SERIOUS TROUBLE ARISES IN PANAMA SITUATION

General Torres in Command at Colon Refuses to Secede and Threatens to Burn the City and Murder Sympathizers

(Special Telegram to Evening Teller.) PANAMA, Nov. 5.—The situation on the Isthmus this morning is most serious. General Torres commanding the Columbian troops at Colon refuses to follow the example of Panama and secede from Colombia. He threatens to send troops from Colon to Panama, and in case the latter city does not surrender, it is reported that the Columbian troops at Colon threaten to burn the city and murder all the sympathizers of the revolution as well as the American residents. The latter have appealed for protection to the cruiser Nashville which is in the Colon harbor and it is not unlikely that American marines may be landed to guard against impending perils. The presence of Nashville yesterday saved serious trouble when warship Bogota started in to shell the city.

landed a force of marines at Colon to protect the lives of Americans, but that later he had withdrawn his men. There had been no bloodshed. The presence of the American cruiser at Colon was undoubtedly the only cause of avoidance of loss of life. Should Torres carry out his threat to send troops to Panama they will be compelled to walk the entire twenty miles. The gunboats Padilla and Chucito left here today to search for the Columbian gunboat Bogota which fired upon the city yesterday.

There is a mortgage of \$7,500 on the property to cover a loan made the company by J. A. Schultz. Mr. Schultz later turned the loan over to Mr. Hutchins, who is now announced as being in control. But the farmers expect to hold Mr. Schultz to his former promise to turn over the stock when the loan was paid and they are canvassing the prairie this week to raise the money and are meeting with great success; they announce that the money will be raised by Saturday, the mortgage lifted and the stock redeemed. The farmers are eager to own the stock and to control the tramway without question independent of the grain companies.
