

WOOD RIVER TIMES

HAILEY, IDAHO.

WEDNESDAY, NOVEMBER 29, 1882.

Postoffice Hours.

Week days—Office open from 7 A. M. to 7 1/2 P. M.
Sundays—from 12 to 2 P. M.
Money Orders issued from 9 A. M. to 4 P. M.
No Money Order or Registry business transacted on Sunday.
Blackfoot mail closes at 7 1/2 A. M.
Ketchum, Galena and Sawtooth closes at 12 1/2 P. M.
Bullion closes at 1 P. M.
Boise closes at 5 1/2 P. M.

JOTTINGS.

For fine job work come to the TIMES office.

The rink at Bellevue will open Friday evening next.

Fresh Eastern oysters, fried, stewed or plain, at the Nevada Chop House.

If you want really elegant printing, you must come to the TIMES office.

Oysters in every style at the Nevada Chop House, up to 2 o'clock in the morning.

Go to 1,000 Main street for your candies, fruits, confectionery, and vegetables.

Six heavy freight teams of ten to a dozen mules each, came in from the railroad to-day. The teamsters report the roads in fine condition.

John M. Cannady received 45,500 pounds of freight, consisting of general merchandise, by freight teams, yesterday, and another lot is due to-day.

A letter from J. C. Lennon, now in Salt Lake, to Dr. Murray, states that he is recovering rapidly, and that Professor Blakely is yet in the City of the Saints.

General L. F. Cartee arrived in town last evening, from Shoshone, and went on to Ketchum. The General is expected in town again to-morrow morning.

Money is circulating freely in Bullion, and times are good. There are 75 men steadily at work in the mines, besides the merchants, and 150 men will winter there.

Three men have taken a contract on the Optin mine, from Colonel Wall, to sink a shaft 70 feet, and are averaging six feet to the shaft, at \$6 per foot—thus making \$12 each per day.

A new sidewalk is being laid on Main street, in front of the adobe below Willman & Walker's old store. At the rate walks have been laid the past few weeks, Main street will be well provided by spring.

The attempt to organize a dance club at Hailey Theater, last night, was a failure. Only about four couples attended, and when it became evident that none other would come, the hall was turned over to the roller-skaters, who held high carnival until half-past 10 o'clock.

The extensions of the Queen of the Hill mine, near Bradford, have been bonded to True W. Rollins, who will effect a sale. There are three locations—two extensions and a discovery. The holding work proved up a good ore-body upon two of the claims, and the third shows well on the croppings.

Smith & Kayser have started a shift of men at work on the Saturn and Modoc Chief mines, at mining a tunnel to tap the vein under the present shaft, at a depth of 150 feet. The tunnel will be about 200 feet long. As long as the weather continues favorable they will actively develop this property.

Some prospectors on Carbonate Hill yesterday, on the west side, and two miles northwesterly from Hailey, struck a ledge of galena which measures two feet across, and they made a location. The ore has every indication of carrying considerable silver, although no assay has yet been made. Strikes in the immediate vicinity of Hailey are becoming quite frequent of late. Experts predict that the ore from the above location will run as high as 500 ounces to the ton.

This time a year ago there were 11 men at work on the Jay Gould mine. These men, under Superintendent Bradley, had worked four months, and had not found a pound of ore. It was after the four-months' work, and just a year ago, that Warren Hussey sent orders from Denver to Mr. Bradley to close her down, but as the indications suddenly became more favorable, Mr. Bradley continued the work three days longer, contrary to orders, and was rewarded by opening up a body of ore four feet wide, which, to the present time, has never been given out.

NO PAPER TO-MORROW.

To-morrow being the National Thanksgiving Day, the DAILY TIMES will not be published. This will give the TIMES force an opportunity to enjoy the boned-turkey with cranberry sauce, truffled liver pies, and other good things commonly indulged in on that day.

GALENA.

A Camp which Has Not Made Much Noise the Past Season, but that Will Make a Good Showing Next Year.

Mrs. A. B. More, who has been up in Galena all summer, stopping with her husband, who owns 28 claims, besides 10,000 shares in the Senate mines and smelting works, and a large number of interests in other claims in that vicinity, came down to Hailey a couple of days ago, to lay in a stock of mine supplies and a balance of provisions to last the miners at work there until next June. She was agreeably disappointed in the prices of provisions and freight, and says that Hailey is undoubtedly the cheaper and most desirable place to purchase goods on Wood River. Teams to carry her purchases to Galena were secured for two cents a pound. The goods were bought of I. Morris & Co. and May, Krieg & Co.

During the past summer holding work, at least, was done on all the claims in which Mrs. More and her husband are interested, and several thousand dollars were expended by her husband and brother-in-law, A. P. More, upon the Senate and other properties. Other companies also did considerable work; but the camp did not prosper to any great extent because it was too young and the season too brief. The Senate smelter, which has a daily capacity of 30 tons, is now in running shape, however, the mines are getting into good hands, and by next summer Galena and vicinity will doubtless make a good showing. Further than this, Mrs. More would not say, as a residence of 25 years in California has made her quite conservative in her views.

Mrs. More left for Galena this afternoon, but expects to return in a few days to look after her furniture, which is on the way here from Contra Costa county, Cal., her home. Most of this she would prefer not to take to Galena over the rough roads, as it would undoubtedly be damaged. Mrs. More is especially opposed to taking her piano—a Steinway Grand—up there now, and if she can secure a suitable house in Hailey, will remain here until next June, with her family, a young lady and gentleman who arrived from California yesterday morning.

MARKED FOR LIFE.

A Lady Who Has the Goddess of Liberty Stamped in Her Right Hip.

Roller-skating is a most exhilarating pastime; but it has its disadvantages, and a lady who suddenly sat down in the rink, a few evenings ago, has had this fact brought home to her in a very forcible way.

She wore to the rink one of those new style coats with hip pockets, and was otherwise thinly clad, as the day was warm and a superabundance of clothing is very undesirable in a skating rink. Being an easy, graceful skater, she did not take off her coat when she put on the skates. For awhile all went well, but as she warmed to the sport she became more reckless and presently sat down with a thump that shook the Theater like an earthquake. She was immediately assisted to her feet, but insisted on going home at once.

The next morning a physician was sent for to treat her, when he found her right hip badly swollen, and in the center of the fleshy portion he found a correct stamp of the Goddess of Liberty! This led to an investigation, when it was ascertained that, when the lady fell, she had a \$20 gold coin in her hip pocket.

The physician says that she is marked for life.

Bullion to Have a Catholic Church.

Rev. Father Nattini delivered a lecture, Sunday evening, in the Miners' Union Hall—the subject being "The Love of Our Country." No admission was charged, but a contribution was taken, and considerable money realized. The Catholics of Bullion are considering the advisability of purchasing a lot and building valued at \$200, and owned by the Finlanders—the building to be used for holding services.

TROUBLE ON DEER CREEK.

A Valuable Mine Claimed by Two Sets of Owners—The Far West vs. the Davitt.

For several months the owners of the Far West and Davitt mines, on upper Deer Creek, which cover the same ground, have anticipated a conflict of title, and last Monday the first decisive move was made toward bringing matters to an issue. Monday morning Surveyor McFarland, having been called upon by one of the owners of the Far West mine to make an official survey for perfecting the lines and boundaries of the location, and learning from friends that his survey would probably be prevented by force, if necessary, he took Constable Frank Oliver with him. Arriving on the ground the owners of the Davitt mine did not use any shooting-irons, but most positively forbade the surveyor and officer to make a survey within their lines.

The owners of the Far West will put in an adverse to the application of the Davitt claimants for a patent, and the matter will rest under injunction until the next term of court, when a hearing can be had and a decision reached as to the rights of the respective parties.

It appears that the ground now claimed as the Davitt mine was formerly located as the Far West, and the following notice was filed with the County Recorder, at the time of the location.

Notice is hereby given that the undersigned claim 1,500 feet along this mineral lode, for mining purposes, with 300 feet each side of the vein, 600 feet northwesterly and 900 feet southwesterly. Located May 7, 1881, Alturas county, Idaho Territory, Mineral Hill District. This claim will be known as the Far West lode. The discovery shaft of the Far West is located on the south side of Deer Creek, southwesterly of Hot Springs about one-half mile, also about 1,500 feet southeast of the Snow-Fly mine.

J. M. TAYLOR,
STEPHEN MULVEYHILL.

TERRITORY OF IDAHO,
COUNTY OF ALTURAS.

I, Stephen Mulveyhill, do solemnly swear that I am acquainted with the mining claim described in notice of location herewith called the Far West, and that to the best of my knowledge and belief said claim, or any part thereof, has not been heretofore located according to the laws of the United States and of this Territory; or, if so located, that it has been abandoned or forfeited by reason of the failure of the locators to comply in all respects with said laws.

S. MULVEYHILL.

Sworn to this 9th day of May, 1881.
W. P. CALLAHAN,
County Recorder.

By D. HARRINGTON, Deputy.

Upon the county records also appears later the following notice of location:

NOTICE.

We, the undersigned, having complied with the United States mining laws, and also the local customs, do claim 1,500 feet on this lode or ledge, or mineral-bearing vein, in length, by 600 feet in width. This claim is more particularly described as follows: Commencing at this stake and discovery shaft, and running in a southerly direction 750 feet, thence in an easterly direction 300 feet to southeast corner stake, thence in a northerly direction 1,500 feet to northeast corner stake, thence in a westerly direction 600 feet to northwest corner stake, thence in a southerly direction 1,500 feet to southwest corner stake, thence in an easterly direction 300 feet to south center end stake, thence 750 feet northerly to discovery stake. This claim is to be known as the Davitt lode or mine, and is situated in Mineral Hill Mining District, Alturas county, Idaho Territory, and is 250 yards from the Montana in a northeasterly direction. Located June 3, 1882.

M. WILEY,
PATRICK FLYNN,
THOMAS BENTLEY,
JAMES P. MOTHERWELL.

The certificate of location was sworn to by Thomas R. Bentley, on June 5, 1882, before Deputy County Recorder Harrington.

It is claimed by the locators of the Davitt mine that when they were prospecting on the ground they discovered mineral, and after examining the ore decided to locate a claim, which they did, and called it the Davitt; and they state they could find no evidences whatever of any prior location on the ground, nor any stakes, notices or monuments.

J. M. Taylor and Stephen Mulveyhill claim to have located the Far West in May, 1881, according to law, and to have owned the ground when the Davitt location was made over it, June 5, 1882, by M. Wiley, Patrick Flynn, Thomas Bentley and Jas. P. Motherwell.

Stephen Mulveyhill, half-owner of

the Far West, went to Lake Valley, New Mexico, shortly after locating. The Davitt locators started work on the ledge and opened up the rich body of ore which has continued to the present time. Upon the announcement of the strike, Harvey Hardy, who knew of the location, went to Lake Valley and purchased the interest of Mulveyhill in the Far West and returned to Hailey, when he effected a sale of the interest to Willis McBride, for a round sum, and now McBride is contesting the application of the Davitt locators, upon the right he has purchased in the Far West, covering half of the ground claimed by the Davitt locators.

FROM LEE'S GULCH.

Joe Garrison Reports on that Tributary—He Says there are Eight Paying Mines Opened, Three of which are Shipping Ore.

Joseph G. Garrison came into Hailey from Lee's gulch, to-day. He says that there are eight paying mines in the gulch, to wit: The Joe Garrison, Moscow, Bob Ingersoll, Arrow, Chicago, Lily, Joseph, and Humburg.

The Moscow, Chicago and Arrow are having ore hauled to the smelter just built at Bellevue. The Joe Garrison is not shipping any ore, but shows a vein eight to 18 inches wide of ore that assays \$500 per ton.

Mr. Garrison is conducting operations at the Garrison mine, and has laid in supplies to work all winter.

He receives the DAILY TIMES regularly, and says that it is the best read and most popular paper in Lee's gulch and vicinity.

The Narrow Gauge Mines.

John A. Wilson, who succeeded Asa W. Clarke as Superintendent of the Narrow Gauge group of mines, on Deer Creek, was in Hailey to-day on business. Mr. Wilson was engaged eight years at the store of John V. Farwell, in Chicago, and afterward in the mines of Leadville a period of two years. He has excellent quarters at the mines, including a fine office and assay outfit.

Two levels are being run in the Narrow Gauge mine No. 1. The upper level is in 133 feet, and the lower one 86 feet. A chute of fine ore was cut in the upper level, and is expected to be reached very soon in the lower one. Fourteen men are engaged at the mines, and work will be continued all winter. Next spring the company will ship a jigger to the mines to concentrate the second-grade ore.

Brown's Moore.

"'Twas ever thus, since childhood's hour
I've seen each stomach-ache decay,
And when I felt dyspepsia's power,
Brown's Peppin Tonic drove't away."
La! La! Book!

Probate Court Proceedings.

Probate Judge S. B. Dille heard the evidence in the case of Dr. E. S. Murray vs. M. Hynes, at 1 p. m. yesterday. Suit was brought to recover \$445.78 for professional services. Kingsbury & McGowan for plaintiff.

A case has been entered on the docket by H. H. Warner, against Phelps & Graham, for failing to receive a safe contracted for and deliverable at Blackfoot. The demand is for \$110. Texas Angel is attorney for plaintiff. The suit will probably be arbitrated.

The Thanksgiving Ball.

Everybody should turn out for the Thanksgiving Ball at Hailey Theater to-morrow night. There will probably not be another grand ball before Christmas, and those who are fond of dancing will therefore not have a chance to enjoy their favorite pastime before that date.

Brown's Shakespeare.

OTHELLO (suspecting). "Methinks I scent a mouse!"
Or is't a humor in my blood?"
IAGO (aside). Brown's Liver Pills, if in the house,
Would nip this humor in the bud.
Oh! they yell. O. Act 4th-with.

Brown's Robt. Burns.

Now, wha this tale o' truth shall read,
Ilka man and nither's son tak heed,
When auld Nick wad gi' ye cough or cold,
Brown's Cough Balsam cures. My tale is tauld.
Tam o' Shanter.

Brown's Shakespeare.

CASSIUS (honrably). "Ye Gods, my throat is sore!"
BRUTUS (smiling). — "Brown's Tar Froches try, and wheeze no more!"
Julius! Szeze her!

T. N. Snow, M. D.,
PHYSICIAN AND SURGEON,
Bellevue, Idaho.

— THE —

WOOD RIVER TIMES

— IS THE —

REPRESENTATIVE NEWSPAPER OF THE GREAT WOOD RIVER MINING REGION.

It circulates throughout the United States and Canada to a greater extent than any other paper published in the rapidly growing Territory of Idaho, and its circulation is

More than Treble that of All Other Wood River Papers Combined.

The Daily Times

Is published Every Evening (Sundays excepted), and contains an account of all local happenings of general interest, as well as the most reliable reports obtainable of the

Yield of Our Mines, Smelters and Mills.

Terms of Subscription:

The DAILY TIMES is delivered by carrier in Hailey, Bullion, Bellevue and Ketchum, for 50 cents per week, payable to the carrier; and it is sent by mail, on receipt of \$20 for one year, \$10 for six months, or \$5 for three months.

The Weekly Times

Is carefully compiled from the columns of the DAILY TIMES, and contains all the articles relating to the Mines, Mills, Smelters, weather and general progress of this vast region, which appear in the DAILY. It is a sheet 24x36, and the price of subscription is only THREE DOLLARS PER YEAR, ONE DOLLAR AND A HALF per half-year. Sent by mail, postpaid, on receipt of price.

AS AN ADVERTISING MEDIUM

The Wood River Times,

(DAILY AND WEEKLY)

Makes no claim whatever, and leaves that subtlety to less appreciated publications. But, in substantiation of its claim to be the representative paper of this region, it can point proudly to its record. Founded on the 15th of June, 1881, as a weekly, in LESS THAN ELEVEN MONTHS it had grown into a DAILY and WEEKLY, with telegraphic dispatches brought in over 160 miles by stage, and published daily at a monthly cost of over \$500!

The WOOD RIVER TIMES is published at HAILEY, the seat of the vast and rich Alturas county, the chosen terminus of the Wood River Branch of the Oregon Short Line Railway, and the Commercial, Political and Social Metropolis of the Wood River and Sawtooth Region.

ALL ADVERTISEMENTS are published in both the DAILY and WEEKLY TIMES, unless otherwise ordered.

For rates, apply at the office, or of any of our regular patrons.

T. E. PICOTTE, Publisher,
HAILEY, IDAHO.
