The Idaho Recorder.

ESTABLISHED 1886

SALMON, IDAHO, SEPTEMBER 23, 1921

VOL. XXXVI NO. 31

ELYYN TAKES HOLD POR G. AND P. R. R.

APPOINTED POTATO INSPECTOR STATE IN SAME CONNECTION. ON LEAVING SERVICE OF

The public service suffered a distinct loss in the resignation of James Melvyn, as will be sufficiently plain when it is learned that immediately afterward the G. and P. railroad management sought an dobtained his management sought an dobtained his services in the same connection; that of inspecting potatoes for outside shipment. Superintendent Bichler, who spent last week in Salmon, personally made the appointment as soon as it was ascertained that Mr. Melvyn's services could be obtained. The resignation was said to be the result of some political juggling in the state agricultural department that didn't make a hit with Mr. Melvyn at all, for being straightforward himself he wants nothing to do with double dealing. His work for the the railroad is to see that potatoes received for shipment are not frosted or damaged otherwise before received. This is highly important and responsible service for the shipper as well as for the railroad company. Mr. Melvyn entered upon his duties on Friday last. Before potatoes are accepted for shipment by the railroad he must give his O. K.

Is it any wonder that the public so often gets the worst of it when as in this inconspicuous instance the public fails in proper appreciation?

A car shortage is imminent, according to reports that reach Salmon. Superintendent Bickler of the G. and P. said on Saturday last that he could hardly hope to supply all the refrigerator cars that would be required as promptly as he would like to be able but would be on the job all the time and get the cars if they were obtainable. He advised shipping in box cars before cold weather rather than waiting for cars.

HE BUILDS HIS HOUSE BY services in the same connection; that

HE BUILDS HIS HOUSE BY

Billy Collins, who has the makings of a fine ranch on the Lemhi just above High Bridge, was in Salmon wear, Wednesday, as a passenger with L. T. Ramsey, Lemhi merchant. Mr. Collins some years ago discovered that a portion of the old agency reservation had been set aside for a power site. He thought the place not at all adapted for power development because the G. and P. railroad ran directly through it. He wasn't long in taking up the matter with the general land office and the surveyor general at Washington, with the result that two years ago he was permitted to make an entry thereon, thus confirming his valuable rights to the adjacent reservation, which comprises 120 acres of mighty good land. Better still the most of it is ready to be reclaimed, with the old Indian ditch available for placing water on nearly all of the acreage. Friends of Collins are asking him how it came that he found such an opportunity to make a home for himself and he smiles as they congratulate him on his good fortune. This summer the settler built himself a comfortable dwelling which Wednesday, as a passenger with L. T. Ramsey, Lemhi merchant. Mr. Collins some years ago discovered an opportunity to make a home for himself and he smiles as they congratulate him on his good fortune. This summer the settler built himself a comfortable dwelling which stands invitingly by the side of the road.

Right Sort of Distinction.

It is a matter for pride among the school children of the state of Idaho that this state has won the interstate loving cup, to capture which the school children in 48 states participated in the Modern Health Crusade. This is the first time that the beautiful silver trophy has come west. The cup, one of the largest of the kind, of silver, with ebony base and gold lined, stands 32 inches high and must be won three consecutive times school children of the state of Idaho that this state has won the interstate loving cup, to capture which the school children in 48 states participated in the Modern Health Crusade. This is the first time that the beautiful silver trophy has come west. The cup, one of the largest of the kind, of silver, with ebony base and gold lined, stands 32 inches high and must be won three consecutive times to become the property of any one state. Iowa won it last year, South Dakota announces that she has a niche in the state house ready for it, but Idaho's school children are already "digging in" to keep it another year. Meanwhile they are forming "health habits" which will make for health and happiness in the future.

The cup will be sent to the Idahoo Anti-Tnberculosis association as sond as engraved. Mrs. Athey, executive secretary of the association, announces that the cup will be turned over to the State Superintendent of Instruction, Miss Ethel E. Redfield, who is delighted with Idaho's success. Arrangements will be made to send the cup over the state so that the children may see it.

Detained at Courthouse.

School starts October 10th so please Alice Brady in SINNERS and ends with Constance Talmadge in SEARCH OF A SINNER.

TEXT OF HAYDEN BILL AS PASSED

The Hayden bill changing the period of doing annual assessment work on unpatented mining claims from the calendar year to the fiscal year beginning at noon on July 1, passed by the House August 1 and the Senate August 17, was signed by the President and became a law on August 24. It extends the time for work in 1921 to 12 o'clock noon, July 1, 1922. The act reads as follows:

Be it enacted by the Senate

work in 1921 to 12 o'clock noon, Jul., 1922. The act reads as follows:

Be it enacted by the Senate and House of Representatices of the United States of America in Congress assembled, That section 2 of "An Act to amend sections 2324 and 2325 of the revised statutes of the United States concerning mining lands," approved January 22, 1880, be, and the same is hereby amended to read as follows:

Sec. 2. That section 2324 of the Revised Statutes of the United States be amended by adding the following words: 'Provided, That the period within which the work required to be done annually on all unpatented mineral claims located since May 10, 1872, including such claims in the Territory of Alaska, shall commence at 12 o'clock meridian on the 1st day of July succeeding the date of the location of such claim: Provided, further, That on all such valid claims the annual period ending December 31, 1921, shall continue to 12 o'clock meridian, July 1, 1922.

\$4,700,735.76 Increase in Receipts.

\$4,700,735.76 Increase in Receipts.

The first of a series of sectional conventions of managers of the great chain of J. C. Penney company stores was held in St. Louis on September 16th and 17th. Over a hundred managers were in attendance. Other conventions will follow at St. Paul on September 23rd and 24th, Portland on September 30th and October 1st, and Salt Lake City on October 7th and

8th.

Prevailing conditions as they are generally understood to exist are not reflected in the financial report of this nation-wide institution, which shows that for the first eight months of this year the gross receipts were \$4,700,735.76 in excess of the figures for the corresponding period of last year.

APPLES AS WELL AS AND NOW COMES POTATOES TO SELL

GETTING GOOD RETURNS ON STRONG MARKET.

Like the onion crop in Bermuda the potato crop in Lemhi this year furnishes the topic of conversation whenever two or three persons are gathered together. The potato market continues strong all over the east. "Good morning; have you sold yet?" is the salutation that one grower makes of another when they meet.

The price on Idaho main line points has continued around the \$1.30 mark for the past week. This is 24 cents above the relative value of potatoes in Lemhi for the reason that the local freight rate of 24c must be taken into account by the buyer here.

Car shortage is likely to cause anxiety for shippers within the next month or two. The railroad people advise the use of box cars before the reall cold weather sets in to endanger shipments in transit, the shipper of course taking the risk in such shipments, while in refrigerator cars the railroads guarantee safety from frost.

A. L. Lefort, who came to the Sal-

ailroads guarantee safety from fros A. L. Lefort, who came to the Sa

ments, while in refrigerator cars the railroads guarantee safety from frost.

A. L. Lefort, who came to the Salmon country as a representative of the Gilinsky companies of Omaha, has put considerable ginger into the local market. Before his advent, the Northwest Potato Exchange of Great Falls had pretty well lined up the Lemhi product to be handled on a ten per cent commission basis; that is fully half the acreage had been contracted at that figure, while the Gilinskys undertook to buy outright or sell on commission at the same rate of ten per cent. There is a difference, however, for the one charges the commission on the gross sales and the other charges on the net sales, the one amounting to practically twice the one amounting to practically twice the other. S. E. Ensley is the representative on the ground for the Exchange people, and he, too, is a live wire on the job.

There is a railroad inspector and a state inspector, besides Ensley and Lefort. James Melvyn is on the job as inspector for the railroad and L. E. Tillotson for the state. Lefort, who was first actually on the ground making shipments, has given a good many pointers as to the correct manner of grading and storing in the cars and his presence has proved invaluable to the growers, among whom he has made strong business friendships. Learning in the course of his potato deals that Lemhi has an abundant apple crop this year he has advised his house that this crop might be profitably handled and will probably be buying apples or handling them on commission before the potato season ends. He says Lemhi apples should this year bring a pretty penny to the growers, for the crop is short in some parts of the middle west.

The best advices are to the effect that late potatoes will reach the two-dollar mark net for the Lemhi grower before the sale closes, while twice that price may prevail late in the winter. In this state of the market a large storage cellar would be a fine thing.

Railroad Potato Inspector Melvyn was advised yesterday that 20 refrigerator

Railroad Potato Inspector Melvyn was advised yesterday that 20 refrigerator cars would be available at once for shipments from Salmon and Baker. In the train which came in last Wednesday were two cars for potatoes which were promptly loaded out during the night for shipment the next day, one of the cars having been loaded with merchandise on the way in from Armstead. The railroad management thought this pretty good work. The railroad people appreciate this promptness.

Isabel Brenner is the baby daughter of Mr. and Mrs. Charles Brenner, born September 1. The mother is a daughter of Mr. and Mrs. T. H. Yearian and now resides on Horse prairie.

LIVESTOCK EXHIBITS

Livestock for the Lemhi county fair will he moved free of charge to the exhibitors, according to the liberal announcement of Superintendent Bichler. The plan is to have the exhibitor pay the freight charges for such shipments to the fair and if the same be sold the railroad is to retain the amount thus paid. If the shipments are to be returned by the owner then in that case the charge already paid will be refunded and there will be no charge for the return.

The G. and P. has made an arrangement with the Short Line management as to a charge for one way only for shipments to other fairs. All who avail themselves of this liberal policy will be required to pay for the in-

icy will be required to pay for the in-itial shipment and get it back home

MRS. JOE WRAY.

MRS. JOE WRAY.

Mrs. Rachel, wife of Joe Wray, stockman and partner of Clarence Palmer, died at her home on Fourth of July creek, yesterday morning aged about 50 years. The burial is take place at Gibbonsville today at 3 p. m. Mrs. Wray leaves two grown step-daughters, the elder being the wife of Clarence Palmer. The deceased sustained severe injuries about a year ago in a broken hip, from betes was the immediate cause of her which she never fully recovered. Diadeath.

Mrs. Bradley, Mrs. Wilson and Mrs. Renner. Edson and Lawrence White, Hubert Yearian, Clarence Fowler and Mrs. William Yearian provided the dance music.
