

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick of well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from any store that handles drugs which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

Penn's Descendant to War.

Vernon George Green, thirty-five years old, a musician, in applying at Sheerness for absolute exemption from service on the ground of ill health and conscientious objection, made the claim that he was the great-grandson of William Penn, who was born 273 years ago. In his written appeal he said:

"I was brought up under strict Christian principles not to take life in any form, my great-grandfather being William Penn, Quaker, founder of Pennsylvania." The tribunal refused exemption to Penn's descendant.—London Observer.

The Cause.

A Philadelphia woman has long purchased fish from a certain market dealer of that city. One day, when the prices seemed much too high, the housewife complained; and her complaint was met by the following rejoinder:

"Yessum, fish is high—yessum! Ain't no doubt 'bout that! Fish is awful high! Ye' see, mum, fish is gettin' scarce on account of all these heah aquariums!"—Youth's Companion.

Sarcasm.

"Hadn't you better let me clip a little from the ends of your hair?" queried the tonsorial artist. "Why from the ends?" queried the victim in the chair. "Can't you clip a little from the middle?"

CARRANZA ABLE TO COPE WITH VILLA

MINISTER OF WAR ANNOUNCES HOPES OF ARRANGING FOR RETIREMENT OF AMERICANS.

Emphatically Denies Reports of Break With Mexican Chief and Believes Mexican Troops Will be Able to Capture Bandit.

Chihuahua, Mexico.—General Alvaro Obregon, minister of war of the de facto government, will submit his assurances to Major Generals Scott and Funston at their coming conference in Juarez or El Paso that the Carranza forces are now fully able to cope with the Villista bandits that are operating in southern Chihuahua.

Before his departure for Juarez, General Obregon, who was accompanied by General Trevino, Carranza commander at Torreon, outlined the official proposals that he intends to submit to Generals Scott and Funston. Incidentally the Mexican minister of war refuted reports that there was any friction between himself and General Venustiano Carranza.

General Obregon was most emphatic in denouncing the reports which he said had been circulated in the United States that he had broken with the first chief.

"I wish to emphatically deny the inventions of the American yellow press which has insinuated that there is friction between myself and General Carranza," he said. "I wish further to state that there is perfect harmony among all the chiefs of the constitutional cause."

MARTIAL LAW IN IRELAND.

Revolt Which Broke Out in Dublin Has Spread to Other Parts.

London.—Martial law has been declared throughout Ireland and Major General Sir John Maxwell, who until recently commanded the troops in Egypt, has gone over to take charge, the Irish executive officials having placed themselves under his instructions. He has been given full disciplinary powers for the extension of the operations and the suppression of the rebellion.

The revolt which broke out in Dublin Monday has spread to other parts of Ireland, chiefly to the west and south. This information, together with the fact that the rebels still are in possession of parts of the city of Dublin, was given to the nation by the ministers in parliament on Thursday.

ANOTHER REVOLUTION ON.

General Carrasco, Former Carranzista, Revolts in Sinaloa.

San Francisco.—General Juan Carrasco, heretofore a Carranza follower, has started a revolution in southern Sinaloa against the president of the de facto government of Mexico, according to an unconfirmed report from the west coast by officials at the Mare Island navy yard.

Doctor Marshall Acquitted.

Salt Lake City.—After the state had completed the introduction of its evidence in the case of the state against Dr. Herbert D. Marshall, charged with murder in the first degree for the alleged killing of Mrs. Marshall, a motion by the defense for a directed verdict of acquittal was sustained by Judge C. W. Morse and the jury without leaving the box returned a verdict of not guilty.

GERARD WILL VISIT GERMAN EMPEROR

AMERICAN AMBASSADOR INVITED TO CONFERENCE ON THE SUBMARINE QUESTION.

German Press Takes More Hopeful View of Situation, Believing That Understanding May Yet Be Reached and Conflict Avoided.

Berlin.—James W. Gerard, the American ambassador to Germany, left Berlin Thursday night for the German army headquarters, where he will be received by the German emperor.

Dr. von Bethmann-Hollweg, the German imperial chancellor, who has been at the army headquarters, is expected to come to Berlin to prepare Germany's answer to the latest American note.

Foreign Minister von Jagow called on Ambassador Gerard at the American embassy twice on Thursday.

The Frankfurter Zeitung's Berlin dispatch takes a more hopeful view of the German-American situation. After referring to the various conferences already held and to be held, it adds:

"It is naturally impossible to say what will come from these. But outward circumstances confirm the opinion that hope need not yet be surrendered, that a way to reach an understanding and avoidance of a conflict between Germany and the United States can be found.

"The views of political circles vary slightly regarding the significance of such a conflict in connection with the world war in which we are involved, and the group of politicians and publicists who now, as formerly, are endeavoring with all arguments to prove that the conflict is American, and that, as a consequence the submarine warfare carried on by us without all scruples would mean an advantageous development for us, is, after all, very small."

INTERVENTION NEAR, SAYS KNOX

Secretary of State in Taft's Cabinet Talks on Mexican Situation.

Pittsburg, Pa.—Philander C. Knox, secretary of state in President Taft's cabinet, explained at a Republican banquet here Thursday night why Mr. Taft did not recognize General Huerta as president of Mexico, replied to the assertion that President Wilson inherited the troublesome Mexican situation from his predecessor and denied that President Lincoln's course may be likened to President Lincoln's during the period preceding the Maximilian empire.

Intervention in Mexico, the former secretary declared, seemed "dangerously near, if not inevitable."

Coal Strike Ended.

New York.—The differences between the bituminous miners of district No. 5 in Pennsylvania and their employers over the interpretation of the contract drawn up at the soft coal conference here last February were adjusted in a satisfactory manner to both sides Thursday, and the miners have gone back to work.

KAISER HOPES TO PREVENT RUPTURE

DEVELOPMENTS INDICATE DESIRE TO FOLLOW COURSE THAT WILL PREVENT CRISIS.

Public Opinion is Divided, However, One Faction Asserting It Would Welcome a Breach With America With Feeling of Relief.

Berlin.—It is learned that developments are pending which demonstrate unmistakably the desire of Emperor William to follow a course which will lead Germany and the United States out of the present crisis. The situation is viewed more optimistically here.

Public opinion in Germany respecting the American note remains divided in two main directions. One, represented by Count Ernest von Reventlow, the naval expert of the Tages Zeitung, and his adherents, which is small but vociferous and powerful, continues to assert it would welcome a breach with America with a feeling of relief. The attitude of the other group is indicated by a remark of Theodor Wolff, in the Tageblatt, that not they, but England and other enemies of Germany, would welcome a breach "with a feeling of relief."

What will come of the deliberations now progressing concerning the note cannot now be indicated, but it can be said that the attitude of responsible leaders is plainly that indicated by Mr. Wolff and that, whatever the decision may be, it will be reached with a full appreciation of what a rupture might mean.

FRENCH GUNS STOP RUSH OF INVADERS

ATTACKS NORTHEAST OF VERDUN FOLLOWING BOMBARDMENT FAIL OF PURPOSE.

Irish Regiments Get Special Mention for Bravery in Counterattack Which Drove Germans Out of Section of Trenches.

London.—The sectors of Avocourt, Eanes and Cumieres, northwest of Verdun, are still under the same heavy bombardment that has been in progress for several days. No infantry attacks by the Germans have been attempted here, according to the Paris official communication, but an attempt at an advance probably is imminent, as these artillery preparations usually presage an attack.

The Germans to the northeast of Verdun, to the front of Houdremont and the Thiamont farm, and between Douaumont and Vaux essayed attacks following violent bombardment, but the French curtain of fire held them to their trenches.

Artillery engagements have featured the fighting on the other parts of the line in France and Belgium, although the French aircraft have carried out bombing operations against numerous German positions.

The Irish regiments get special mention for bravery in counterattacks, which drove the Germans out of a section of trenches where they had gained a footing with the help of gas and an artillery curtain of fire.

The German guns are keeping up their heavy bombardment of the Russian position at the Ikskull Bridgehead. Farther south the Teutons launched an infantry attack near Baranovich, but were repulsed. Still farther south the Russians have captured the village of Chromiakoua, along the Rovno-Kovel railway.

In Asia Minor, to the south of Bitlis the Russians have dislodged the Turks from all their positions in the mountains, says the Petrograd communication.

TEACH KINDNESS TO ANIMALS.

American Humane Association Has Planned Nation-Wide Movement Along This Line.

Albany, N. Y.—May 21 is to be observed by hundreds of churches throughout the United States as "Humane Sunday." At this time clergymen are being urged to preach special sermons on the subject of kindness. The movement is under the direction of the American Humane association of this city, which is prepared to send out a large amount of literature dealing with this subject. A most valuable leaflet has been prepared for clergymen which may be had on request.

The week of May 15-20, inclusive, will be known as "Be Kind to Animals Week" by societies for the prevention of cruelty to animals. During this week every effort will be made to emphasize the economic and moral value of treating animals humanely. Boy scouts and camp fire girls are co-operating to make the movement a success. Work-horse parades, common dog shows, illustrated lectures and the distribution of humane literature are a few of the special plans laid out by the local societies. The anti-cruelty movement, is making very rapid progress throughout the United States. There are now 562 anti-cruelty societies, a slight gain over last year. These organizations handled cases involving 212,215 children and 2,394,721 animals during 1915.

Roosevelt Urges Preparedness.

TRAITS OF ANIMAL

Even the Most Famous Have Been Unable to Satisfy

There are a great many facts about animals that seem to defy explanation. A few, an exchange of a fly will crawl to the window pane, fly back to the window pane, fly back to the window pane, fly back to the window pane.

A mouse overlooks a food supply, sufficient to enjoy the performance of an unlimited store. It is hungry, for it is not true, it will seek its hole at the end of the world. If a small snake is fed and cared for, tame, and after a few days its captor for food, this is true especially and harmless varieties. The unerring ability of a pigeon to find its way to a natural instinct, the dogs have displayed their homes.

Will Kill Germs. Of the 50,000 school children in this country who are the preventable disease, that a goodly per cent contracted disease from the points of pencils.

To prevent this deadly germs of pencils, a new device has just been invented. It is a specially designed pencil case, upon which pencils are placed in sockets, resting in sockets, acted upon by a fan, which kills the germs. To get the best results, two sets of pencils should be used. While one set is in use, the other can be undergoing treatment. Thus by changing pencils, the danger of the spread of germs will be cut in half.
