The relief society will meet on Thursday afternoon at 2 o'clock.

The Boy Scouts will hold a meet-

ing Thursday night at the Gym, at the school house.
The Farmers' League will hold a meeting Wednesday night at 8 o'clock in the meeting house.

STERLING

Mrs. John Hawes left here Tuesday last for Virginia, Idaho.

Gus Wallin returned to his home in Pocatello Monday, after spending several days here visiting Clarence Pope.

Ray Decker of Idaho Falls was in this vicinity Wednesday on business. Mrs. James Christensen returned recently from Utah, where she was called to attend the funeral of her mother.

Mrs. Earl Leigh arrived here Friday where she has been visiting friends for several days.

Mrs. L. A. Nugent and son, Alvie, were Aberdeen visitors last Tuesday.

Everett Colburn returned from Ogden, Utah, recently.

Harry Beebe arrived home, Friday from Minidoka, Idaho.

Mr. and Mrs. Joe Gough and family are moving to Blackfoot this week where they will remain for the winter.

Nellie Cooper was an Aberdeen visitor, shopping, recently.

Clarence Pope arrived here last Thursday from Pocatello where he spent several days visiting with his parents.

John Gough made a business trip to Blackfoot Monday.

The dance given last Friday at the hall was attended by a good crowd.

Ray Cole returned home Saturday from Blackfoot.

The girls and boys of this community are delighted over the beautiful weather we are having and are spending their time in the evening skating on the ice pond.

A large crowd of people from Sterling spent last Thursday evening in Grandview attending the surprise party given on Mrs. Patten.

Harvey Rice returned from Provo, Utah, recently, after an absence of several weeks.

Mr. and Mrs. Hugh Wells were Blackfoot visitors Monday.

Ralph Parsons was a Blackfoot visitor on business Tuesday.

ROCKFORD

The Rockford Mercantile store deserves special mention in this paper as it is an extra fine large store especially so for a small place. They carry a fine line of groceries and dry goods, even a very good line of Xmas toys and gifts. Santa Claus doesn't need to go to a larger place to fill the packs on his back for he can get all he needs at the Rockford store.

Saturday evening quite a crowd of boys and girls went skating on the Peoples' canal. The ice is about six inches thick and the young folks had an enjoyable time.

Several of our young people attended the dance at Thomas Friday evening.

Mr. Clemmen's orchestra from Blackfoot furnished the music and all had an enjoyable time.

A number of our people attended church at Thomas Sunday where they received a special religious feast in listening to Elder Clark of the Eastern States mission speak.

Quite a number of our men are hauling wood from the lava and others are cutting ice, getting in their supply while the weather is good.

Mr. and Mrs. Claus Anderson and family, formerly of Groveland have moved into the Fulmer home.

Jack Cameron leaves for Pocatello soon where he will consult a doctor regarding his health.

J. G. Wells was a visitor in the city Saturday night.

J. A. Peterson and P. E. Van Orden were visitors at Aberdeen Sunday as home missionaries.

Claude Watson, Cy Derrick and Mr. Oviatt of Salt Lake City, were visitors at the Rockford store last week.

Mrs. Helma Cameron and Vera Cameron were Blackfoot visitors on Saturday night.

Louis Barnes is having a new house erected.

The garage at Rockford opened for business last week. Henry Palmer is the mechanic.

A coyote jumped in front of Everett Faulconer's gun the other day and what do you think, he made a hit.

Joseph Merrell of Thomas was a Rockford visitor last Thursday.

Mr. and Mrs. Atkins called on Mr. and Mrs. Claus Anderson Sunday.

PREPARE FOR CONCERT TOUR

Men of the University of Idaho glee club are practicing nightly in preparation for their concert tour through 13 Idaho towns, which is to begin soon after Christmas.

MANY SEE MARIONETTES

Large audiences saw performances of "The Rose and the Ring" and "Rip Van Winkle," presented at the University of Idaho by Tony Sarg's marionettes.

FARM BUREAU RECORD FOR 1921

Potato Improvement

Meetings were held throughout the county last spring in connection with the potato work. It was felt necessary to put on a thorough campaign in order to control the disease which is spreading so rapidly in the county. At these meetings 208 men signed up to raise seed plots. Letters were sent to all of these men with instructions as to inspecting the potatoes and roguing out the diseased plants and those not true to type. The fields were visited personally as far as the county agent's time would permit. Before digging time the best hills were staked off, and these hills were dug separately to use in similar seed plots next year. The rest of the potatoes from the plots will be used for seed in commercial fields.

The final reports turned in by the farmers showed that the average yield per acre was seventy-five sacks per acre above the average yield on the commercial fields. A majority of the farmers signing up completed the work and were very satisfied with the results obtained.

As a result of this extensive potato work we have in the county about 6,000 sacks of potatoes which are eligible for certification and 10,500 sacks of potatoes which will be recommended to those who cannot afford to buy the certified seed. These recommendations are based on yield, freedom from disease and type.

A potato excursion was held on August 8, when thirty-five Bingham County farmers went in cars to St. Anthony to inspect the famous potato fields in that section. They were met by County Agent White and the Commercial club of St. Anthony and received a hearty welcome as well as some important information.

Grain Improvement

Many grain fields were inspected with a view to certification, and to give suggestions to improve the crops. The following will probably be certified: 5,000 bushels of Dicklow wheat, 450 bushels of Kanred wheat, 1500 bushels of Idamine oats and a small amount of Trebi Barley. 400 bushels of Early Barte wheat has been approved.

Rodent Control

Seven demonstrations were held in Aberdeen to instruct the farmers in poisoning gophers. A great deal of damage is being done in that section along the canal banks. Mr. John Finley, State Biological Assistant, gave the instructions at the demonstrations.

About 5,000 acre soil land has been poisoned for squirrels. This work has been done by individual farmers who purchased their strychnine through the County Agent's office. The county pays half the cost of this strychnine.

Several rabbit drives were held during the winter months and many of these pests driven to their death. Rabbit poisoning campaigns were also carried on in Pingree, Springfield and Sterling.

Insect Control

The Grimm alfalfa seed growers in this county bought ten spraying machines cooperatively to use in combatting the alfalfa weevil. Mr. Claude Wakeland, State Entomologist, made several trips into the county to assist in this work, and carried on eight demonstrations to determine whether it is profitable to spray twice in one season on alfalfa raised for seed purposes.

The spraying proved very satisfactory and will be continued next year. 7,800 pounds of Calcium Arsenate was used in spraying, which was bought cooperatively at 12 cents per pound f. o. b. Midvale, Utah.

Livestock

About twenty cars of corn was purchased cooperatively and shipped in from Kearney, Nebraska, to use in fattening hogs and cattle. This made it possible to fit the stock for market at a much lower cost.

290 head of cattle were tested for tuberculosis by Dr. Shipley, with two re-actors. 175 head have been vaccinated for blackleg.

Dairying

Many of the farmers in Bingham County are very desirous of keeping a few dairy cows on the farms to insure a steady income. Several meetings have been held for the purpose of promoting dairying and the farmers are now ready to ship in a few cars of dairy cattle if finances can be obtained. Up to date it has been impossible to get the needed credit for this project but the county agent is still searching for some means of obtaining funds to promote this worthy cause.

Marketing

The Idaho Grimm Alfalfa Seed Growers Association was organized for the purpose of marketing the Grimm alfalfa seed in the county.

A wool pool was organized and 23,000 pounds of wool sold. Nearly all of this wool was in very small quantities and a great many clips were of an inferior grade and not well prepared for market. It would have been almost impossible for the farmers to have sold these small lots individually at any price.

Eleven cars of hogs were marketed and one car of lambs. The hogs

THE BROWN-HART CO.

"The Home of Popular Prices"

Toys, Dolls and Games to Gladden the Children on Christmas Morning.

were sold at the shipping point and the lambs were consigned to Omaha market. These shipments were made up from many different feed lots and has proven much more profitable than for each farmer to market his few separately.

Weed Control
A campaign was launched for the control of noxious weeds on the farms. Bulletins were distributed descriptive of the different weed pests of the state and publicity given regarding the necessity of controlling them.

Sodium arsenate was used in spraying those weeds which could not be handled by cultivation. The sodium arsenate was ordered from the U. S. Smelting Co., at a cost of \$1.50 per gallon, f. o. b. Midvale, Utah. A total of 41 gallons has been ordered, several gallons of which were used in demonstration work.

Home Economics
A millinery class was held at Springfield under the direction of Miss Wilhelmina E. Jacobson, state clothing specialist. Twelve hats were made at the meeting and several of have been made since as a result of her instructions.

Miscellaneous
200 farm laborer swere placed on farms.

475 farm visits were made by the County Agent.

2505 farmers called on the Agent at headquarters.

77 meetings were held under the supervision of the County Agent with a total attendance of 2,168.

612 personal letters were written. 15,523 circular letters were mailed.

STANDARDIZATION OF DANGER SIGNS NEEDED

Standardize danger signs along American roadways! Make them alike from coast to coast.
So urges the Bureau of Public Roads, United States Department of Agriculture. The recommendation is made for the consideration of highway officials, automobile organizations, municipal officials, and other persons interested in the observance of safety week which began December 4.

By standardization of all highway danger signs, the department believes automobile accidents may be lessened. Deaths from automobile accidents have nearly doubled since 1915, and the rapid increase of such accidents, the department believes, can be appreciably checked by the adoption of danger signs, easily read and distinctive, along

American highways.
A tourist at the present time will see almost as many kinds of signs as there are states he visits. Also, in some cases, the style of sign changes in going from one county to another.

The subject is now under consideration by a committee of the American Association of State Highway officials.

GOING HOME FOR CHRISTMAS

Many of the students at the University of Idaho are planning on spending the Christmas holidays at home. A fare and a half for the round trip will be provided by all railroads. A special train to Pocatello, connecting with trains on all branch-lines and on the Pocatello-Butte line, will be run by the O. W. R. & N.

HENCE THE NAME
(Houston Post)

He was to take her for a trip in his new yacht the next day and she was questioning him about it.
"How awfully nice of you to name the boat after me!" she giggled.
"What is she like?"
"Well—er," he answered, "she's not much to look at, you know, but she's very fast."
