Lund & Anderson have received a lot of their fall and winter goods. Go and see them. The finest assortment of carpets in Idaho 35 cents and upward a yard—at S. J. Friedman's.

Hank Lufkin left to-day for Denver, on business that may keep him away a month or so. Ice by the pound, ton, or car-load. Orders may be left at Willman & Walker's. PURDAM & WARD.

J. T. ("Zack") Gilmer passed down the road on the train, to-day, in company with Senator Hearst. E. C. Coffin, of Coffin & Co., went out to Smoky, day before yesterday, and is expected back in a day or two.

Hon. Fred. T. Dubois, delegate in Congress, came in to-day from the Bayshore and Salmon river country. William Tatham, a prominent capitalist and mining man, arrived from Helena to-day, to remain here about one week.

The real estate agents report considerable inquiry for lots where the business portion of town is liable to spread, when the expected "boom" strikes us. If you can get away for a summer vacation, it is best to go. If you cannot, you will find great comfort in the reflection that there is no place like home.

The new strike in the Relief mine, reported in this paper about one week ago, promises to develop into a bonanza fully equal to that in the Minnie Moore mine. George Fayler, Superintendent of the Junction mine, will remain in San Francisco until an expert sent out here to examine the property shall return there and report.

Mr. and Mrs. Orville B. Young go back to-day from their protracted wedding tour through the Eastern States. As they were East during the heated spell, they must be delighted to be "back to our mountains." Andy Nelson left for Galena, to-day, to resume work on the Wallington claim, which he has leased for one year, with the privilege of buying at any time for \$6000. Mr. Nelson thinks that he can extract the price of the mine before the lease expires.

James Moffet and J. B. Cleveland, two prominent financial and mining men of Montana, came in to-day from Butte. Mr. Cleveland was here a short time ago with Mr. Branagan,

and his return here at this time would seem to indicate that he saw something, while here before, which he wishes to look at again.

Camping parties are all the rage here, this season. And well they may be, as a more delightful experience than camping out in our mountains in summer, with grouse and brook trout so plentiful that all become satiated with them, cannot well be found. And as this region becomes more thickly settled camping grounds will command a premium and be visited by tourists from all parts of the world.

Deer Creek is decidedly coming to the front. The Champion Gold Company's mill has just been started up and is working well, the Montana and Snow Fly are employing more men than ever, the Emery and Nay Aug claims are proving to be very rich, the old Wolfstone and Washington mines are again yielding pay ore, so are the Narrow Gauge No. 1 and the Redcloud, etc. By next year Deer Creek will have a genuine boom, that will come to stay.

HEALTH INSURANCE.

A Proposition to Substitute a Fixed Salary for the Occasional Doctor's Bill.

Woods Hutchinson, M. D., in the North American Review for August, makes some suggestions touching the relation of doctor and patient, which deserve general consideration. "Is the system," asks Dr. Hutchinson, "of making a physician's income from a family or community depend solely on the amount of sickness occurring in it the best that can be devised?" Put in this way the question answers itself. Of course such a system is not the best that can be devised. It is simply astonishing that it should have held its own so long.

The reform which Dr. Hutchinson advocates is in brief this: He would have the individual citizen or family (as the case may be) make it a part of the regular New Year's business to engage a medical attendant for the ensuing 12 months—the amount of salary and method of payment (in advance, quarterly, or monthly), to be fixed by mutual agreement. He would have the physician contract on his side, in consideration of this salary duly paid, not only to render any ordinary professional services which may be required during the year, but also to look after the sanitary condition of the house and premises, and to suggest any change he may see to be desirable in diet, habits of life, etc.; in short, to act as general adviser, guide, philosopher and friend in all matters of hygiene and therapeutics. The fixed salary once substituted for the dreaded "doctor's bill" of the present system, there would no longer be any reason for unwise delay in sending for the physician, or unwise haste in dispensing with his services. Thus he will have a better chance, and the patient will have a better chance, too.

Dr. Hutchinson baptizes the reform "health insurance." It isn't a bad name, either.

Coming to Settle in Hailey.

Mrs. J. R. Bowers is again with us. This time she is accompanied by Mrs. J. P. Wilson, wife of the Sheriff of Ada county. Both ladies come to enjoy our invigorating mountain air during the heated term in Boise, and will return in about one week. Mrs. Bowers, however, will only go to lease her ranch, in order to return here with her family at the earliest opportunity. She has noticed such improvement in her health at every visit here that she has concluded to make the sacrifice of breaking up there in order to come to a climate which agrees with her to such a degree.

UNITED STATES SENATOR HEARST.

He Will Not Oppose the Partition of Idaho, but May Even Try to Annex a Portion of Montana.

Governor Stevenson and Hon. John M. Cannady went up to Ketchum, today, to interview United States Senator Hearst and Hon. Fred. T. Dubois, delegate in Congress from Idaho, on the question of segregation and annexation.

A gentleman who had a long conversation on the subject with the gentlemen named, last night, informs the TIMES that Senator Hearst is emphatically opposed to any segregation or annexation of Idaho. Senator Hearst will not only oppose the partition of Idaho in the Senate, but may even endeavor to rectify our northwestern frontier by annexing to Idaho all that portion of Montana lying west of the 34th parallel of longitude—thus giving to Idaho the cities of Virginia, Butte, Bozeman, Helena, etc., which constitute the wealthiest part of Montana, and making of Idaho essentially a mining and stock-raising Territory.

Were this done, then all the Territories would be ready for Statehood, and could be admitted into the Union by a general act.

Senator Hearst left to-day for Butte, Montana, where he is to meet J. B. Haggin in a couple of days, to look into the details of a vast mining operation. After which he may return to Wood River, unless something unforeseen happens, in the meantime, that will require his presence elsewhere.

I. O. O. F.

Mountain Home Lodge, No. 19, Installed Last Monday.

Last Monday, the 15th inst., Monte B. Gwinn, Grand Master I. O. O. F. of Idaho, with the assistance of D. L. Badley, Deputy Grand Master, and Herman Krause, Grand Warden, instituted Mountain Home Lodge, No. 19, installed its officers, and initiated 21 new members. The officers installed are as follows:

- Noble Grand—Frank Mason. Vice Grand—Geo. M. Payne. Rec. Sec.—G. L. Alley. P. Sec.—A. A. Curtis. Treas.—J. M. Hager. R. S. to N. G.—C. J. Edson. L. S. to N. G.—John Swazer. L. S. to V. G.—John Mitchell. R. S. to V. G.—E. B. Hill. Chaplain—Robert Brown. Warden—Richard Bennet. R. S. S.—W. J. Turner. L. S. S.—J. H. Miller. O. G.—George Crandel. I. G.—M. Johnson.

In quality of membership and financially Mountain Home Lodge started under the most favorable circumstances.

A number of brethren from Caldwell Lodge, No. 10, assisted the grand officers, and the ladies of Mountain Home vied with each other in entertaining them.

A Tough Old Rooster.

It is said that in Portland, Maine, there is a man with a false nose, a glass eye, but three fingers and one thumb, one ear, false teeth, false hair, and a cork leg. For all this he is the liveliest man in Portland. He walks ten miles every day, rain or shine. He has had three wives and survives them all, and has refused five chances to get married again, so he says, since he buried his last wife, about a year ago.

Results of Potter's Management.

The Chicago Times of recent date says: Vice President T. J. Potter may well be pleased with the results of his management of the Union Pacific, as set forth in the figures for June. These have not been officially published, but the Times had a glimpse of them yesterday, showing the gross increase for June at \$282,369, a decrease in operating expenses of \$223,948, and making the net increase for the month \$506,316. The net increase for the six months ending June 30 was \$1,129,136.

The Times, in speaking of the policy of Mr. Potter since his connection with the Union Pacific, says:

They tell some amusing stories of the manner in which Manager Potter, of the Union Pacific, swept the useless timber out of some of the departments of that corporation. It is said that one chief had 41 clerks to help on his work, and that a brief examination convinced Mr. Potter that 39 of them were superfluous. As a consequence that official is getting along at the present time with just two subordinates. Radical reductions of a

like nature have been made elsewhere, and more are to follow. Perhaps the chiefs of departments were not so much to blame, as gossip has it that Harvard graduates were sent out there by scores, with orders that they be set at work to learn the profession of railroading, and orders had to be obeyed and places found for them. It would seem as if the school had been broken up.

Advertising in Dull Times.

Many people think it does not pay to advertise in dull times, lest advertising bills will be hard to pay. A little observation teaches one that, with the prospects of dull times, the shrewd business man, knowing that he is likely to have things his own way on account of the fears of his more conservative competitors, seizes the opportunity to push things.

Printers' ink can out-talk any salesman, out-argue any obstinate buyer. It can't be talked back to, and when its opponent has expended every argument against the subject, comes up smiling every time with the same old statement, and finally leads him in tow and willing to be convinced. That's why you advertise.—Weekly Herald of Trade.
