Cooper Bros. Shows Coming

two performances
 Kendrick Thursday September 14
 No one can fail to notice the atmosphere of refinement about this particular show. The performance goes along with perfect system and the myriad and bewildering bill is finished before the slightest tinge of unrest is felt. Acts follow each other without delay. The program is made up of big feature acts. The Hatsu troupe of Japanese acrobats and jugglers, Prof. Van Rankin and his wonderful troupe of trained and educated ponies, Captain Chas. Duncan and his great performing elephants, the like of which has never before been seen, and the numerous other acts of the monkeys, dogs and goats, gymnasts, acrobats and arenic performers from every known land, Mlle. Roberts doing her death defying nerve thrilling acts in midair has well earned the title of Queen of the Air, and her acts alone are without doubt the greatest gamble with death ever attempted. The entire program is truly beyond compare and this show should be seen by everyone.—Advertisement.
