

ON HOW TO KEEP COOL WHEN YOU GETS HOT

All uv these here health crusaders is a tellin' all and sundries how to keep cool fer the babies these days, but there aint none uv these here herrings what is a tellin' the babies uv a bigger calibre how they kin keep frum gittin' too hot in their B. V. D's when the thermos bottle be-gins to boil in the ice box.

Now lots uv this here dope what these here health birds is a gittin' shed uv, is jist sum things what gives these here birds a chance to shoot their faces off, 'n lots of this kind uv fry is the kinds what if, the more they shoots their face off the more face they gits, so es after while they has enuf face so es nuthin at tall kin jar em out uv their smug complience. So while they is a tel-lin' all uv this here, what to do, 'n what not anybody wants to do, fer the babies, why I is goin' to tell all uv these here bigger kids how they kin keep frum lookin' like sum cook-ed lobster when the thermometer is tryin' to kick the shingles off uv the roof, which is enuff to make any body hot when these here lumber gasaboos is a tryin' to boost the sky up a mile er two with their prices.

First off uv the bat every body what is a wantin' to keep off uv the

heat wants to think sum coolin' 'thots like thinkin' 'bout the time when sum budy stuck sum gum into their hair what they couldn't git out fer a month, also 'bout the time when friend wife chopped up your best fishin' pole fer kindlin' when she wanted to make a quick fire to make sum sallyhad for sum ane what had dropped into yer home informly. Also sum other that what is good to think 'bout is when you was a camp-in' out 'n scorched off one side of yer mustache when you was tryin' to blow up the fire, which same, if you ain't got no mustache don't make no differents as them what ain't got no brush to hide behind is jist es well off, also lots uv these here brush birds grows a brush onto their coun-tenances to make up fer what they jacks on the top uv their koo kooos, altho it ain't no wonder that hair won't grow on some uv these koo koo mahogany tops.

Now when any budy has got their-self into the proper state of mind, by thinkin' coolin' 'thots like what I has tolled, why then they kin git the lump uv ice what the ice man bit off with his faltz teeth that mornin' 'n left on the front door step in the sun, 'n put this here lump uv coldness, what is mostly a wet spot on the porch, into the bath tub with sum hot water, and then climb up onto the 'lectric light bulb 'n after sayin' "Blinken blinken ain't it hot hinken hinken hotter hot I'm es hot es a Hot-entot!" then when you has sort erung this here off in a cool sort uv way why dive off into the tub head first 'n if this here don't make you fer-git 'bout bein' hot why you is most likely too hard headed fer the heat to make much uv a impression on any way 'n you kin go on yer way rejoicin'.

Of course if you is of the female persuasion why you will want sum other set uv rules es to what you is to think but es the females usually has plenty uv rules to go by, why if they is wanten to try sum uv these, they kin read these here backwards and if that don't make the janes keep cool follerin' what they reads that way why then they had better git sum boquet uv stingin' nettles fer they will be stung any way.

Maybe lots uv poor fish will say that to do all uv the above is too much work but what most everybody is a needin' these days is a little more uv the exertion 'n then they won't have time to tell every budy wht they meets "It's hotter'n a'ell" like they does now days 'n es I ain't seed nobody what has been there I guess these hot tamales don't know what they s talkin' 'bout which don't make no differents es maybe they is on their way and ain't arrive yet.
