Every accommodation extended, consistent with Sound Banking business.

A portion of your business respectfully solicited.

G. C. BAKER, President.

LATE STATE NEWS.

Governor and Mrs. Morrison spent Monday at their Caldwell home attending a picnic arranged for them by their friends.

The Governor has called a meeting of the Idaho St. Louis and Clark exposition committee for July 16, at the executive office for the purpose of organizing and selecting an executive commissioner to act as executive agent of the commission. The members of the commission are: W. R. McBride of Salmon city; James E. Steel of Iona; Mrs. Henrietta Mansfield of Nampa; Martin J. Wessels of Kendrick; Harold J. Read of Wallace. The commission receives no compensation for their services but are allowed actual traveling expenses while attending to their duties.

James T. Quirella, the Boise negro, who shot and wounded an officer at Nampa on May 24 during a squabble following a ball game has been released from the Canyon county jail on a \$2500 bond.

The nine-year-old daughter of W. C. Boyd living near Boise, was kicked to death last Friday by a colt which she was playing with, the colt being a two-year-old and was considered a great pet.

Idaho Falls is to have a free delivery mail route.

The Weiser Signal has contracted for a new building to cost about \$5000. This speaks well for the Signal as well as for the businessmen of Weiser.

James Stewart, a boarding house keeper at the sugar factory now under construction near the falls, shot his wife on July 17th and then blew out his own brains. The wife may recover.

A boy up at Gardner, this state, was arrested for fishing for pollywogs without a license and was convicted, and sentenced to thirty days. It is said that the lad had many sympathizers among the lawyers and habeas corpus proceedings were indulged in and the lad was allowed to go free. What next.

A Unique Summer Outing.

Our summer in a Barn, in the August Delineator relates the story of a unique and undoubtedly enjoyable outing during the warm days. Certainly, if the barn be located without city surroundings, be big, cool and clean, and admit of comfortable interior arrangement, as did this one, it is a pleasant place in which to pass away time. Such a Summer outing is the happy mean between camping out and country boarding, and the experience of the author of the paper, Frederick J. Barnatt, warrants that it possesses advantages over either. The illustrations show that a large measure of comfort and coziness can be introduced even into a barn.

Idaho Third.

The year book of the Department of Agriculture just issued gives the following estimates:

Montana is the banner sheep state, having 8,932,311. The product of wool was 35,567,000 pounds and the shrinkage from scouring 65 per cent.

Wyoming stands second with 5,826,150 head worth \$246 each, a total of \$1,436,655. The produce of wool was 31,616,000 pounds, and the shrinkage from scouring 65 per cent.

Idaho stands third, with 5,541,815 head, worth \$2.56 each, or a total of \$11,612,513. The wool produced was 18,125,000 pounds, which shrunk 66 per cent on scouring.

Brutally Tortured.

A case made to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick of Colusa, Calif., writes: "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for liver and kidney troubles and general debility. Only 50c. Satisfaction guaranteed by Watson & Moore, Druggists.

Ringling Bros. Circus Idaho Falls August 8th.

For the above occasion we will make a rate of one fare for round trip. Special train leaving St. Anthony at 8 a. m. arrive in Idaho Falls 9:30 a. m. returning leave Idaho Falls 6 p. m. Last opportunity of the season to see the circus.

R. T. DROLLINGER, Agt.

Licenses to Wed.

County Clerk Hegsted issued licenses to wed to the following parties on Monday of this week: George Muir age 22 and Miss Myrtle Parker, age 19, both of Island Ward; and Alf Young age 24 and Miss Nettie Willard age 21, residence not given.

NOTICE.

Notice is hereby given that, on July 29th, 1908, at 10 o'clock a. m. the Board of County Commissioners of Fremont County, Idaho, will meet as a Board of Equalization, and will continue in session for the purpose of equalizing assessments as made and entered upon the Assessment Roll, until the business of equalization is disposed of.

Witness my hand and official seal this July 11, 1908.

VICTOR HEGSTED,
Clerk of said Board.

When you leave for the Park or on an outing, take a box of Burland's Best with you.

Squirrel.

And yet the little village plods, and the glorious Fourth has come and gone and the waters are still running on in Squirrel town.

Haying is on in full blast, with prospects of good crops.

The Highland Ranch Improvement company has a big force of men harvesting its immense crop of hay.

The enlarged portrait agents are busy around here and also the carriage men.

One of the most complete steam threshing outfits ever produced, has just been purchased by a couple of our enterprising residents.

H. E. Campbell the merchant is still selling goods that are right both in price and quality.

The range is just splendid this summer and stock are looking fine.

The Teton range looms up in the distance and beckons us into the fishing, but business says not yet.

Wilford.

Mr. and Mrs. Geo. A. Pincock took a trip to Ora Sunday to visit that ward Joseph R. Messery accompanying them as home missionary.

Miss Agnes Hanson who has been suffering for the past two weeks with a severe cold is now convalescent.

Mrs. C. C. Pratt's daughter and son-in-law of Cache Valley came up and spent the 4th with her. Their visit was delightful one, the trip being made by team.

Miss Anna Hanson is visiting friends and relatives at St. Anthony.

Hyrum Burbank of Bear Lake is visiting relatives here at the home of the Messrs. Romrell, and assisting "Fred" to put up the hay.

A surprise party was given on Miss Eva Barton Monday evening, and a pleasant time was had. She is intending to leave for Boise soon to pay her aunt a visit.

The 13th Quorum of Seventies convened here Saturday the 11th and left an appointment for Teton Saturday, August 1st at 11 o'clock a. m.

Arrangements have been made to have a Saturday's mail run after the 29th which will be much more convenient for people of Wilford and Teton. And now why not dispense with the Sunday's mail?

A meeting of a couple of strangers on one of our main thoroughfares Sunday, though resulting in the displacement of several necks, ended without any serious damage being done.

Mosquitoes are quite noticeable in straw-berry patches Sunday evenings, but talk about "birds", why they are not in with the way that our Post Master, Road Supervisor, Ward Clerk, Sunday School Supt. and others hustled along the rows on the 12th. The berries were truly delicious.

One of our young men Sunday while riding a wheel had his attention centered upon the rear tire and ere he was aware rode right between the hind legs of a saddle-pony, which terminated in a broken head for the "bike" and a bad bruise on the leg of the rider.

Marysville.

The Fourth passed off very nicely here no mishaps of any kind, every one was full of neighbourly feelings. Mr. Hall Egbert did himself justice as marshal of the day working like a beaver to make everything a success and endeavouring to draw the people one to another.

The Spaulding Buggy Company sold quite a few of their vehicles to our farmers taking their notes in return for buggies.

Haying will commence this week but the crops will not be up to the average on account of the break in the Brady canal necessitating the water to be out of the canal for so long.

Mr. Egbert and his boys have returned from Warm river meadows where they went after the Fourth to build snow sheds while they put up hay. Hall says the flies are h— there but the sheep are h—er.

Quite a large percentage of the youngsters who went to Parker to thin beets have returned home, some of them quit sore on account of not being able to get any pay for the Fourth and neither could they find anyone who would tell them how much they were getting per day and of course the rule is promise a child and it expects and is not satisfied until he gets it.

Quite a ripple of excitement was had the other day by the report of the wedding of Mr. Heber Smith and Mrs. C. R. Humphries at the county seat, as every body thought they could not marry until the lady had been divorced six months but it appears not, so well, we join with their many friends in wishing them joy.

Reports reached here on Saturday that Mr. and Mrs. Wood while on their way to St. Anthony were thrown out of their buggy and had sustained severe injuries causing much anxiety amongst their children but they returned on Sunday all O. K. and setting the matter right again, they went to see the new grandson who arrived at the home of Mr. Geo. H. Airhart on the 9th and they feel quite proud of their second grandson.

The residence of Mr. Cusicks adjoining the mercantile establishment of the Thompson Company is about finished and Mr. Casick will move into it as soon as completed.

The telephones are in some of the houses and some are left out for some cause we know not of but they are all at one end of town and the chances are that they will remain as the people at the other end feel rather sore on this matter but if they will let it remain as now they will be quite satisfied as it is quite an expensive toy. W. G. J.

I wish to warn all parties against any one claiming partnership with me in any business whatever that I will not be responsible for any debts or debt contracted at any time under any firm name.

Resp. JAMES G. WOOD.

Parker.

Crickets by the million are coming in from the north. The farmers who live north of the large canals have been fighting them for several days. They have got their course changed to the northeast. It is reported by those who travel across the country that they extend all the way from Camas creek and that they are destroying everything green. They are laying their eggs here and we have the prospect of a cricket war another year.

The best company is bringing help from Salem and Rexburg to weed and thin their beets.

Messrs. L. B. Rice and Sons' outfit left on Sunday for the Montana hay fields.

Mr. Jed Earl is at home from Rexburg for a few days' rest.

Mr. T. R. Cutler, manager of the sugar beet company, Mr. Austin, superintendent of the Idaho factory, and Mr. Dye of California, were here a day or two last week. Mr. Dye is a sugar beet expert and he says there is no better soil under the sun for raising beets and all Egin bench has to do to get the factory and the railroad, is to contract for 3000 acres of beets.

Mr. W. V. Haight of Farmington, Utah, is here visiting his son Chauncey Haight, and his old acquaintances here.

Mrs. Fred Combs and her son James, of Farmington, Utah, are here visiting her son, Mr. Joseph S. Radd.

Palmer Bros., the bricklayers, have taken the contract for a large building in Idaho Falls, and expect to leave in a few days.

Dr. Hyde of Rexburg, was in town last night on professional business.

Kilgore.

The Fourth of July celebration at this place was the best ever held here. We were in it for keeps from 10 a. m. till 12:30 at night. The exercises at the school house being impressive and interesting. There was a large crowd to witness the races at the race tracks.

The first event being the trotting races with teams, there being five entry distance three mile heats, won by Good Rasmussen with his good old trotters, Gargle Leg and Hide Raek, in good time, 3:49.

The running race was the big event of the day, there being more good enjoyable excitement to that race than anything of its like in years, it was unique in its way being in heats, 3 1/2 mile heats, there were seven entries.

Tom Heddersons Midnight, winning by a nose, Frank Shoups, Daisy Belle second, Fred Schallers Black Billy third.

The last heat of the winning race was very exciting. It was nose and nose from the start to the finish, and the crowd howled itself hoarse with enthusiasm.

The next event created lots of fun for everybody, catching the greased pig. When the pig was turned loose the crowd went after it something scandalous. The pig was bothered some by acted like a senator dodging office seekers. He was headed for the safety line making good time with a swarm of men and boys in pursuit, he stopped to take a lick at the grease, that lick was his undoing. Andy Kennedy who was in the lead fell on him, the air was full of man and pig for a few seconds, but Andy got the pig, then came the foot races and tug of war, and wound up with a grand display of fireworks in the evening. It was a glorious Fourth for Camas Meadows and the big dance at night was enjoyed by all and everybody went home at midnight thankful for the good time and the nice weather.

The untiring efforts of Good Rasmussen, chairman of the committee, and his aids made the celebration a success in every way and the crowd were loud in their praise at the able management. The prizes given were useful and costly and were greatly appreciated by the winners.

TETON PEAK COR.

I. O. O. F. Install Officers.

Last Saturday evening Deputy Grand Master Harrigfield installed the following officers to serve for the ensuing term:

Noble G. L. S. Borrowers; V. C. T. R. Hamer; R. S. N. G., M. E. Jamison; L. S. N. G., W. M. Gray; R. S. V. G., G. N. Swartz; L. S. V. G., Z. E. Yearian; Warden, E. E. Carey; Conductor, H. G. Fuller.

Died.

It is with sadness of heart that we chronicle the death of the oldest child of Mr. and Mrs. B. C. Bowers, Burdett Earl Bowers, who died at their home on West Main street yesterday afternoon, age 7 years 4 months and 22 days. Death came as a relief from long suffering as little Earl had suffered with insufficient and poor heart action for about two years. The immediate cause of his death however was hooping cough, prior to this he was slowly improving. The whole community deeply sympathize with the bereaved. The funeral services were conducted this afternoon from the Methodist church by Rev. Pemberton. Earl was a devoted member of the Junior League although he was but a child. His little life should ever be a shining example to those around him who knew him best.

Dr. Middleton reports the arrival of a bouncing baby boy at the home of Mr. and Mrs. M. Allred, South St. Anthony, on the 15th.

Closing out that fine line of china and Japanese ware at actual cost.

Watson & Moore.

Good Cure Caused Long Sleep.

A Trenton (N. J.) man recently took first the gold cure and then a sleep. He did not wake up for ten days.

It is a waste of energy to try to look like a dollar when you are putting a dime into the plate.

JAMES H. HAWLEY

Elected Mayor of Boise, Defeating James A. Pinney, Republican.

Special to The Peak.

Boise, Idaho, July 17.—At the city election held here yesterday, Hon. James H. Hawley was elected mayor against James A. Pinney, the republican candidate. The defeat of the Republican candidate can be laid at the door of the Boise Statesman. Mr. Borah dictates the policies of the Statesman, this is the result. While Mr. Borah is out in the field supporting the Republican ticket the above-named paper throws the candidate for mayor down and helps elect a Democrat. Mr. Borah will probably name the chief of police. All the rest of the councilmen elected are Republicans. They should give the city printing to the Capitol News or the Boise Clipper.

New Industry.

In Fremont County, Idaho, has been discovered a field for industry that is seldom met with anywhere in the world, and the principal thing that has been lacking heretofore was money with which to develop the country. Very fortunately this most desirable commodity is about to be furnished under very favorable circumstances and conditions. Many residents of the county are well acquainted with Mr. L. M. Earl, who from 1893 to 1898 transacted considerable business in the community and has since been a frequent visitor here. Mr. Earl has been selected by the Salisbury Investment company, recently organized and incorporated, to establish in St. Anthony permanent offices through which to do business with the people.

When asked as to the objects of his company Mr. Earl said: "We realize that right here in Fremont county are industrial possibilities that, if properly handled and encouraged, will increase the wealth and population of the community ten to one within a few years. Everybody knows that no greater drawback can occur to enterprise and industry than a lack of sufficient money with which to develop it. You may know that one hundred feet beneath your front gate there is a gold mine of limitless value, but if you have not the means which would enable you to sink a shaft to it, the mine may just as well not be there so far as your welfare is concerned. Now, it is just such a condition as this that we want to remedy. We are going to help anybody to develop their enterprises. If money is needed we will furnish it to anybody—the farmer, the sheepman, the cattleman, the mechanic, the builder, anybody that does anything in an industrial way. And what is more, the man who wants the money shall have it on the day he wants it, and may borrow it for as long or short a time as he wants it, and can pay it back when he is ready. There will be no red tape about the business and no commissions to pay agents for getting the money, and no delay in the delivery of the cash once the borrower comes to an understanding with us. My instructions are to meet the people on a fair and friendly footing, help them in every way possible, quickly reach an understanding where money is wanted and turn the cash over at a minutes notice. The company knows that this county of Fremont is as full of industrial possibilities as any locality could very well wish to be, and that ready access to any amount of local money will bring the community to the front as nothing else on earth could do. It is for this purpose that I am being located at St. Anthony, where the offices of the Salisbury Investment company are to be, and if an unassisted offer of financial aid will bring this county to the very front of industrial supremacy then you may look for such an awakening of enterprise here as shall increase the wealth and population of the county to an extent that would now seem impossible. We are here with money and we want the people to tell us where to put it and how they want us to help them."

Mr. Earl is well known throughout Fremont county and has been urged many times to come here and locate. The information that he is coming to have charge of the Salisbury Investment company's business in St. Anthony is agreeable news to his friends here. From the expressed intentions of the company may be gathered some idea of the magnitude of the work it may accomplish and the enormous amount of industrial good that will be done. All eyes are turning towards Idaho now, and in Fremont county may be found the most favored spot. The coming of the Salisbury people with their splendid offers of financial help will remove a great difficulty of long standing and ought to mark the opening of an era of unexampled, thrifty progress for the entire community.

Justice in New York.

Some time ago a New York magistrate committed a girl to the state reformatory for "disorderly conduct." Justice Caynor has released the prisoner, holding that "disorderly conduct" is too vague an offense to warrant depriving a person of his or her liberty. He declares that this conviction "appears to have been without any evidence, a thing which appears to occur very often in this city, as incredible as it may seem."
