SPECIAL DISPATCHES TO THE DAILY TIMES.

## UNITED STATES.

### Sam Wilson on the Chinese Bill.

CHICAGO, May 17.—Yesterday S. M. Wilson, of San Francisco, was interviewed here about the Chinese bill. He said that while the Coast people would have been better satisfied with the original bill, the signing of the amended bill was hailed with satisfaction. He continued: "I regard it as very fortunate that the bill has been signed. Had it been otherwise it would have been impossible to prevent violence and bloodshed on the Pacific Coast, the people are so bitterly opposed to the Chinese. They loathe them so intensely that there would have been serious trouble. Mind, I do not say that the better class of the community would have counseled a resort to force, but it would have been beyond human nature to expect the better class to interfere from an abstract principle. When the trouble began it is too much to expect that they would step in purely from an abstract principle, and contrary to their interests, to stop the movement. When it had once begun it surely would have been general." [The Mr. Wilson interviewed is probably Hon "Sam" Wilson, one of the leading attorneys-at-law of San Francisco.—Ed. Times.]

### A Murderer Convicted.

OGDEN, Utah, May 17.—At 11:50 this morning the jury in the case of The People vs. George Catlin, charged with the killing of James Brown, in Ogden city, February 15, 1882, brought in a verdict of guilty of murder in the first degree. The jury had been deliberating 2 hours and 15 minutes.

George Catlin, the Pilot says, is a man 45 years of age, nearly six feet high, and rather spare in form and features. He is very bald and has anything but the appearance of a bad or desperate man. His face, in fact, has rather an intellectual cast, and he is evidently possessed of natural ability beyond mediocrity. He evinced no perceptible emotion when the verdict was rendered, having evidently prepared his mind for the worst. It appears to be the general impression that the sentence of death, which is the only one that can be imposed under the circumstances, will be commuted by the Governor to imprisonment for life.

### Enormous Increase of Chinese Immigration.

WASHINGTON, May 17.—The chief of the Bureau of Statistics reports that the total number of immigrants arrived from the principal foreign countries for the ten months ending April 30, was 544,599, against 445,882 in the same period in 1881. Germany leads in numbers, being 185,000, an increase of over 40,000 as compared with the previous year. The importation from China was—for 1882, 21,899, and for 1881, 6,038.

### A Beef Famine in Wisconsin.

CHICAGO, May 17.—An Oshkosh (Wisconsin) special reports a great scarcity of cattle in that vicinity and a beef famine is feared. That section has been completely scourged for live stock without much success. Farmers have raised but few cattle on account of the scarcity of corn. An effort will be made to secure cattle from other points.

### A Captain Stinks His Vessel.

NEW YORK, May 17.—The captain of the Rio Grande telegraphs that he has decided to sink that vessel. She is valued at a quarter of a million of dollars, and has a cargo worth \$120,000. The Rio Grande carried cotton from Galveston to New York, and caught afire on the way.

### A Murder and Suicide.

HANCOCK, Mich., May 17.—Anton Schewamper, a brewer, shot his wife as she lay asleep with her mother yesterday, then shot himself through the forehead. Both are dead. Jealousy was the cause.

### Virtual Repeal of Usury Laws.

ALBANY, N. Y., May 17.—Senator Kirman's bill, permitting call loans to be made at any rate upon which the parties agree, was passed.

## TWO MEN HANGED BY A MOB.

BATON ROUGE, La., May 17.—A mob of whites and blacks attacked the jail in St. Martin's Parish, early yesterday morning, took Jos. E. Jenkins, the murderer of his brother-in-law, William Castello, out of his cell, carried him to the spot where the murder was committed, and hanged him to the limb of a tree. The same mob then hunted up James Ascor, a colored man out on bail, charged with murdering young Whitelaw, and in spite of his protests of innocence, hanged him on the same tree. Governor McEnery offers a reward of \$2,000 for the arrest of the lynchers.

### Star Routers Denied a New Trial.

PHILADELPHIA, May 17.—On the trial of the suits brought by the Government against Christian Price and Legrand Ensign, verdicts were rendered in amounts over \$20,000 against the defendants, subject to a point reserved concerning the fact that the Postmaster-General had not personally approved the surety as, it was claimed, the statute required, and the defendants claimed a new trial. It is now decided that there is nothing in the reservation to warrant the granting of a new trial.

### Buried without Religious Services.

LAWRENCE, Mass., May 17.—At the funeral of ex-Representative Nichols, yesterday, the Father Mathew Society, of which deceased was a member, accompanied the remains to the Catholic church. Father Dwyer, the pastor, refused to admit the society unless the regalia was removed. The members declined to do this, and the body was buried without religious services.

### Trescott Bringing His Own Dispatches.

WASHINGTON, May 17.—Secretary Frelinghuysen has received a cablegram from the United States Consul at Arica saying simply that Trescott sailed on the Lackawanna on the 13th. It would seem, therefore, that Trescott is now on his way to Washington, via Panama, and will probably bear his own dispatches concerning the final results of his special mission.

### Mr. Price Exulting.

BALTIMORE, Md., May 17.—Wm. Price, of Cumberland, spoken of in connection with the Morey letter, attended a meeting of the Democratic State Central Committee today, and spoke freely of John I. ## CANADA.

### Parliament to be Dissolved.

OTTAWA, May 17.—Parliament has been prorogued.—The Governor-General in a speech from the throne, said: "I congratulate you upon the rapid and successful development of our manufacturing, agricultural, and other industries. I am, however, advised that their progress would have been still greater were it not that capitalists hesitate to embark their means in undertakings which would be injured, if not destroyed, by a change in the trade and fiscal policy adopted by you in 1879. In order, therefore, to give the people, without further delay, an opportunity of expressing their deliberate opinion on this policy, and at the same time bring into operation the new measure for the readjustment of representation in the House and Commons, it is my intention to cause this parliament to be dissolved at an early day."

Great interest is caused by the Government measure for instituting oral and public trials. Rivas, Attorney-General, has resigned. He will introduce a counter-scheme in favor of the establishment of the jury system. Minister Sagasta declared that the country was not ripe for it, and would make the Government's scheme a Cabinet question, regarding as his adversary every one who opposed it or abstained from voting.
