

LOCAL INTELLIGENCE.

THE SALE CONSUMED.—Last Wednesday the sale of the Jackrabbit mine to M. J. McDonald and James M. Day by Garrison and Emory for \$40,000 and a one-tenth interest in the stock of the incorporation was finally completed...

FROM SILVER REEF.—Con. Gibbried returned here from Silver Reef on Tuesday. He informs us that in his suit against Goss and Hunter for a half ownership in the millsite and water-right he came off victorious.

MAYFLOWER MINE.—The Mayflower mine of Bristol District has now reached a depth in the incline of 175 feet; have been running in ore the last 45 feet; have made an upraise from the main incline at depth of 150 feet, the upraise being 23 feet, all in ore.

FOR ARIZONA.—John N. Craig departed from Pioche for Mineral Park and Greenwood, Arizona, on Tuesday. Mr. Craig's object in this journey is to secure his interest on the McCrackin lode, which he holds in common with the late John Baker, who along with Grant Blake, was killed by Foster.

FOR EUREKA.—Col. Geo. M. Sabin left Pioche last Tuesday for Eureka to practice his profession there with his partner, W. W. Bishop. During his sojourn in Pioche, about seven years, and during which time we have had daily intercourse and business transactions with him, we have always found him to be the right man in the right place, genial, courteous and obliging.

SALE POSTPONED.—A notice is published in to-day's RECORD, by Mortimer Fuller, Trustee of the Townsite of Pioche, postponing the sale of town lots in Pioche Township until Monday, October 15th, at 10 o'clock a. m., at which time the sale will take place at the late Land Office.

BOARD OF EQUALIZATION.—The Board of Equalization met on the first and transacted the following business: Ordered that the taxes of W. C. Glissan for 1877 be reduced \$896 on personal property. That the assessment of J. A. Curtis for 1877 be reduced \$100 on personal property.

ACCIDENT.—Pete Medlin, while out gunning last week, met with an accident whereby he came near losing the sight of his right eye. In attempting to fire off the gun he had, the cap burst, one of the pieces entering his eye, fortunately in a place where it did not do much harm, but it was the cause of preventing Peter from winking at the girls with his right eye for several days.

DISTRICT COURT.—The District Court was adjourned last Wednesday by the County Clerk until Thursday, November 1, 1877.

"Bugging."—Intense pleasure and much amusement is created in this community by the process known as "bugging" an individual. There are two methods of working the bug. One is the old method of tying an imitation bug to a black string, coming behind the victim and letting it drop down in front of his face, the effect generally produced being that the victim will make frantic endeavors to knock the hideous bug off, so that it will not get on him.

COUNTY COMMISSIONERS.—The Board of County Commissioners held their regular monthly meeting on Monday, October 1st, and transacted the following business: The following bills were presented and allowed: Joseph Percival, salary Fire Warden, \$100; J. C. Henderson, recording deeds, \$7; Thompson Campbell, salary, \$500; D. A. Fulk, salary, \$150; E. Logan, \$28.25; W. L. McKee, salary as Jailer, \$100; W. C. F. Morton, salary, \$150; J. N. Craig, salary, \$150; J. M. Hanford, fees, \$100.25.

CHINAMAN SHOT.—The Chinese cook employed at Gibbried & Brisacher's restaurant was shot in the left arm on Wednesday morning about 1 o'clock by some unknown white man.

GOODS ARRIVING.—Notwithstanding the hardness of the times and the scarcity of money our merchants continue to replenish their fall stock of goods. On last Sunday Eureka and Palisade teams arrived with freight for most of them, and again on Tuesday another train of the same company arrived, also seven wagons from York, Utah, loaded with groceries, etc., for F. W. Clute.

WHAT'S TO BE DONE.—Sheriff McKee received on Sunday last a telegram to the effect that Dean, Sloan, Newman and McManus, the reservation murderers, were awaiting his orders and wanting to know when he was coming for them. He answered by telegraph to the effect that the County Commissioners had made no provisions for him to go for them, but that if they were delivered on the county borders they would be received and taken charge of by the officers. And that's the way the matter stands.

ON Wednesday a fire was discovered, after some search, by Ed. Clute in Clute's warehouse adjoining the store. The fire was found to proceed from a cloth covering a sugar barrel which had caught fire from a lighted cigar that had been placed there by a teamster who had been assisting in moving some goods, and forgetting all about it, went off and left it there.

STOCKBROKERS.—F. W. Clute has formed a partnership in San Francisco with L. F. Loveland, a member of the San Francisco Stock and Exchange Board, the firm being Clute & Loveland. Their place of business is 306 Montgomery street, where they are prepared to buy and sell stocks on commission.

TREASURER'S REPORT.—We publish to-day the Treasurer and Auditor's report of the finances of Lincoln county for the quarter year ending September 30, 1877. The report shows a cash balance on hand at that date of \$5087.74, a portion belonging to the State and the balance apportioned among the different funds.

BITTEN.—Nat. Miller was bitten on the right hand about a week ago, during the night, out at his camp in Royal City, by some venomous insect, probably a tarantula. He was compelled to come to Pioche to have the poisoned hand doctored.

IT is rumored that John R. James has started a banking-house in Tuscarora, although we have seen no advertisement of the same in the Review.

CHARLEY HEATH and brother departed for Hiko.

ROYAL CITY.—Owing to the recent sale of the Jackrabbit mine and the taking charge of it by a San Francisco company the rush and business incident to a promising new mining camp is taking place at Royal City. Two houses have been built, the first one by China Dick as a restaurant and the other by Rock Drolette which was opened yesterday as a bar-room.

SOCIAL PARTY.—The members of the Young Men's Social Club intend giving a social party on Friday evening, the 19th of October, the third anniversary of the organization of the club. During the time of the existence of this club it has, by its numerous social parties throughout the dancing season, contributed very much to enliven what otherwise would have been a very dull town indeed, and they deserve great credit for the pleasant manner in which they have conducted all their parties.

ATTEMPT AT SUICIDE.—Freddy Gaunt, otherwise known as "Crazy Jane," one of the demi monde of Pioche, attempted suicide yesterday by taking poison. It was about two hours after she had taken the dose before the alarm was given and Doctor Philson called. He applied the usual remedies in such cases, but up to eight o'clock last evening she was in a very precarious state and was not expected to live through the night.

PAY-DAY AND BLOW OUT.—Saturday last some little excitement was created around town by the Alps S. M. Company paying off their employees in full to the first of August. In consequence of this R. Riess, of the Bank Exchange Restaurant, who has a number of boarders from that mine, showed his appreciation of the money received from the company by treating all his guests at dinner to wine.

MARRIED.—Charles Hopkins was married to Miss Florence Andrews on Thursday evening last, at the residence of the bride's parents, on Panama Flat. We wish the married couple all the happiness possible in their future state.

RAYMOND & ELY.—No special changes to note in the mine; work continues about the same as usual, with rather more than the usual quantity of ore being extracted. The ore now being extracted is working well at the mill.

POCKET BOOKS.—Wiederhold & Goodman have just received a large lot of time-books, blank-books and pocket-books of all kinds and descriptions, also a lot of handsome initial note paper and envelopes.

FURNACE.—The Billionville furnace has been closed down and is to be thoroughly overhauled and relined. This will take over a week's time.

FOR SALE.—Two canary birds, with cages, sold together or separately. Apply at Press. Ward's saloon.

Two regular stage lines are being made ready to start to convey passengers to and from Royal City.

POCKET BULLION.—Wells, Fargo & Co. shipped during the week bullion valued at \$11,954.

YESTERDAY was pay-day of the Raymond & Ely employees.

The Sheriff and officers around the County Jail have been much annoyed of late by people attempting to hold communication with the prisoners confined in that institution, through the side windows opening on Bateman street. Late Thursday evening one of the officials espied what he supposed to be a man leaning up against one of the windows, and, stealthily approaching him, grabbed him by the coat collar, and with a vigorous jerk, threw him into the middle of the street. He was slightly surprised at the apparent light weight of the fellow, and upon closer examination found that it was only the semblance of a man; in fact, an eddy stuffed with straw. Those who were quietly watching the scene say that the eddy displayed in kicking that harmless bundle would have done credit to a playful mule.

LARGE NUGGET.—Several weeks ago a nugget weighing twenty-four pounds was taken from the Wisel & Vizan placer claim at Osceola, owned by M. B. Garaghan, L. Leavitt, John Vizan and Chas. Wisel. It was kept dark at the time and not until the present have we been placed in possession of the facts. The nugget was so nearly all gold that a chisel had to be used upon it in order to place it in shape for melting, which was done here very privately a few days since. The product of the nugget was thirteen small bars, thought to be worth about three thousand dollars. The owners of the claim with good reason expect similar finds in future as it is among the best in Osceola.

A dispatch from Silver City, Idaho, says John Thomas and Mike Kenedy got into a shooting scrape at that place yesterday about the Illinois Central mine. Kenedy fired the first shot mortally wounding Thomas in the left breast. Thomas then burst into the shafthouse and shot Kenedy, swearing revenge; said he was dying and would kill Kenedy. One ball passed through the breast coming out in the back; another ball passed through the body from right side to left. Another shot completely shattered the shoulder and arm. Both men were alive last night but not expected to live six hours at farthest. Dick Thomas and another man on Kenedy's side had a hand in shooting, but both are unhurt.

There is not much to add to what was said last week about the progress of development going on in the Two G. The drifts on the different levels are being drove forward as fast as may be, with a view of exposing and getting into shape for profitable working as much of the ore bodies as possible, for easy extraction when the furnaces start up. The appearance of the mine, so far as we can learn, is all that could be desired—large bodies of ore in all the levels and in the face of all the drifts. The 1000-ton contract of Frank Knowles is completed and the ore undergoing the usual roasting process preparatory to being worked in the furnace. Of course matters look quiet about the mine as it does about town, but we believe everything is being done possible to facilitate the early starting up of the furnaces and the putting on of a full force of men. We should remember that "large bodies move slowly," but when it once gets under way it moves with a momentum and power that is irresistible, and carries along with it everything and everybody. This is what we all are looking for; then let us council patience and "wait for the wagon."—[Tybo Sun.

Two or three earthquake shocks were experienced in this city yesterday morning about 5 o'clock. One shock occurred at ten minutes before and another ten after 5 o'clock. Some say that there was a slight shock shortly after 4 o'clock. The one ten minutes before 5 o'clock was quite a lively shock. It caused doors, crockery and other things of like character to rattle at an alarming rate. Many persons who were awakened by the shock thought the doors of their houses were being broken open by burglars. Near the hoisting works it was thought that some accident had happened to the building had fallen down. It has been a long time since we have had any earthquake shocks in this city. Some years ago they were very frequent and at one time, for two or three months, shocks were felt almost daily—sometimes half a dozen in one day. Still we are not happy.

Joseph Trewella, a miner at the Justice, was hurt by a blast at half past 4 o'clock yesterday evening. The cause of the accident is not known, as Trewella was a considerable distance from the blast at the time it exploded. A large piece of rock struck him under the left eye, crushing in all the bones of the face on the left side and making a fearful wound three or four inches deep. This caused excessive bleeding into the stomach. The blood was afterward vomited up. There were several scalp wounds on the right side of the head, but the principal injury is received from the wound under the left eye. His physicians say his recovery will necessarily be slow, but hope to pull him through all right.

WHAT'S THE USE?—A little Athol boy, guilty of some misconduct, upon being asked why he was so naughty, replied that he thought that he was not doing anything wrong. That's no excuse, said the mother; thinking doesn't mend the matter. "Well, mamma," said he, "what's the use of having a thinker, if you can't think?"

M. Thiers' death leaves but two survivors of the men who signed the press protest which preceded the revolution of 1830, namely, M. Mignet and M. Peisse.

CORN'S Mammoth Clothing and Dry Goods Emporium, at the old stand on Main street, opposite Meadow Valley street, has again opened with a new and well selected stock of goods pertaining to a first-class establishment. Everything new, nobby and stylish. Satisfaction guaranteed in every instance. Call at the old stand, where goods are sold at bottom prices.
