical examination but not being of age his parents refused to give their consent and he returned to Kendrick Monday. Fowler passed his examination and left for Boise the first of the week.

## IDAHO IS STILL ENLISTING RECRUITS

### Recruiting Office Opened at Nez Perce

Star Mirror, June 28.—Though the Second Idaho regiment is prepared to leave for the border on a moment's notice, the work of recruiting will be continued indefinitely. It was expected that 1000 men would be available at Boise barracks today but it is understood the regiment falls short of this number.

Lieutenant Colonel D. W. Greenburg arrived in Moscow today from Camas prairie and will remain in this section for a period in aiding local recruiting officers. At Nez Perce today he enlisted a recruiting office with J. B. Coldwell and W. P. Conger as recruiting officers and Dr. J. Dee Kelly of medical examiner.

Colonel Greenburg states that some 40 young men were desirous of organizing a company at Nez Perce, but this will not be permitted as no new companies will be organized in Idaho at present. Mr. Greenburg states that recruiting is progressing but the numbers are disappointing. It is the desire to secure 40 or 50 recruits from Latah county. Young men desiring to enlist should apply to either Major L. F. Parsons or Major Roy O. Johnson at recruiting headquarters. Some half dozen applicants have appeared and are awaiting medical examination.

### Moscow Will Hold Fair

Moscow, Idaho, June 27.—E. E. Ostroot has been elected secretary of the Latah County Fair association and is at work for the fall fair. C. A. Hagan, M. E. Lewis, T. A. Meeker, H. N. Wilson and W. E. Wallace constitute the executive committee. The directors have decided to hold a week's fair in the last half of September, and will devote more attention to amusements than ever before. All the old debts of the association have been wiped out by popular subscription.

### Camp Fire Girls

Thursday, June 22nd the Camp Fire Girls met at the church as usual. The meeting was called to order by the guardian, Mrs. Patton. Each girl received the goods for her ceremonial gown and most of the girls also received beads for their headbands and decorations for their dresses. At this meeting the girls decided definitely that they would give an ice cream social in the afternoon and evening of July first.

The meeting for next Thursday is to be in the afternoon, in the form of a sewing bee, when the girls will make their ceremonial gowns. After other business matters were transacted the meeting was adjourned.

### A Camp Fire Girl.

A baseball game is scheduled to be played between Bear ridge and Kendrick according to information received from manager Barnum. Bear ridge took one game from Kendrick this season and they might do it again.

## CHEESE PLANT NEAR LAPWAI

### The Cost is Estimated to be About \$5,000

The Webb Cooperative Dairy Products company will erect a plant on Sweetwater and engage in the manufacture of cheese and butter. This announcement was made yesterday by Louis Humboldt, president of the company, who was a visitor in the city.

The company will hold a stockholders meeting Saturday, at which time new stock subscriptions will be received. It is planned to invest approximately \$5,000 in the plant and the manufacture of cheese will be commenced early this fall.

"We now have fifteen of the most prominent farmers of the Webb section interested in the project and by fall will be securing the milk from 200 cows," said Mr. Humboldt. "The installation of a cooperative creamery company has been under consideration for the past three years but we now have the proposition in good shape and will have no trouble in handling the finances of the concern."

"It is proposed to extend the operations of the plant to practically every section of the Lapwai valley and milk routes will be established as rapidly as practicable. There will be many silos erected in the Lapwai valley early next spring, a conservative estimate being that fifty silos will be in readiness to receive silage as soon as the alfalfa and corn crops are ready next year.—Tribune.

### Study Agriculture

About 65 of the rural teachers in attendance at the Joint Summer School, are pursuing courses in Rural School Agriculture and are showing much enthusiasm for the work. A credit in Agriculture is required for certification to teach in the state. A good many communities are beginning to demand that the subject be taught in their schools and to provide the necessary equipment for it. This indicates that we are beginning to recognize the importance and soundness of the pedagogical idea of using the common interests and activities of the child's every day life as a means of educating him. It means also that country people are beginning to demand that the schools shall educate their children for the country and not for the city.

### Going on Cash Basis

The high price of paper and other printing material has forced a number of eastern papers to go on a cash in advance basis. They require all subscribers to pay in advance. That's proper. Those subscribing to magazines or big city dailies, which are owned by rich concerns, must pay in advance. The country editors have a right to expect as good treatment. When papers are paid for in advance you have no long standing subscription bills to bob up and annoy you, as your paper is stopped when subscription expires unless you renew. The cash in advance plan of paying subscriptions is the best and fairest way. It is the only business like way of running the circulation department of a newspaper and it is to be hoped that all the papers will follow the plan in the near future.

Carl Brown, who has been employed in the mines at Mullen, is visiting at the home of his parents, Mr. and Mrs. J. F. Brown.
