Liver Trouble
"I am bothered with liver trouble about twice a year," writes Joe Dingman, Webster City, Iowa. "I have pains in my side and back and an awful soreness in my stomach. I heard of Chmberlain's Tablets and tried them. By the time I had used half a bottle of them I was feeling fine and had no signs of pains." Obtainable everywhere.

Notice For Publication
DEPARTMENT OF THE INTERIOR
U. S. Land Office at Lewiston, Idaho. June 26th, 1916.
Notice is hereby given that Wickliffe R. Smith, whose post-office address is Southwick, Idaho, did, on the 9th day of October, 1915, file in this office Sworn Statement and Application, No. 06321, to purchase the SW 1/4 NE 1/4, Section 12, Township 38N., Range 1 W., Boise Meridian, and the timber thereon, under the provisions of the act of June 3, 1878, and acts amendatory, known as the "Timber and Stone Law," at such value as might be fixed by appraisal, and that, pursuant to such application, the land and timber thereon have been appraised, the timber estimated 80,000 board feet at \$1.00 per M, and the land \$40; that said applicant will offer final proof in support of his application and sworn statement on the 7th day of September, 1916, before Register and Receiver, U. S. Land Office, at Lewiston, Idaho.
Any person is at liberty to protest this purchase before entry, or initiate a contest at any time before patent issues, by filing a corroborated affidavit in this office, alleging facts which would defeat the entry. 27-9t.
Henry Heitfeld, Register.

Making the Little Farm Pay

By C. C. BOWSFIELD

Potatoes continue to be one of the best of the money crops. This product is suited to farms of all sizes and is almost unsurpassed for profitableness among ordinary field crops.
For some years there have been predictions that potatoes would not long remain a paying market crop, owing to probable overproduction. Nevertheless prices have averaged high, and production goes on. Michigan, Wisconsin, Pennsylvania, Maine and New York have potato crops upward of \$10,000,000. The latter, in fact, has reached \$23,000,000. Several other states are above \$5,000,000.
In thousands of cases the potato crop has paid farmers at the rate of \$100 an acre or more. This can be expected under favorable conditions, but not otherwise. An average of \$50 an acre would be fair, and while the aim should be for the \$100 mark, a return of \$50 is better than any grain crop will do.

POTATOES ARE A GOOD MONEY CROP.

Soil that is sweet, well drained, full of organic matter and free from parasitic life will give bumper yields of potatoes under systematic cultivation. When a farmer has such land he should do his best to bring on paying crops. Soggy or impoverished land is not to be used for potatoes.

One great advantage in raising potatoes is that they have high feeding value for live stock and poultry, so that the crop is not a loss no matter how low the market is. When a farmer has a heavy supply of potatoes he is able to sell off his grain more closely than he otherwise could. Potatoes boiled and mixed with mill stuff are an excellent ration for cattle, hogs and fowls. Culled potatoes should generally be used in this way. Both early and late varieties have special merits and work nicely in double crop schemes. A grower instead of experimenting with every variety that he hears of should get one or two kinds that are known to be good and stick to them.

The necessity for disinfecting seed potatoes is evident. All seed from unknown sources should be disinfected, as well as all concerning which there is the slightest doubt. One method of disinfecting is to soak the potatoes in a formaldehyde solution, a pint to thirty gallons of water. This is the best method for ordinary potato pests. If there is a large quantity to be disinfected a good way is to place them in an air tight room, laying the potatoes on trays or boards so that the air can get between them. Then for each 1,000 cubic feet of space use twenty-three ounces of potassium permanganate and three pints of formalin. Place the permanganate in a thin layer in the bottom of a pail three feet or more from the potatoes. Pour the formalin into the pail and let stand for twenty-four hours or longer.

If disease or insects are known to be in the soil it is best to spray regularly. Bordeaux is the most effectual remedy for parasitic diseases. Of chief importance is early spraying. The mixture for both insects and fungi is made as follows: Copper sulphate, five pounds; fresh lime, five pounds; water, fifty gallons, paris green, one pound, or lead arsenate, three pounds. Those who have a large acreage can afford to keep a stock of this material on hand, using separate vessels for the lime and the copper sulphate.

Rotation of crops must be practiced in order to keep the soil clean. If fresh manure is to be used it should be applied the fall before, but well rotted manure may be applied in the spring. Lime should not be applied directly before planting. Experiments indicate that sulphate of potash produces a better quality than the muriate. Potatoes, which have a greater value per acre than other crops, will respond profitably to heavier applications of fertilizers. A fertilizer known as the 4-8-10 mixture is recommended as a good formula for potatoes. These prepared fertilizers will pay when used at the rate of 1,500 pounds per acre, one-half at the time of planting in rows and the remainder over the rows about the time the plants are coming up.

No farmer should depend on potatoes as an exclusive crop, but success will come by making them part of the mixed farming plan. The soil must be right and the seed reliable to get good results. With a little care on these points potatoes are likely to exceed the expectations of those who cultivate them.

Parties holding coupons for free can of Calumet Baking powder please present the same at the Kendrick Store Co. 33-1t

Notice of Foreclosure Sale

Order of Sale and Decree of Foreclosure and Sale.
Eugene Holbrook and Mary W. Holbrook, nee Mary Lusk, Plaintiffs.
vs
Roger Olsen, Harvey D. Wester, John Doe, Richard Roe and Anna Jones, Defendants.

Under and by virtue of an order of sale and decree of foreclosure and sale issued out of the District Court of the Second Judicial District in and for the County of Latah and State of Idaho, on the 14th day of August, A. D. 1916 in the above entitled action wherein Eugene Holbrook and Mary W. Holbrook, nee Mary Lusk, the above named Plaintiffs obtained a judgement and decree of foreclosure and sale against Roger Olsen, Harvey D. Wester, John Doe, Richard Roe and Anna Jones, et al. Defendants on the 9th day of August, A. D. 1916, for the sum of One Thousand Five Hundred Fifty-two Dollars, (\$1552.00) in United States gold coin, besides interest and costs, which said decree was on the 9th day of August, A. D. 1916, recorded in judgement book 7 of said court, at page 121, I am commanded to sell all the certain lots, pieces or parcels of land situated, lying and being in Gold Hill Precinct, County of Latah, state of Idaho, and bounded and described as follows: Lots Three (3) and Four (4), Section 27, and the E 1/2 SE 1/4 of Section 28, Township 39, North Range 1, W. B. M.

Public notice is hereby given that on Saturday the 9th day of September, A. D. 1916, at 11 o'clock A. M. of that day, in front of the Court House door of the County of Latah, I will, in obedience to an order of sale and decree of foreclosure and sale, sell the above described property or so much thereof as may be necessary to satisfy said judgement, with interest and costs, etc., to the highest and best bidder, for gold coin of the United States.
Dated this 15th day of August, 1916.

J. J. Campbell, Sheriff.
By F. A. Robinson, Deputy. 33-4t.

ORDINANCE No. 137

Entitled an Ordinance to levy taxes for the general revenue purposes for the Village of Kendrick, Latah County, Idaho, for the fiscal year commencing the first Tuesday in May 1916 A. D. and ending the first Monday in May 1917 A. D.

Be it ordained by the Chairman and Board of Trustees of the Village of Kendrick, Latah County, Idaho; Section 1. There is hereby levied upon all taxable property within the corporate limits of the Village of Kendrick, Latah County, Idaho, taxable according to the laws of the State of Idaho a tax of 11 mills on the dollar for general revenue purposes for the fiscal year ending the first Monday in May 1917 A. D. Section 2. This ordinance shall take effect and be in force from and after its passage, approval and publication.

Wm. Freytag Chairman of Board.
Attest; W. Wenzlaff Village Clerk.
First Reading Aug. 8, 1916.
Second reading Aug. 8, 1916.
Third reading and passed Aug. 8, 1916.
Published 1916.

COLUMBIA STEEL TANK COMPANY

Bulk Your Grain

It has long been the general idea in this locality and all over the Palouse country that grain must be sacked for exporting from the Pacific coast. Authentic reports show that less than 25 per cent of the grain from the northwest is exported annually, and the Panama canal has removed the necessity of sacking the greater part of the small percentage of the crop that is exported. All that has been necessary was for some one to take the lead and provide facilities for handling the bulk grain at this end of the line. The KENDRICK ROCHDALE COMPANY have done this and in doing so have made themselves deserving of your support.

Whether the system of handling bulk grain is successful or not depends largely on the individual farmer. He should provide bins, granaries or farm elevators, where grain may be held until sold, or until after the harvest rush is over, when it may be hauled to town at leisure. You will have to spend a little money to prepare for handling the bulk grain but the money saved the first year should more than pay for the preparation. There is no question but that all the grain in this part of the country will eventually be handled in bulk — it is the cheaper way — the commonsense way and the way you will finally have to handle yours.

We will still handle your grain in the old sack way but we would rather have you bring it to us in bulk because we believe it to be to YOUR OWN INTEREST to do so. Don't wait to long to decide what you are going to do but get in line and boost one of the most practical enterprises that has ever been promoted in the Potlatch.
