TELEGRAPHIC.

UNITED STATES.

An Alarmed Indian Agent.
WASHINGTON, May 20.—Agent Llewelling, of the Mesclero-Apache agency, sends the following dispatch to the Indian Office: "Telegraph me at once if it is true that Congress has made no appropriation for the subsistence of these Indians. Their beef and flour will last until July 1. I have private arrangements to make, and want my family away from here by July 1. You know I nor any other agent cannot control these Indians on empty stomachs." The agent was informed that the Secretary had asked Congress to make the necessary appropriation of \$90,000.

MAJOR-GENERAL POPE MAKES HIMSELF HEARD ON THE SAME SUBJECT.
The War Department has received the following: Fort Leavenworth, May 18.—The following telegram is just received: The situation at Mesclero agency is much the same, only worse than it was with the Cheyennes. The Mesclero must be fed or they will starve. The Indian Bureau, as it appears, cannot feed them, the army must therefore feed them, or a heavy military force must be placed around them to make them starve peaceably. There is time yet to provide for them, but it cannot safely be postponed. It should be attended to at once.
JOHN POPE,
General Commanding.

An Anti-Catholic Society Exposed.
DALLAS, TEXAS, May 19.—The Times to-day published an expose of a secret practical order known as American Knights of Honor. It is an anti-Catholic society—something after the style of the old Know-Nothing organization, and is officered by local Republican leaders. William Jesse Grant, formerly a Methodist in East St. Louis, Ill., late editor of the Dallas Gazette, a cousin of General Grant, is said to have organized the society here under authority from the parent society in Washington, and that another Republican leader, well known in the State, is now out organizing lodges. The purpose of the society is said to be the defeat of the Catholic Democratic candidates for office. The exposure is made on the authority of one of the members of the Society, who gave the secrets away.

Chivalric Act of a Band of Apaches.
DENVER, Col., May 20.—An attorney in New Mexico sends an account of an accident where a hunting party which included Judge Bristol, the Judge before whom Victorio was indicted for murder, was overtaken by a body of Apache Indians and accompanied for several days. Upon leaving them in a place of safety the Indians explained that Victorio heard of Judge Bristol's presence and was about to attempt his capture, which they had prevented by their watchfulness. They positively refused all reward.

ELECTRIC SPARKS.

The Duke of Manchester is in Chicago, en route to Manitoba.
President Barrios, of Guatemala, will soon visit the United States.
Judge E. M. Adair, of the Choctaw Nation, died suddenly of heart disease.

The general appropriation bill appropriates \$21,000,000, of which \$16,000,000 is for pensions.

Miss Holmes, on trial at Syracuse, N. Y., has been found not guilty of murder. This accords with the popular view.

The House of Representatives has refused to extend the period for which banks may extend their charters from 20 to 25 years.

Gleason's Knitting mill, at Seneca Falls, N. Y., is burned. It was worth \$100,000. Three hundred operatives are thrown out of employment.

The Chicago South Side street Railway began extending its cable upon Wabash avenue. It finds that the plan is a money making one. The

company's stock has advanced in price from 275 to 345 since the cable became an assured success.

It is said that the strength of Northwestern stock is due to the heavy earnings, which will make dividends 8 per cent on preferred and 7 on common stock.

Thomas O'Connor, an Irish-American, was arrested in the Chatsworth park grounds of the Duke of Devonshire, at midnight last Thursday night, on a charge of being there unlawfully.

Villard, of the Northern Pacific, is expected at Ottawa this week, and some arrangements as to the disposal of or relating to the Manitoba Southwestern railway are expected to be arranged definitely.

O'Shea, a Member of Parliament, writes to the papers affirming that despite his denial, Forster and he had been in frequent communication, and it was Forster who suggested that the best plan for O'Shea was to quietly visit Kilmainham jail.

On motion of Kasson, of Iowa, the House of Representatives, Thursday, passed a bill providing that any person, being originally a citizen of the United States, who has been naturalized as a subject of Great Britain, may publicly declare his renunciation of such naturalization and resume his character and privileges as a citizen of the United States by signing an instrument to that effect.

TERRITORIAL NEWS.

Boise Statesman, May 20.]
John Applegate, of Lower Weiser, is dangerously ill with a fever, and fears are entertained for his recovery.

John Minear, Frank Brownell and Dr. William Brownell are over from Silver City on their way to Wood River.

Moss Wilkerson, of Upper Welers valley, is very ill, with no hope of his recovery. He is deranged, and the doctor pronounces it a bad case of softening of the brain.

C. W. Moore was considerably bruised when thrown from his buggy in colliding with Russell's runaway team, and is confined to his house, but not seriously injured.

Alice George, a pupil of Mrs. Mann's, district No. 30, stands at the head of the school on the roll of honor, her average being 96 1/2. In six monthly examinations she missed but one question.

During mounted practice at the garrison on Thursday one of the horses in use was accidentally shot in one nostril with a blank cartridge. Profuse hemorrhage followed, which was checked with some difficulty.

On Thursday a six-year old daughter of Sergeant Falke, at Boise Barracks, procured a number of blank cartridges, removed the powder, placing it in a heap and then lighted a match and applied it to the explosive while stooping over it. The explosion which followed burned the little one's face very badly, and there are fears that her eyesight is injured.

Last Tuesday evening the Boise Engine company held an election to fill the office of Foreman, made vacant by the removal of Chas. Young from the city, and for that of second Assistant Foreman, vacated by the emigration of H. C. Baker to Hailey. Louis Guilrone, who has held the post of First Assistant for some months, was selected to serve for the balance of the term as Foreman, and Tom Maupin was elected to the vacancy thus created. Harlan Pelly, who has served as Second Assistant Foreman, temporarily, was selected to fill the unexpired term in that office.

Hosea Eastman has got into a heap of trouble with the Postoffice Department. He wants all his friends to come to his relief. He was the successful bidder to carry the mail from Lone Rock to Haystack, in Oregon, and some dog-gone rascal (no doubt John Hailey) has carried off or eaten up the haystack, and he is left with a mail route on his hands with a starting point but no place to stop, for the hard winter has consumed every haystack in that country. The rock is there, but where the hay is the haystack, is the question. He says it is worse than any Star route frauds, and if the Government don't furnish that haystack he is a ruined man.

John Horton, of the Bellevue Mining company, is at the Overland.

The boom belonging to Clark & Co. broke last Saturday, and many logs were lost. Sidebotham & Clarke

have another large drive in the river.

Large quantities of produce are being freighted through here from Oregon to Wood River.

A pack train has already made a trip to Atlanta this season. Another will start in a few days.

Silver City Avalanche, May 20.]
Mrs. G. H. Tracy and family have returned from the East.

Gardiner Kelly, aged 40 years, 8 months and 11 days, died at a hotel in this city, last Tuesday, of consumption.

C. H. Johnson is expected here soon to take charge of the Varkuff company's mining property at South Mountain.

Jones & Adams are crushing ore from the Webfoot mine, near Wagon town. Their mill has twenty stamps, which will be kept in motion as long as the ore holds out, when the pans will be examined.

Squires Goring, while running a horse through Jordan street on a wager, Thursday last, was thrown or fell from his horse and considerably bruised, though not seriously. He will probably be out again in a day or two.

Charles Brunzell was arrested a little more than a year ago for stabbing Thomas Jones, and had a trial but was not convicted, the jury disagreeing. This case came up again this term of court, and the defendant was acquitted on the grounds that he did not know what he was doing when he committed the act; that he was laboring under hallucinations, delusions and illusions of the mind, and almost all the ills that constitute insanity.

Philip Godart has purchased the Riverside farm, about four miles below Major Hay's place, and six miles below St. Helena, in Nana valley, Cal. It is a beautiful place, comprising 56 acres, about half of which is in vines, and the balance in grain, pasture and assorted fruit trees. He gets with it a fine house, which is elegantly furnished, all for \$15,000 cash. Phil is now in hot pursuit of a wife, which we hope he will find, and that when he gets her that he will put her in his little cage, where she can make music for him the whole day long.

Rumors About the Bannocks.

[Boise Statesman.]
A rumor was in circulation yesterday that some one had come in the night before from Goose creek on the Overland road, and reported that the Bannack Indians were raiding in that vicinity, and that this individual had reported the facts at Fort Boise. No such person has been at the Fort, and we have not been able to find the man from Goose creek, and do not believe the rumor. The drivers and passengers on the Overland stage would bring news several days ahead of any private traveler, and they know nothing about it. Goose creek is only sixty miles from Kelton, where trouble of that kind would be sent to the telegraph in less than twelve hours, and instantly communicated here. The Bannack Indians at Fort Hall reservation pass through Goose creek in visiting Duck valley and the Shoshone reservation, and are sometimes saucy and now and then kill a creature, but we do not believe they are prepared or intend going on the war-path this season. Their intention is good enough, but they would want to form an alliance with some other tribes before striking effective blows. If, however, an Indian should be killed by some one who would not put up with their insolence or stealing, it would incite the Indians to murder, and the trouble might be serious. The policy of allowing these Indians to roam off their reservations is liable at any time to breed trouble. There is no necessity for these Indians to leave the Fort Hall reservation and visit the Goose creek country or the Shoshone reservation, and if these tribes were kept at home it would be better for the Indians and insure safety for the white people.

Judging from the contents of the last issues of the Baker City Tribune and Democrat, we cannot help thinking that there are a lot of men in Baker county, who should be in the penitentiary.—E. O.

A vest, or coat, or pants, or a whole suit, can be had to order at C. Bache's.
