**New Year RESOLUTION**

Resolve January first that you will commence to deal at Viel's Cash stores where you save something on every thing you buy—and at the end of the month, what a pleasant thought to know that all the groceries in your house are paid for while the fellow on credit has to pay for all he has eaten the past month and all he has in stock and some of the grocery bills are an awful jolt to a man's system the first of each month.

As you know and I know and everybody else knows that anybody buying on credit buys many things they don't need and sometimes twice as much of many articles as they can use simply because they don't have to pay for it at the time. But oh, that pay day!

How much more contented are the people who pay cash than those who have heart-breaking bills to pay on the first of each month. Think it over and think what you save by paying cash and that you are not one of those who are paying the bills of the other fellow who beats his bills at the credit store.

How much better off would have been the people of Lemhi county if they had been on a cash basis the past 5 years. Well, let us give you a little tip. It's not over yet and won't be for from 2 to 5 years more, so the sooner you go on a cash basis and stop paying the bills of the fellow who doesn't pay and begin to save 10 to 25 per cent on your groceries, the sooner will you get on your feet and be prepared to take advantage of any bargain in many lines that will come up to the man who has the cash. Make your New Year's Resolution today and start right. We want to thank you all for the wonderful business you have given us during 1922 and wish you all a Happy and Prosperous New Year and many of them.
