## Real Bargain Days for the Man Who Builds

For the man who plans to build, repair or remodel, this is certainly a favorable time. Not for four years have building conditions been so right as they are now.

In many cases our prices are 35 per cent lower than those of a year ago. Building materials have all come down with a crash.

The whole country is about four years behind in its building and this community, like every other, is short of houses and barns.

People must build, soon. Increased building, bound to come, will not lower the prices any more.

## Conditions Are Right to Build

Come in and let's put down in black and white just how much you can save by prompt action now.
