

# The Teton Peak

OFFICIAL PAPER OF FREMONT COUNTY

WOOD D. PARKER, Publisher

THURSDAY, APRIL 26, 1903.

Entered at the Postoffice at St. Anthony, for transmission through the mails, as second-class matter.

**SUBSCRIPTION RATES**  
One Year \$2.00  
Six Months 1.00  
Three Months .55  
Advertising Rates on application.

REPUBLICANS register—at W. W. Hoops' barber shop.

You cannot vote at the coming village election unless you register. Don't delay but call on W. W. Hoops and register at once.

THE closing of the Ogden saloons last Saturday night at 12 o'clock gave the policemen a good job herding 300 homeless men and tramps until 12 o'clock Sunday night.

ATTORNEY GENERAL BAGLEY has rendered an opinion to the effect that slot machines are prohibited in this state under the anti-gambling law. He who puts a nickel in a slot machine is guilty of a misdemeanor as well as the owner of the machine.

E. M. HOLDEN is the democratic candidate for mayor. He was a candidate for trustee a year ago on the same kind of a ticket—"Citizens' Ticket." Mr. Holden was turned down then because he was not known, he will be turned down again because he is too well known.

Is it possible that St. Anthony is so short of material for village trustees that a private caucus must be held to nominate men who have not been in our city long enough to dry behind the ears? And, can the democrats pull the wool over the people's eyes by calling their ticket a "Citizens' Ticket?" Will the people again vote a Moon ticket? We think not.

It is rumored around Salt Lake City that the Oregon Short Line offices are going to be moved to Portland on account of the consolidating of the O. S. L. and the Oregon Navigation Company. The Salt Lake papers are busy denying this at present and we hope they will be kept busy for a while. Maybe they will give us a rest on the St. Anthony extension to the Park.

ONCE more the democrats of St. Anthony are ashamed of their party name and they gather together a few of their number and nominate a democratic village ticket and call it a "Citizens' Ticket." They take the precaution however, to put on one republican, without his knowledge or consent. Mr. Will Yager's name was placed upon the ticket along with four democrats, but he was not even apprised of the proceedings until after the ticket had been filed. They did not publish a call for a primary but passed around town and asked a few whom they could "trust," to meet at the desired time and "fix" a ticket.

THE city has been managed by a republican village board for the past year and the business was transacted in a strictly legal manner. All the ordinances passed illegally by previous boards have been repassed and made legal. It is the first village board elected by a party vote upon which rests the responsibility of their actions. They have performed their duty as nearly perfect as it is possible for any set of men to do. We say return another republican board to office and the city's business will be conducted for the best interests of all and not for the interests of a few. When the republicans took charge of the village of St. Anthony one year ago there was not a cent in the treasury and there were a number of warrants outstanding. The license ordinance was not

legal and the saloon men would not pay their licenses unless they chose to, and some of them did not "choose to." Sidewalks were built and taxed up to the frontage of property along which it passed, without a legal ordinance whereby the city could collect for building said sidewalks. Franchises were granted that would not stand the tests of any court, and in fact St. Anthony was a total wreck so far as the business of the city was concerned.

On the 7th day of April, the present board will surrender the affairs of the city to the newly elected board. They will turn over to them \$958 in cash, and all outstanding warrants paid including all the fire company's apparatus.

W. W. Youmans is a citizen and business property holder of St. Anthony and has been for years. He is thorough in his private affairs, has the interests of St. Anthony at heart and will make a good councilman.

B. C. Bowers is also what you would call an old timer here, having been in business for 5 or 6 years at the old stand "The Golden Rule Store." A vote for Ben is a vote for "old honesty." You all know that, and it is needless for us to enter into his good qualities as an energetic business man.

William D. Yager, one of the proprietors of Yager & Son's livery firm was almost raised in St. Anthony, and you know him better than we do. He is a young man, ready and willing to serve his town in the capacity of councilman.

The republicans recognize the fact that South St. Anthony should have a representation of at least two on the village board and George B. Rumsey was placed upon the ticket. Mr. Rumsey owns property in town and is one of our leading stock men. He is also an "old timer" and resident of this town. There isn't a scratch of a pen or a word that any person can raise against Mr. Rumsey.

John L. Pratt was placed on the ticket from the South Side. Mr. Pratt is a resident property owner and could also be classed as an "old timer," having been here in the employ of the Oregon Short Line since its construction into this town, except for a couple of months' absence. John is one of those honest, open-hearted, conscientious, business men such only as are employed by the railroad companies.

### FOR PERMANENT EXHIBIT.

In order that the intent of the law establishing a bureau of Immigration, Labor and Statistics for this state may, in a measure, be complied with, I respectfully request that the producers of the state assist me in gathering samples of their products to be used as a permanent exhibit at the state capitol. To this end, I respectfully request and urge that the farmers, orchardists, miners and others having products of the soil or mine of special interest, or products which would make attractive exhibits, forward the same to me. I will take pleasure in paying the expense of transportation or assisting in any manner in my power. I believe that a permanent exhibit of this character would be of great value both as an educator of the people of this state and as an attraction to people of Eastern states who contemplate making their homes in the West. Therefore I sincerely hope that I may receive the cheerful and active co-operation of producers all over the state in this undertaking.

REES H. DAVIS,  
Commissioner of Immigration, Labor and Statistics, Boise, Ida.

**Ranch For Sale.**  
Eight miles above St. Anthony, 138 acres at \$20 per acre. Independent water right. 60 acres under cultivation. All fenced. Address, David Feighnor, Chester, Ida.

# World's Fair Horticulture.

## Pomological and Nursery Exhibits.

The fruit growers, and horticultural societies both state and local are taking great interest in the plans that are being made for the fruit exhibit in the Horticulture building. The fact that there is practically twice as much space to be devoted to this exhibit at St. Louis as there has been at any former Exposition is encouraging news to them.

Many inquiries from individual fruit growers and local horticultural societies concerning space for a fruit exhibit have been received by the department of Horticulture and it seems that a general statement of the method of securing space is of interest.

The space will be secured by an officer representing the state commission of each state and all exhibits of this character will be under the management of the state commissions unless there should be a state that does not have a commission in which case some other arrangements will be made.

Fruit growers in making exhibits of fruits are assured that they will not lose their identity by an arrangement of this kind, for it will be required that all exhibits be plainly marked, showing the name of the grower and the locality where the fruit was produced. This will be of great value from an educational standpoint as it will give all who are interested in studying fruits, definite information as to the locality where the fruit was produced.

Not only are visitors who are studying fruits helped by an arrangement of this kind, but practically all visitors are more interested in the exhibit when they know definitely the localities where all the fruits were grown.

It is important that fruit growers everywhere begin at once to prepare to grow fruit for exhibit purposes. Sufficient plant food should be supplied to enable the trees to bear perfect specimens and this should be followed throughout the season with the most thorough cultivation.

Thorough cultivation will hold the moisture in the soil which will be available for the use of the trees and plants in development of perfect specimens of fruits.

The thinning of fruit should not be neglected. This is an important consideration where it is desired to grow perfect specimens. In doing this work it is advisable to leave only such specimens as promise to be large and perfect and also those that are not shaded by foliage.

States that are planning to exhibit must have a sufficient quantity of fruit in cold storage so that the place allotted to them will be entirely covered at the time of the opening of the Exposition, and in order that they may have a sufficient quantity in reserve in storage to keep the space covered until the 1904 crop of fruit is available.

A circular on cold storage of fruits will be sent out from the department of horticulture in good season giving the latest information obtainable concerning that subject.

It is intended that a collective exhibit of nursery stock from all sections of the world will be made in the department of horticulture of the Louisiana Purchase Exposition. This will afford a splendid opportunity for nurserymen, botanists and fruit growers to study the individual varieties and types represented. From an educational standpoint the value of such an exhibit will be appreciated by all interested in horticulture.

It is also expected to have a

collection of the newer varieties of grapes in bearing, especially those that have been produced crossing. These will be planted the present spring so that they will be in bearing in 1904.

A collection of varieties of strawberries will be planted the present spring. These will be confined in the new varieties. A part of these will be new varieties that have been produced by a careful system of breeding for the purpose of obtaining varieties possessing certain characteristics.

In the nursery exhibit, a collection of nursery trees affected with crown gall and other diseases as well as trees infested with woolly aphis will be made.

### Professional Cards.
